INDEPENDENT AUDITOR'S REPORT

June 21, 2011

The Retirement Committee
Merit Energy Company Savings Trust

We were engaged to audit the statements of net assets available for benefits and supplemental schedule of the Merit Energy Company Savings Trust (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for each of the years then ended. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Trustee as of and for each of the years ended December 31, 2010 and 2009 that the information, provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following brief description of the Merit Energy Company Savings Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan, as amended and restated, is a defined contribution plan established by the Company under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company who become entitled to participate in the Plan. Employees who are age 19 or older are eligible to participate in the 401(k) plan on the first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was amended and restated effective January 1, 2009 to add a Roth 401(k) feature, which allows for post-tax employee contributions.

Administration

The Plan is administered by a committee (the "Retirement Committee") appointed by Merit Energy Company (the "Employer"). Administrative expenses are paid by the Employer except for those related to loans, which are paid by the respective participant. Fidelity Management Trust Company (the "Trustee") maintains custody of the Plan's assets.

Certified Assets

The Plan Administrator has obtained certifications from the trustees that the information provided to the Plan Administrator by the trustees related to investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to all the investments and related investment income as of and for each of the years ended December 31, 2010 and 2009.

Contributions

Each eligible employee may elect to contribute to the Plan on a pre-tax basis up to 60%, of such participant's compensation. Each participant's annual contribution shall not exceed the maximum amount allowed for deferral for U.S. federal income taxes, which was $16,500 for 2010. Participants over fifty years old may make additional catch up contributions up to $5,500.

The Employer makes contributions equal to 100% up to the first 6% of earnings contributed into the Plan on a pre-tax basis. However, the Employer reserves the right to temporarily or permanently discontinue its contributions at any time.

Vesting

Participating employees are vested 100% in their pre-tax contributions, and in any Employer matching contributions made on the participating employee's behalf at all times.

Withdrawals
A participant can make withdrawals from his or her 401(k) option contributions accounts (employees' contributions plus the Employer contributions, plus interest earned thereon) only in the following situations: purchase of his or her principal residence; payment of unreimbursed medical expenses incurred by him or her, his or her spouse, or dependents, or to permit him or her, his or her spouse, or his or her dependents to obtain medical care; payment of tuition and "related expenses" (as defined under federal law) for the next 12 months of post-secondary education for him or her, his or her spouse, his or her children, or dependents; payment to prevent eviction from his or her principal residence or foreclosure on the mortgage of his or her principal residence; or attainment of age 59½ years. The participant can only withdraw up to the amount of his or her pre-tax contributions (excluding any investment earnings received after December 31, 1988), any rollover contributions he or she may have made to the Plan (including any investment earnings), and any Employer matching contributions and earnings thereon (excluding any matching contributions treated as pre-tax contributions) needed to meet his or her hardship. If the participant chooses, a hardship withdrawal can also include the amount needed to pay any applicable tax withholdings on the withdrawal.

Participant Accounts
Individual accounts are maintained to reflect each participant's allocated share of the Plan's income, the Plan's administrative expenses, the Company's contributions, and the participant's contributions.

Investment Options
As directed by participants, the Plan purchases units of participation in 31 distinct investment portfolios administered by the Plan Trustee. Under the Plan, participants are allowed to transfer funds between any investment options.

Participant Loans
Participants can apply for a loan from their 401(k) account. The amount of any such loan cannot exceed the lesser of 50% of the value of the participant's vested interest in his or her 401(k) account, or $50,000 reduced by the excess of the highest outstanding loan balances during the past year over the outstanding balance of loans on the date on which such loan is made. For purposes of the $50,000 limitation, all outstanding loans to a participant are aggregated. Plan loans must be repaid within five years; however, if the loan is used to acquire the principal residence of the participant, the loan may be repaid over a period not to exceed 10 years. The interest rate charged on any loan is fixed and will be equal to the "local prevailing commercial interest rate."

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The Plan's financial statements are presented on the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments of the Plan are stated at fair value. Securities traded in public markets are valued at their quoted market prices. The value of purchases and sales of securities are reflected on a trade-date basis. Changes in the market value of investments from one period to the next, combined with realized gains and losses based on differences between revalued costs and market value of investments on the trade date, are recognized as net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Payment of Benefits
Benefits are recorded when paid. Benefits due to participants who have elected to withdraw from the Plan but have not been paid are included in net assets available for benefits. At December 31, 2010 and 2009, there were no amounts allocated to withdrawing participants.

Estimates and Assumptions
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting periods. Actual results could differ from those estimates.

Recent Accounting Pronouncements
In September 2010, the FASB issued ASU 2010-25 *Reporting Loans to Participants by Defined Contribution Pension Plans.* The amendments in this update require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in this update were applied retrospectively to all prior periods presented.

In January 2010, the FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements*. For assets and liabilities measured on a recurring basis, this subtopic requires quantitative disclosures about the fair value measurements separately for each class of assets and liabilities. Any transfers to or from Levels 1 and 2 and the reasons for those transfers also need to be disclosed. For assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs, this subtopic requires a reconciliation of the beginning and ending balances, separately for each class of assets and liabilities.

3. INVESTMENTS (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of the unaudited information regarding the Plan included in the Plan's financial statements and supplemental schedule that was prepared by the Trustee and furnished to the plan administrator. Some of the Plan's investments are in funds maintained by the Trustee, a party-in-interest. The Plan administrator has obtained certifications from the Trustee that such information is complete and accurate.

4. FAIR VALUE MEASUREMENTS

Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Fair Value Measurements are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  Quoted prices for similar assets or liabilities in active markets;
  Quoted prices for identical or similar assets or liabilities in inactive markets;
  Inputs other than quoted prices that are observable for the asset or liability;
  Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Participant loans are no longer classified as investments held at fair value. There have been no other changes in the methodologies used at December 31, 2010 and 2009. Following is a description of the valuation methodologies used for assets measured at fair value. .

- Mutual funds and money market funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

5. PARTY-IN-INTEREST TRANSACTIONS

All of the Plan's assets are invested either in portfolios sponsored and administered by Fidelity Investments at December 31, 2010 and 2009. Since Fidelity Investments is the Plan Trustee, all transactions with these parties qualify as party-in-interest transactions.

6. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Employer by a letter dated March 31, 2008, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code. Management has not received a volume submitter profit sharing advisory letter specifically for the Plan amendments executed subsequent to March 31, 2008 but believes the Plan is in compliance with the applicable requirements of the Internal Revenue Code.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan agreement to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate, all participants would remain fully vested and their respective accounts would be non-forfeitable.

8. SUBSEQUENT EVENTS

We have evaluated subsequent events through June 21, 2011, the date that these financial statements were available for issuance. There were no material subsequent events as of that date.

INDEPENDENT AUDITOR'S REPORT

June 21, 2011

The Retirement Committee
Merit Energy Company Savings Trust

We were engaged to audit the statements of net assets available for benefits and supplemental schedule of the Merit Energy Company Savings Trust (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for each of the years then ended. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Trustee as of and for each of the years ended December 31, 2010 and 2009 that the information, provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following brief description of the Merit Energy Company Savings Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan, as amended and restated, is a defined contribution plan established by the Company under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company who become entitled to participate in the Plan. Employees who are age 19 or older are eligible to participate in the 401(k) plan on the first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was amended and restated effective January 1, 2009 to add a Roth 401(k) feature, which allows for post-tax employee contributions.

Administration

The Plan is administered by a committee (the "Retirement Committee") appointed by Merit Energy Company (the "Employer"). Administrative expenses are paid by the Employer except for those related to loans, which are paid by the respective participant. Fidelity Management Trust Company (the "Trustee") maintains custody of the Plan's assets.

Certified Assets

The Plan Administrator has obtained certifications from the trustees that the information provided to the Plan Administrator by the trustees related to investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to all the investments and related investment income as of and for each of the years ended December 31, 2010 and 2009.

Contributions

Each eligible employee may elect to contribute to the Plan on a pre-tax basis up to 60%, of such participant's compensation. Each participant's annual contribution shall not exceed the maximum amount allowed for deferral for U.S. federal income taxes, which was $16,500 for 2010. Participants over fifty years old may make additional catch up contributions up to $5,500.

The Employer makes contributions equal to 100% up to the first 6% of earnings contributed into the Plan on a pre-tax basis. However, the Employer reserves the right to temporarily or permanently discontinue its contributions at any time.

Vesting

Participating employees are vested 100% in their pre-tax contributions, and in any Employer matching contributions made on the participating employee's behalf at all times.

Withdrawals
A participant can make withdrawals from his or her 401(k) option contributions accounts (employees' contributions plus the Employer contributions, plus interest earned thereon) only in the following situations: purchase of his or her principal residence; payment of unreimbursed medical expenses incurred by him or her, his or her spouse, or dependents, or to permit him or her, his or her spouse, or his or her dependents to obtain medical care; payment of tuition and "related expenses" (as defined under federal law) for the next 12 months of post-secondary education for him or her, his or her spouse, his or her children, or dependents; payment to prevent eviction from his or her principal residence or foreclosure on the mortgage of his or her principal residence; or attainment of age 59½ years. The participant can only withdraw up to the amount of his or her pre-tax contributions (excluding any investment earnings received after December 31, 1988), any rollover contributions he or she may have made to the Plan (including any investment earnings), and any Employer matching contributions and earnings thereon (excluding any matching contributions treated as pre-tax contributions) needed to meet his or her hardship. If the participant chooses, a hardship withdrawal can also include the amount needed to pay any applicable tax withholdings on the withdrawal.

Participant Accounts
Individual accounts are maintained to reflect each participant's allocated share of the Plan's income, the Plan's administrative expenses, the Company's contributions, and the participant's contributions.

Investment Options
As directed by participants, the Plan purchases units of participation in 31 distinct investment portfolios administered by the Plan Trustee. Under the Plan, participants are allowed to transfer funds between any investment options.

Participant Loans
Participants can apply for a loan from their 401(k) account. The amount of any such loan cannot exceed the lesser of 50% of the value of the participant's vested interest in his or her 401(k) account, or $50,000 reduced by the excess of the highest outstanding loan balances during the past year over the outstanding balance of loans on the date on which such loan is made. For purposes of the $50,000 limitation, all outstanding loans to a participant are aggregated. Plan loans must be repaid within five years; however, if the loan is used to acquire the principal residence of the participant, the loan may be repaid over a period not to exceed 10 years. The interest rate charged on any loan is fixed and will be equal to the "local prevailing commercial interest rate."

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The Plan's financial statements are presented on the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments of the Plan are stated at fair value. Securities traded in public markets are valued at their quoted market prices. The value of purchases and sales of securities are reflected on a trade-date basis. Changes in the market value of investments from one period to the next, combined with realized gains and losses based on differences between revalued costs and market value of investments on the trade date, are recognized as net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Payment of Benefits
Benefits are recorded when paid. Benefits due to participants who have elected to withdraw from the Plan but have not been paid are included in net assets available for benefits. At December 31, 2010 and 2009, there were no amounts allocated to withdrawing participants.

Estimates and Assumptions
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting periods. Actual results could differ from those estimates.

Recent Accounting Pronouncements
In September 2010, the FASB issued ASU 2010-25 *Reporting Loans to Participants by Defined Contribution Pension Plans.* The amendments in this update require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in this update were applied retrospectively to all prior periods presented.

In January 2010, the FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements*. For assets and liabilities measured on a recurring basis, this subtopic requires quantitative disclosures about the fair value measurements separately for each class of assets and liabilities. Any transfers to or from Levels 1 and 2 and the reasons for those transfers also need to be disclosed. For assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs, this subtopic requires a reconciliation of the beginning and ending balances, separately for each class of assets and liabilities.

3. INVESTMENTS (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of the unaudited information regarding the Plan included in the Plan's financial statements and supplemental schedule that was prepared by the Trustee and furnished to the plan administrator. Some of the Plan's investments are in funds maintained by the Trustee, a party-in-interest. The Plan administrator has obtained certifications from the Trustee that such information is complete and accurate.

4. FAIR VALUE MEASUREMENTS

Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Fair Value Measurements are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  Quoted prices for similar assets or liabilities in active markets;
  Quoted prices for identical or similar assets or liabilities in inactive markets;
  Inputs other than quoted prices that are observable for the asset or liability;
  Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Participant loans are no longer classified as investments held at fair value. There have been no other changes in the methodologies used at December 31, 2010 and 2009. Following is a description of the valuation methodologies used for assets measured at fair value. .

- Mutual funds and money market funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

Total	$43,438,520	$ -	$ -	$43,438,520

5. PARTY-IN-INTEREST TRANSACTIONS

All of the Plan's assets are invested either in portfolios sponsored and administered by Fidelity Investments at December 31, 2010 and 2009. Since Fidelity Investments is the Plan Trustee, all transactions with these parties qualify as party-in-interest transactions.

6. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Employer by a letter dated March 31, 2008, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code. Management has not received a volume submitter profit sharing advisory letter specifically for the Plan amendments executed subsequent to March 31, 2008 but believes the Plan is in compliance with the applicable requirements of the Internal Revenue Code.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan agreement to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate, all participants would remain fully vested and their respective accounts would be non-forfeitable.

8. SUBSEQUENT EVENTS

We have evaluated subsequent events through June 21, 2011, the date that these financial statements were available for issuance. There were no material subsequent events as of that date.
