IA 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – Description of the Plan:

The following description of the IA 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Interior Architects, Inc. (the Company). Employees who are age 21 or older are eligible to participate in the Plan on the first day of employment except for union members and residents of Puerto Rico. Effective April 1, 2008, participants can increase or decrease their payroll deduction and make changes to their investment allocation at any time. In addition, the Company has adopted automatic enrollment for all new hire employees. Prior to July 5, 2011, the automatic enrollment percentage started at 3% and increased each year thereafter by 1% to a maximum of 6%. Effective July 5, 2011, the automatic enrollment percentage starts at 5% and increase each year thereafter by 1% to a maximum of 8%. Employees have 30 days to opt out of the automatic enrollment process. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may annually contribute, on a pretax basis, up to 60% of their eligible compensation, as defined by the Plan. Contributions are subject to annual limits specified under the Internal Revenue Code (the Code). The annual limitation was $16,500 for 2011 and $22,000 for participants who are age 50 or older by the end of the year. Participants are also allowed to roll over contributions from other qualified employer-sponsored retirement plans and individual retirement accounts.

The Company may make a discretionary matching contribution as determined by the Company's board of directors that is equal to a percentage of the amount the participant deferred. To be eligible for the discretionary matching contributions, participants must be employed by the Company on the last day of the plan year. In 2011, the Company did not make a discretionary matching contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, and allocations of (a) Company discretionary matching, if any, and (b) Plan earnings and losses. Allocations are determined in accordance with the provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and are immediately 100% vested in the Company's discretionary matching contributions.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms may not exceed five years unless the loan is used to purchase a participant's principal residence, in which case repayment must be made within 10 years. Loans are secured by the participant's account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, or upon attainment of age 59½, death, disability, or retirement, participants may elect to receive a lump-sum amount or installment payments equal to the value of their vested account balance. Hardship distributions are permitted if certain criteria are met. Prior to July 5, 2011, employees with an account balance below $1,000 were automatically paid out and the account closed upon termination. Effective July 5, 2011, the account balance minimum increased to $5,000 to avoid automatic distribution.

Administrative Expenses

The Company pays substantially all of the Plan's administrative expenses except for loan fees.

NOTE 2 – Summary of Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan documents.

Fidelity Managed Income Portfolio

The Plan has a fully benefit-responsive investment contract with Fidelity Management Trust Company known as the Fidelity Managed Income Portfolio (MIP). The MIP is an open-ended commingled pool dedicated exclusively to the management of assets of defined contribution plans. The MIP invests in underlying assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into a "wrapper" contract issued by a third-party. The value of the MIP is stated in the financial statements at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and expenses) because it is fully benefit-responsive. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield for 2011 and 2010 was approximately 1.46% and 1.35%, respectively. The crediting interest rate at December 31, 2011 and 2010 was 1.39% and 1.44%, respectively.

Income Taxes

The Company has adopted a prototype plan, which received an opinion letter from the Internal Revenue Service. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Internal Revenue Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The Plan Administrative Committee has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 3 – Investments:

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010, and net change in fair value of investments, interest and dividends for the year ended December 31, 2011, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company.

Investments that represent 5% or more of the fair value of the Plan's net assets are as follows:

	December 31,	
	2011	2010
Fidelity Diversified International Fund	$975,172	$1,219,179
Fidelity Blue Chip Growth Fund	962,227	1,044,239

* Fair value of investment is less than 5% of net assets at December 31, 2011.
** Fair value of investment is less than 5% of net assets at December 31, 2010.

NOTE 4 – Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Company may direct that either (a) benefits be distributed to the participants in any manner permitted by the Plan as soon as practicable, or (b) the trust created by the Plan be continued and benefits be distributed to the participants or their beneficiaries as if the Plan had not terminated. Benefits under the Plan are not insured by the Pension Benefit Guaranty Corporation (PBGC), as that insurance does not apply to profit-sharing plans or salary deferral plans.

NOTE 5 – Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Shares of registered investment companies are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The shares of the common collective trust fund are valued at the quoted redemption value on the last business day of the Plan year. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:
