Advance Brands 401(k) Retirement Savings Plan

Notes to Financial Statements

December 2011 and 2010

Note 1: Description of the Plan

The following description of Advance Brands 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document, the amendments thereto and the *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General, Including Plan Termination

In 2011, the plan sponsor elected to merge the Plan into another plan, and effectively terminate the existing plan. All plan participants' accounts became 100% vested upon termination of the Plan. The Company made its final contribution to the Plan December 22, 2011. All participants' accounts were either transferred to the new plan or paid out as a lump-sum distribution (based on their election) by December 31, 2011.

The Plan was a defined contribution plan sponsored by Advance Pierre Foods, Inc. (the Company) for the benefit of its employees. Through September 30, 2010, the Plan was sponsored by Advance Brands, LLC (Advance Brands). Advance Brands was acquired by Advance Pierre Foods, Inc., effective September 30, 2010.

Employees did not need to attain a specific age or work a minimum number of years in order to become a participant in the Plan and begin making elective deferrals. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was also subject to a trust agreement describing the duties and responsibilities of the Company. Vanguard Fiduciary Trust Company (Vanguard) was the trustee of the Plan.

Contributions

The Plan permitted eligible employees, through a salary deferral election, to have the Company make annual contributions of up to 60% of eligible compensation. Participants could also contribute amounts representing distributions from other qualified plans (rollovers).

The Company's matching contributions were 100% of the participant's contributions up to a maximum of 3% of the participant's compensation and then 50% of the participant's deferrals on 3% to 5% of their eligible compensation.

Company profit-sharing contributions were discretionary as determined by the Company's Board of Directors. Contributions were subject to certain limitations.

The Company's qualified matching contributions were discretionary and were determined and made based on results of compliance testing.

Advance Brands 401(k) Retirement Savings Plan

Notes to Financial Statements

December 2011 and 2010

Participant Investment Account Options

Investment account options available included various funds. Each participant had the option of directing their contributions into any of the separate investment accounts and could change the allocation daily.

Participant Accounts

Each participant's account was credited with the participant's contribution and a share of Company contributions, plus earnings and losses thereon. The contributions were allocated to the various investment options designated by the participant. The participants' accounts also reflected the respective earnings or losses of each of the designated investment options. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions and their Company and qualified matching contributions, plus earnings thereon. Vesting in the Company's profit-sharing contribution portion of their accounts, plus earnings thereon, was based on years of credited service. A participant was fully vested after three years of continuous service. A participant was fully vested in the Company's profit-sharing contributions prior to January 1, 2006, after five years of continuous service. The Plan defined credited service as a minimum of 1,000 hours of full-time employment during a calendar year. The nonvested balance is forfeited upon termination of service. Forfeitures were first used to pay the Plan's administrative expenses. Remaining forfeited balances could be used to reduce future employer contributions.

Payment of Benefits

Generally, upon attainment of age 59½ or termination of service, and at any point in time thereafter, a participant could elect to receive a lump-sum distribution equal to their vested account balance. However, if the employee's vested balance was less than \$5,000, they were required to receive a lump-sum distribution. In certain hardship situations, as described in the Plan, participants could withdraw all or part of their account balances, excluding the employer match and profit sharing portions of their account balances, while actively employed.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled approximately \$0 and \$3,700, respectively. These accounts were used to reduce administrative expenditures.

Notes Receivable from Participants

The plan document included provisions authorizing loans from the Plan to active eligible participants. Loans were made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan was \$1,000. The maximum amount of a participant's loan was determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans were covered by demand notes and were repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant was paying the loan in full. Interest on the loans was based on the prime rate at the date the loan was initiated plus 1%.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Given the Plan's termination, accounting principles generally accepted in the United States of America indicate the Plan's basis of accounting should change from the ongoing plan basis to the liquidation basis. However, the impacts of these changes were deemed immaterial and, therefore, have not been reflected in the accompanying financial statements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The accompanying statements of net assets available for benefits present the fair value of the investment in the common/collective trust, as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The accompanying statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the financial statements. Actual results could differ from these estimates.

Valuation of Investments and Income Recognition

Mutual funds were valued at the net asset value of shares held by the Plan at year-end. The Plan's interest in the common/collective trust was valued based on information reported by the trustee using the audited financial statements of the common/collective trust at year-end.

Notes to Financial Statements

December 2011 and 2010

Investment transactions were recognized principally on the trade date. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Vanguard maintained custody of the investments and executed all investment transactions.

Realized gains and losses on investment transactions were recorded as the difference between proceeds received and the carrying value of the investment. The changes between years in the carrying value of investments were recorded as net unrealized appreciation or depreciation in the fair value of assets.

Notes Receivable from Participants

Notes receivable from participants were reported at amortized principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants were reclassified as distributions based upon the terms of the plan document.

Plan Tax Status

The Plan operated under a nonstandardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Vanguard. This prototype plan document has been filed with the appropriate agency and has obtained an opinion letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code and that the related trust was tax-exempt as of the financial statement date. The Plan has not obtained or requested a determination letter. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal or state income tax examinations by tax authorities for years before 2008.

Payment of Benefits

Benefit payments were recorded when paid.

Administrative Expenses

Administrative expenses were paid from participant forfeitures or by the Company at the Company's discretion.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Accountants' Report, which is the date the financial statements were available to be issued.

Note 4: Fair Value of Plan Assets and Liabilities

Accounting Standards Codification Topic 820, *Fair Value Measurements* (Topic 820), defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Topic 820 describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. Level 1 investments include mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of investments with similar characteristics or discounted cash flows. Level 2 investments include a common/collective trust and are valued based on information reported by the trustee using the audited financial statements of the common/collective trust at year-end. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The Plan had no Level 3 investments at December 31, 2011 and 2010.

Note 6: Party-in-Interest Transactions

Party-in-interest transactions included those with fiduciaries or employees of the Plan, any person who provided services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan invested in certain mutual funds managed by an affiliate of Vanguard. Transactions in such investments qualified as party-in-interest transactions, which are exempt from the prohibited transaction rules. The Company provided certain administrative services at no cost to the Plan.
