INDEPENDENT AUDITORS' REPORT

July 27, 2012

To the Participants and Administrator of the
Monarch Healthcare Retirement Savings Plan:

We were engaged to audit the financial statements and supplemental schedules of the Monarch Healthcare Retirement Savings Plan as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, Principal Life Insurance Company on behalf of Union Bond and Trust and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, collectively the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MONARCH HEALTHCARE RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF PLAN

The following description of the Monarch Healthcare Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Monarch Healthcare. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees are automatically enrolled in the Plan on January 1, April 1, July 1, or October 1, following completion of 3 months of service.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute up to 100% of eligible compensation, not to exceed the limits of the Internal Revenue Code (the IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Certain investment options are closed to participants, with respect to accepting new funding. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Effective January 13, 2011, the Company matched 50% of the participant's deferral, up to 3% of eligible compensation. Prior to January 13, 2011, the Company matched 25% of the participant's deferral, up to 5% of eligible compensation. The Company may also make discretionary profit sharing contributions to the Plan. No discretionary profit sharing contribution was made during the 2011 Plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions and allocations of (a) the Company's profit sharing contributions, (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN - (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions plus actual earnings thereon is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to reduce future Company contributions or to pay Plan expenses. For the year ended December 31, 2011, employer contributions were reduced by $17,634 from forfeited nonvested accounts. As of December 31, 2011 and 2010, the amount of available forfeitures totaled $40 and $53, respectively.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity, or annual installments. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 will be immediately distributed in a lump-sum payment. All vested account balances exceeding $1,000, up to $5,000, will be immediately rolled into another tax deferred account. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Notes Receivable from Participants

Participants may borrow from their fund accounts a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The interest rate will generally be the prime interest rate charged by banks as published in the Wall Street Journal as of the last day of the preceding month plus 2%. Principal and interest is paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in guidance issued by the Financial Accounting Standards Board (the FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncement

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits, changes in net assets available for benefits or related disclosures.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

3. FAIR VALUE MEASUREMENTS - (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at the Net Asset Value (NAV) of shares held by the Plan at year end. The NAV of pooled separate accounts is based upon the market value of the underlying investments and observable inputs. The NAV of the pooled separate accounts is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Registered investment companies: These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

3. FAIR VALUE MEASUREMENTS - (Continued)

Common/collective trusts: The stable value fund is valued both at fair value and at contract value. The investment contains benefit responsive investment contracts and synthetic investment contracts comprised of both underlying investments and wrapper contracts with observable level 1 and level 2 pricing inputs, including quoted prices for similar assets in active or non-active, and level 3 components with significant unobservable inputs. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however the unit price is based mainly on observable inputs. The Plan transacts with the stable value fund at NAV calculated using contract values.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

4. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, Principal Life Insurance Company on behalf of Union Bond and Trust and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, collectively the custodians of the Plan (Principal), has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year), as of December 31, 2011 and 2010 and for the year ended December 31, 2011.

	2011	2010
Pooled separate accounts	$ 6,461,334	$ 6,041,696
Registered investment companies	4,468,035	4,228,582
Common/collective trusts	1,622,095	1,288,636
Net depreciation in fair value of investments	(254,541)	n/a
Dividends	51,523	n/a

5. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010:

	2011
Morley Financial Services, Inc. Stable Value Fund	$ 1,622,095
Principal Lifetime 2020 Separate Account	1,629,705
Principal Lifetime 2030 Separate Account	1,454,416
Principal Lifetime 2040 Separate Account	911,866

	2010
Morley Financial Services, Inc. Stable Value Fund	$ 1,288,636
Principal Lifetime 2020 Separate Account	1,382,743
Principal Lifetime 2030 Separate Account	1,558,954
Principal Lifetime 2040 Separate Account	842,758

During 2011, the Plan's investments (including investments bought, sold and held during the year) depreciated in value by $254,541 as follows:

Pooled separate accounts	$ (54,057)
Registered investment companies	(229,796)
Common collective trusts	29,312
	$ (254,541)

6. STABLE VALUE FUND

As of December 31, 2011, the plan held assets of $1,622,085 in a stable value fund that held benefit responsive investment contracts and synthetic investment contracts. Investments held in the stable value fund are required to be reported at fair value. However, contract value is the relevant measurement because contract value is the amount participants would receive if they initiated transactions under the terms of the Plan.

The stable value fund is presented at fair value and then adjusted to contract value for the fully-benefit responsive contracts. Investments in contracts are valued at fair value by using discounted cash flow methodology. Contract value of investment contracts represents invested principal plus accrued interest. The individual assets of the synthetic investment contracts are valued based on market values obtained from independent pricing service, quote by dealers or by other methodology approved by the sponsor of the fund. The fair value of the wrap contracts is determined using the market approach discounting methodology which incorporated the difference between current market level rates for contract level fees and the wrap fee being charged.

6. STABLE VALUE FUND - (Continued)

Market value events may limit the ability of the stable value fund to transact at contract value. Market value events are events or conditions that occur outside the normal operation of the fund. Such events include but are not limited to; fund administration is amended or changed, group terminations or layoffs, termination or partial termination of the fund, failure to meet certain tax qualifications, transfers to competing options without meeting the equity wash provisions of the fund and plan sponsor initiated withdrawals without proper notice to fund. The fund is currently transacting at contract value and the Company is unaware of any issues that would impact the funds ability to continue transacting at contract value.

Average yields:	2011	2010
Based on actual earnings	1.54%	1.97%
Based on interest rate credited to participants	1.52%	1.95%

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of common collective trusts and pooled separate accounts managed by Principal, the custodian and record-keeper of the Plan. During 2011, the Plan paid $4,019 in contract administration fees to Principal. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. These transactions qualify as party in interest transactions for which a statutory exemption exists.

9. TAX STATUS

The Company adopted a Prototype Non-Standardized Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended and restated most recently to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. TAX STATUS - (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. During 2010, the Plan underwent an audit by the Department of Labor for the Plan years covering 2007 through 2010. The results of the audit have been made known to the Plan Sponsor and the appropriate corrections have been made. The plan administrator believes it is no longer subject to Department of Labor examinations for years prior to 2011, however, for income tax jurisdictions the administrator believes it is no longer subject to examinations for years prior to 2008.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements	$ 13,120,137	$ 12,026,495
Fair value to contract value adjustment for fully benefit responsive investment contracts	37,715	26,319
Net assets available for benefits per Form 5500	$ 13,157,852	$ 12,052,814

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 - (Continued)

The following is a reconciliation of the net depreciation in fair value of investments per the financial statements to the Form 5500 for the year ended December 31, 2011:

Net depreciation in fair value of investments per the financial statements	$ (254,541)
Prior year fair value to contract value adjustment for fully benefit-responsive investment contracts	(26,319)
Current year fair value to contract value adjustment for fully benefit-responsive investment contracts	37,715
Net depreciation in fair value of investments per Form 5500	$ (243,145)

12. SUBSEQUENT EVENT

The Company has determined that a partial plan termination occurred during 2012 due to the Plan Sponsor selling a division to a third party. Approximately $9,300,000 of participant's account balances are to be distributed from the Plan, as a result of this sale. In general, a partial plan termination is deemed to occur when an employer-initiated action results in a significant decrease in plan participants. The law requires that all affected participants be fully vested in their account balances, including employer contributions, once a partial plan termination has occurred.
