We were engaged to audit the accompanying statement of net assets available for benefits of the Ames True Temper Retirement Savings and Investment Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by State Street Bank and Trust Company and Massachusetts Fidelity Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that State Street Bank and Trust Company and Massachusetts Fidelity Trust Company hold Plan investments and designate an agent, Diversified Investment Advisors, Inc., to execute investment transactions. The plan administrator has obtained certifications from the respective trustees as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Ames True Temper Retirement Savings and Investment Plan

Notes to Financial Statements
December 31, 2011 and 2010

1. Description of Plan

Ames True Temper Retirement Savings and Investment Plan (the "Plan") is a participant-directed defined contribution plan.

The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Griffon Corporation acquired Ames True Temper, Inc. on September 30, 2010. Effective December 31, 2011, the Plan merged into The Griffon Corporation Retirement Plan ("Griffon Plan") and employees of Ames True Temper, Inc. ("the Company") who are actively employed by the Company as of December 31, 2011 and perform an hour of service on or after January 1, 2012 are eligible to become participants in the Griffon Plan in accordance with the terms and conditions of the Griffon Plan. Effective December 31, 2011, the assets and liabilities of the Plan are assumed by the Griffon Plan. The benefits of a participant in the Plan who does not perform an hour of service on or after January 1, 2012 shall be governed by the provisions of the Plan in effect as of the day such participant terminated employment with the Company. The assets transferred as of December 31, 2011 consisted of the following:

	Assets Transferred
Investments, at fair value	\$ 29,035,266
Notes receivable from participants	<u>1,012,538</u>
	<u>\$ 30,047,804</u>

The Plan has evaluated subsequent events for recognition or disclosure through July 20, 2012, which is the date the financial statements were available to be issued.

Eligibility

Starting in the 2008 Plan year, the Plan covers all full-time and part-time employees of the Company. An employee is eligible to participate in the Plan on the first day of the month coinciding with or following the date in which the participant has attained age twenty-one and completed six-months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

There are several types of contributions that can be added to a participant's account: an employee salary deferral contribution, an employer matching contribution or enhanced matching contribution, a discretionary employer non-elective contribution, and a discretionary employer profit sharing contribution. Participants may also contribute amounts representing distributions from other qualified plans.

Each year, participants may contribute up to the annual Internal Revenue Service ("IRS") limit of pretax annual compensation, as defined in the Plan. Effective January 1, 2004, participants over the age of fifty may make catch-up contributions, subject to Internal Revenue Code limitations.

Ames True Temper Retirement Savings and Investment Plan

Notes to Financial Statements
December 31, 2011 and 2010

Starting in the 2008 Plan year, the Company contributes as an employer match 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation. Also, certain participants within the existing defined benefit plan ("DB Plan") will be eligible for an enhanced matching contribution under the Plan. The eligibility and amount of the enhanced matching contribution under the Plan was determined by the participant's combined years of benefit service accrued under the DB Plan and age as of December 31, 2008.

Beginning on January 1, 2010, participants covered by the collective bargaining agreement at the Jackson facility will receive an employer matching contribution equal to 100% of the first 3% of compensation and 50% of the next 2% of compensation contributed to the Plan.

A discretionary employer non-elected contribution and a discretionary employer profit sharing contribution may be contributed at the option of the Company's Board of Directors. These contributions were not made during 2011.

Upon enrollment, a participant may direct his or her contributions and any related earnings into any of the Plan's investment options including a self-managed option. Participants may change their investment options at any time.

Participants' Accounts

Each participant's account is credited with an allocation of various contributions, Plan earnings (including unrealized appreciation or depreciation of Plan assets), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. Note receivable and disbursement processing fees are charged to the respective participants' accounts. Other administrative expenses are allocated pro rata based on the participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Forfeited Accounts

Forfeitures of non-vested accounts are first used to pay operating expenses and then to reduce the employer's matching contribution. Forfeitures applied against administrative expenses and employer matching contributions amounted to \$6,092 for the year ended December 31, 2011. As of December 31, 2011 and 2010, forfeited non vested accounts amounted to \$-0- and \$547, respectively.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and account balances transferred from other qualified plans (rollovers). Vesting in the Company's allowable discretionary contribution portion of participants' accounts plus actual earnings thereon is based on years of service. A participant is 100% vested in match contributions made prior to December 31, 2008 after three years of credited service, as defined by the Plan.

Beginning January 1, 2009, the Company's matching and enhanced matching contributions made after December 31, 2008 are 100% vested upon deposit to the participants' account.

Ames True Temper Retirement Savings and Investment Plan

Notes to Financial Statements
December 31, 2011 and 2010

Payment of Benefits

Upon retirement, disability, separation from service, or death, a participant may elect to receive an annuity or lump-sum amount equal to his or her vested account balance. Upon termination of service other than by retirement, disability, or death, a participant will receive a lump-sum payment if the total of their vested account balance does not exceed \$1,000. If the vested account balance exceeds \$1,000, the assets will generally be held in a trust until the participant's normal or early retirement date or by a request for withdrawal. Withdrawals during employment may also be made when certain conditions and circumstances exist. In addition, the Plan allows for hardship and in-service withdrawals if certain criteria are met.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 and may not exceed the lesser of \$50,000 or 50% of the participant's vested account balance. Amounts invested in the self managed option are not available for notes. A participant may not have more than two notes outstanding at any time. Borrowings are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Notes must generally be repaid in five years unless used to acquire a primary residence, which may increase the loan term to ten years. Principal and interest are paid ratably through bi-weekly payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Refer to Note 1 for further description of the merger of the Plan into the Griffon Plan.

2. Summary of Significant Accounting Policies

New Accounting Standards

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2011-04 "Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, ("ASU 2011-04"). ASU 2011-04 will expand disclosures about fair value measurement and result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. ASU 2011-04 is effective for fiscal years and interim reporting periods beginning after December 15, 2011. Plan management is evaluating the impact of adopting ASU 2011-04 and believes it will not be material to the financial statements but will provide additional disclosures.

Notes to Financial Statements
December 31, 2011 and 2010

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust fund. Contract value for this common/collective trust fund is based on the net asset value of the fund as reported by the investment advisor. The change from contract value to fair value had an immaterial impact on net assets which have historically been presented at contract value. The Plan presents the common/collective trust fund at contract value. The adjustment from contract value to fair value is not material. The common/collective trust fund was fully liquidated during 2011.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are recorded as distributions based upon the terms of the plan document.

Administrative of Plan Assets

The Plan's assets are administered under a contract with Diversified Investment Advisors, the agent of the Plan. The agent invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants. Certain administrative expenses incurred by the Plan are paid by the Company.

Payment of Benefits

Benefit payments to participants are recorded when paid.

3. Fair Value Measurements

FASB codification "Fair Value Measurements" provides the framework for measuring fair value. The guidance establishes a fair value hierarchy that is intended to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon their own market assumptions. The fair value hierarchy consists of the following three levels:

Level 1: Inputs are quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs are quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable, and market-corroborated inputs which are derived principally from or corroborated by observable market data.

Level 3: Inputs are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no significant changes in the methodologies used during the years ended December 31, 2011 and 2010.

Level 1 Fair Value Measurements

Investments in interest-bearing cash are stated at cost, which approximates fair value. The fair values of money market and mutual funds are based on quoted net asset values of the shares held by the Plan at year end. Participants may also elect to invest in a self-managed account. This investment option allows participants to invest their funds into particular investments for certain additional fees associated with the self-direction. Investments in the self-managed account are based on quoted net asset values of the shares held by the Plan at year end. All of these investments are classified within Level 1 of the valuation hierarchy.

Level 2 Fair Value Measurements

Investments in the common/collective trust fund are valued at the net value of participation units held by the Plan at year end. The value of these units is determined by the trustee based on the current market values of the underlying assets of the common/collective trust fund as based on information reported by the investment advisor using the financial statements of the common/collective trust fund at year end. Further information concerning the common/collective trust fund may be obtained from their separate audited financial statements. All of these investments are classified within Level 2 of the valuation hierarchy. The underlying assets comprising the aforementioned common/collective trust fund, along with a description detailing the investments which are included and any unfunded commitments or significant redemption notice requirements are as follows as of December 31, 2010:

The Fund invested 100% of its net assets in the Wells Fargo Stable Return Fund G (Wells Fargo). Wells Fargo is a bank collective trust, sub-advised by Galliard Capital Management, Inc. and primarily invests in investment contracts, including traditional guaranteed investment contracts (GICs) and security-backed contracts issued by insurance companies and other financial institutions. The estimated fair value of the collective trust funds is net asset value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have definite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

GICs are backed by the general account of the contract issuer. Wells Fargo deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified period. Interest is accrued on either a simple or fully compounded basis, and is paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will be at contract value (principal plus accrued interest).

A security-backed contract is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds. The bond portfolio is either owned directly by Wells Fargo or owned by the contract issuer and segregated in a separate account for the benefit of Wells Fargo. Security-backed contracts are considered either "targeted benchmark" (underlying investments are managed to a specific benchmark) or "targeted duration" (underlying investments are managed to a specific duration). The portfolio underlying the contract is maintained separately from the contract issuer's general assets, usually by the third-party custodian. The interest crediting rate of a security-backed contract is based on the contract value, fair value, duration, and yield to maturity of the underlying portfolio. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustments to the future interest crediting rate, rather than reflected immediately in the net assets of Wells Fargo. The issuer guarantees that all qualified participant withdrawals will be at contract value.

Ames True Temper Retirement Savings and Investment Plan

Notes to Financial Statements
December 31, 2011 and 2010

Wells Fargo enters into participating or hybrid contracts. In a participating contract, the contract holder participates in asset and liability risks. Therefore, these risks transfer from the contract issuer to Wells Fargo. However, in the case of a full liquidation event, the issuer is responsible for covering any amount by which the contract value exceeds the fair value of the underlying portfolio. A hybrid contract is a combination of participating and non-participating contracts. In a non-participating contract, the contract holder does not participate in asset and liability risks. Typically, hybrid contracts are 20% participating and 80% non-participating, and each component is reset over a 12-month cycle. Hybrid contracts generally have a higher contract fee compared to participating contracts.

Level 3 Fair Value Measurements

The Plan does not hold any Level 3 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

* Investment did not represent five percent or more of the Plan's net assets, rather this investment is shown for comparative purposes.

Any interest and dividend income from the underlying assets of the common/collective trust fund are included in net depreciation for the common/collective trust fund. The appreciation (depreciation) in fair value of investments (including gains and losses on investments bought and sold, as well as held during the year) for each significant class of investments consists of the following for the year ended:

	December 31, 2011
Mutual funds	\$ (1,626,600)
Common stocks	39,749
Common/collective trust fund	83,891
	<u>\$ (1,502,960)</u>

The net depreciation in fair value of investments includes net appreciation of the self-managed account which holds a money market fund, mutual funds, and common stock. The self-managed account's net appreciation for the year ended December 31, 2011 amounted to \$147,218.

5. Related Party Transactions

Certain plan investments are shares of mutual funds and units of common/collective trust funds managed by the defined trustees of the Plan. In addition, the Plan issues loans to participants, which are secured by the balance in the participants' accounts. Therefore, related transactions qualify as party-in-interest transactions. All other transactions that may be considered parties-in-interest transactions relate to normal Plan management, investment and administrative services, and the related payment of fees.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated January 10, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Before this determination by the Internal Revenue Service was approved, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator and the Plan's advisors believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believe that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2011, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Information Certified by Trustees

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2011 and 2010. Accordingly, State Street Bank and Trust Company and Massachusetts Fidelity Trust Company, the trustees of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2011 and 2010 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2011, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities, will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits on the financial statements to Form 5500 at December 31 2011 and 2010:
