Note 1 - Description of plan

The following description of the Seabreeze Retirement Savings Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The plan is a defined contribution plan covering all eligible employees of Seabreeze Management Company, Inc. ("the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). An employee becomes eligible for participation in the Plan upon attainment of age twenty-one (21) and completion of one year of service.

Contributions

Eligible employees (participants) may contribute up to 100% of their annual compensation subject to certain limitations as defined by the Internal Revenue Code. The Company matches participant contributions up to the first 3% of participant compensation that is deferred. Participants direct the investment of their contributions and the matching contributions into various investment options offered by the Plan.

In addition, a nonelective contribution may be made at the option of the Company's board of directors. The nonelective contribution is allocated to participants based on the participant's compensation for the Plan year in proportion to total compensation of all participants. A participant does not have to make contributions to the Plan to be eligible for an allocation of the nonelective contribution. The nonelective contribution was $0 for the year ended December 31, 2011.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Note 1 - Description of plan (continued)

Notes receivable from participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the vested balance in the participant's account and bear a reasonable rate of interest, which is commensurate with local prevailing rates of commercial U.S. banks and are determined at the time the note is made, currently 5.25% per annum. Note transactions are treated as transfers to (from) the investment funds from (to) a participant's note receivable. Note terms cannot exceed 5 years, unless the note qualifies as a residential mortgage in which case a note term may qualify for a period up to 20 years. Principal and interest are paid ratably through payroll deductions.

Notes to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Plan management has evaluated the collectability of notes receivable from participants and because they are secured by the participant's account, an allowance has not been recorded.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

Forfeitures of matching Company contributions and other non-elective contributions are first used to reduce Plan administrative expenses then to reduce Company contributions. Forfeitures available as of December 31, 2011 to reduce future Company contributions and pay Plan expenses were $875. Forfeitures used in 2011 were $7,471.

Hardship withdrawals

Participants may withdraw their pre-tax elective deferrals in the event of hardship as defined in the Plan agreement.

Plan fees and commissions

The Company pays a portion of the expenses incurred in the administration and operation of the Plan.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Note 2 - Summary of accounting policies (continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent events

Management evaluates events occurring subsequent to December 31, 2011 in determining the accounting for and disclosure of events that affect the financial statements. The Plan has no subsequent events that required recognition or disclosure in the financial statements for the year ended December 31, 2011. Subsequent events were evaluated through July 27, 2012, which is the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The fair value of pooled separate accounts is based on the value of the underlying mutual fund shares at year-end.

Note 3 - Fair value measurements (continued)

Level 3 Fair Value Measurements

The guaranteed account with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest account is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables set forth, by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010:

		Fair Value Measurements Using

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their Company contribution accounts.

Note 8 - Tax status

The Plan adopted the Pension Group, Inc. Prototype Non-Standard Cash or Deferred Profit Sharing Plan ("the Prototype Plan"). The Prototype Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the form of the Prototype Plan as then designed, was in compliance with applicable sections of the Internal Revenue Code ("IRC"). The plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's annual return/report of employee benefit plan for the past three years are subject to examination by tax authorities, and may change upon examination.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Prohibited transactions

Participant contributions and loan repayments of $53,532 were withheld from participants' pay on February 1, 2011, May 16, 2011, June 1, 2011, July 1, 2011, September 30, 2011, December 1, 2011 and December 16, 2011, but were not remitted to the Plan's trust within 3 business days of the pay date. This constituted participant deferrals of $48,578 and loans of $4,954 from the Plan to the Plan sponsor. The lost earnings on participant contributions will be based on the Internal Revenue Code Underpayment Rate during the period and will be remitted to the Plan's trust in 2012.
