Independent Auditor's Report

Administrative Committee of the
Blue Plate Catering 401(k) Profit Sharing Plan
Chicago, Illinois

We were engaged to audit the financial statements of **Blue Plate Catering 401(k) Profit Sharing Plan** as of and for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the plan as of December, 31, 2010 were audited by Blackman Kallick, LLP, whose report dated July 12, 2011, expressed a disclaimer of opinion on those statements for the same circumstances indicated below. Blackman Kallick, LLP subsequently merged into Plante & Moran, PLLC.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Ascensus, Inc., the record keeper of the Plan, as agent for Frontier Trust Company, the custodian of the Plan from January 1, 2010 through August 31, 2011, and National Benefit Services, the record keeper of the Plan, as agent for ING Life Insurance and Annuity Company, ING, the custodian of the Plan for the period from September 1, 2011 through December 31, 2011, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications as of December 31, 2011 and 2010, and for the years then ended, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Blue Plate Catering 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan covering all employees of Blue Plate Catering, Ltd. and Applause Food Services, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Any employee who has attained age 21 and completed six consecutive months with at least 83.33 hours of service in each month is eligible to enter the Plan on the first day of the quarter immediately following the satisfaction of eligibility requirements.

Participant Contributions

Participants may elect to make a deferral contribution of up to 100% of their total earnings. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. These contributions are made out of pretax earnings through salary reductions and are subject to certain IRS limitations. The Plan also accepts rollovers from other qualified Plans.

Participants direct the investment of their contributions into various investment options offered by the Plan. The participants are able to change their investment options on a daily basis.

Employer Contributions

The employer may elect to make a discretionary matching contribution or other discretionary contributions. In order to receive an allocation of the discretionary matching contribution, a participant must be employed as of the last day of the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution and allocations of Plan earnings and charged with allocations of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability or retirement, participants may elect to receive a lump sum distribution equal to the vested portion of their account balance. In-service distributions may be made from a participant's vested account at any time after the attainment of age 59½.

Vesting

All participants are 100% vested immediately in their 401(k) deferral accounts and earnings thereon. Participants vest in their employer contribution accounts in accordance with the following table:

Years of Vesting Service	Vested %
Less than 2	0%
2	33
3	67
4	100

Forfeitures

As of December 31, 2011 and 2010, forfeited nonvested accounts totaled $975 and $39, respectively. These accounts will be used to offset future employer contributions or pay administrative expenses.

Administrative Expenses

All administrative expenses are paid by the Plan to the extent not paid by the Company.

Administration of the Plan

The Company is the administrator of the Plan. The Plan's custodian was The Frontier Trust Company for the period from January 1, 2010 through August 31, 2011. ING Life Insurance and Annuity Company (ING) was the custodian of the Plan for the period from September 1, 2011 through December 31, 2011. All information relating to the value of the Plan's investments and related investment income was obtained from reports submitted by the above mentioned custodian. These reports were certified by the custodian as being complete and accurate.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loan repayment period is not to exceed five years. The loans are collateralized by the participant's account balance and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with prevailing local rates as determined by commercial lending institutions. Principal and interest are paid ratably through payroll deductions.

Note 2 - Summary of Significant Accounting Policies

Significant accounting policies are described below and have been consistently applied.

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

All Plan investments are carried at fair value in accordance with accounting principles generally accepted in the United States of America (GAAPUSA). See Note 3 for more information on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. Net appreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Effective January 1, 2010, the Plan adopted new guidance that requires the Plan to report significant transfers between Level 1 and Level 2 and the reasons for those transfers, as well as disclosing the reasons for transfers in or out of Level 3. Additionally, the guidance requires the Plan to clarify existing disclosure requirements about the level of disaggregation and inputs and valuation techniques. The adoption of this guidance did not have an impact on the Plan's financial statements.

The new guidance also requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount, effective for fiscal years beginning after December 15, 2010. The Plan does not expect the adoption of the guidance for Level 3 activity to have a significant impact on its financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Delinquent loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with GAAPUSA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's investments are exposed to various risks such as interest rate and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Subsequent Events

The Plan has evaluated subsequent events through July 23, 2012, the date the 2011 financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

Note 3 - Fair Value Measurements (Continued)

The Plan's investments are classified in one of the following three categories based upon the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2011 and 2010, the following valuation methodologies have been used to value the Plan's investments:

- Mutual funds - Valued at the reported net asset value (NAV) of the shares held by the Plan at year-end.

- Money market fund - The Plan's interest in the Merrill Lynch Ready Asset Trust Fund is valued at an NAV of $1 as reported by the fund manager.

- Pooled separate accounts - Valued at the net asset value (NAV) per unit as determined by ING. Such NAV is based on the value of the underlying assets and liabilities of the accounts. The investment objective of the accounts varies and can be differentiated by the nature of their holdings as disclosed in the tables below. Participants may transfer funds in and out of the accounts without restriction.

- Guaranteed investment contracts - Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 3 - Fair Value Measurements (Continued)

The following tables summarize the Plan's investments by level within the fair value hierarchy as of December 31, 2011 and 2010:

For the years ended December 31, 2011 and 2010, the Plan's investments in mutual funds, including gains and losses on investments bought and sold as well as held during the year, depreciated and appreciated in value by $13,788 and $105,507, respectively.

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING, custodian of the Plan from September 1, 2011 through December 31, 2011 and Ascensus, as agent for the custodian of the Plan, from January 1, 2010 through August 31, 2011, have certified to the completeness and accuracy of the Plan's investments reflected in the statements of net assets available for benefits as of December 31, 2011 and 2010, the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010 and the schedule of assets held at end of year as of December 31, 2011, as indicated above and in total.

Note 5 - Investment Contract

The Plan has entered into a fully guaranteed investment contract with ING. ING maintains contributions in a pooled account. The account is credited with earnings on the underlying investments (Fixed Account) and charged with plan withdrawals and administrative expenses charged by ING. The contract is included in the financial statements at contract value, which represents contributions made under the contract plus earnings, less plan withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no allowances against the contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately 1.85% for 2011. The crediting interest rate is based on an agreed upon formula with the issuer, but cannot be less than 1.35% for 2011.

Note 6 - Related Party Transactions

Certain employees of the Company provide administrative and trustee services to the Plan and are not reimbursed for their services from the Plan. Certain other administrative fees related to the Plan are paid for by the Company.

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

Note 8 - Income Tax Status

The Plan has adopted prototype Plan documents offered by Ascensus, Inc. Ascensus, Inc. has received a determination letter from the Internal Revenue Service and has represented to the Plan that, as designed, the Plan is in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

GAAPUSA requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taking jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
