INDEPENDENT AUDITORS' REPORT

Plan Administrator and Investment Committee
Simpson Housing 401(k) Retirement Plan
Denver, Colorado

We were engaged to audit the financial statements of Simpson Housing 401(k) Retirement Plan (the "Plan") as of December 31, 2011 and 2010, and for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011, as listed in the accompanying table of contents. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of the Simpson Housing 401(k) Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document or summary Plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Simpson Housing LLLP and the affiliated companies who have adopted the Plan (collectively, the "Company"). The Plan was adopted effective January 1, 1995 and subsequently restated and amended to comply with certain Internal Revenue Code ("IRC") requirements. The Plan was established under the provision of Section 401(a) of the IRC, which includes a qualified deferred income arrangement as described in Section 401(k) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Plan benefits are not guaranteed by the Pension Benefit Guaranty Corporation.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Trustee, Custodian, and Administration of the Plan

The Partners of Simpson Housing LLLP administer the Plan.

Delaware Charter Guarantee and Trust Company, conducting business under the trade name Principal Trust Company ("Principal"), serves as the recordkeeper, trustee, and custodian, and also manages Plan assets.

Eligibility

Employees of the Company become eligible to participate in the Plan the first day of the month after the employee has completed 30 days of service. Employees not eligible for participation in the Plan are union employees under a collective bargaining agreement, non-resident aliens, and leased employees.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions

Participants may make before-tax contributions up to 75% of their annual compensation, subject to the Internal Revenue Service ("IRS") limits, which are adjusted annually by the Secretary of Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. If a participant does not decline participation in the Plan prior to the first of the month following 30 days of service, the participant is automatically enrolled in the Plan with an automatic deferral contribution of 5% of eligible compensation, as defined by the Plan document. Participants age 50 or older may also elect to defer additional catch-up contributions to the Plan, which are limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans, if certain criteria are met. Participant contributions to the Plan are made through regular payroll deductions. Participants may elect to designate all or any part of their future elective deferral contributions as Roth elective deferral contributions. Provided requirements are met, withdrawals of Roth contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

The Company makes matching contributions of 50% of elective deferrals up to 5% of compensation, plus 100% of contributions of elective deferrals above 5%, not to exceed 75% of compensation, not to exceed $3,000 annually. The Company contributed $664,202 (net of approximately $79,208 of forfeitures utilized) for the year ended December 31, 2011.

The Company may also elect to contribute an additional amount to each participant's account, as determined on a yearly basis by the Company. This amount is made at the discretion of the Company and, if made, will be allocated following the end of the Plan year to all eligible participants, as defined by the Plan document. No additional discretionary contribution was made for the year ended December 31, 2011.

Contributions are recorded in the period payroll deductions are made.

Participants' Accounts

Each participant's account is credited with the participant's pre-tax contributions, Roth contributions, rollover contributions, Company matching contributions, an allocation of the Company's discretionary contribution, if any, and an allocation of the Plan's net investment earnings or losses and expenses. The investment earnings or losses are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option. Participants may direct the investment of their account balance into various investment options. Currently, the Plan offers various insurance company pooled separate accounts, mutual funds, and an insurance company general account (fixed income option) as investment options for participants. Participants may make changes to their investment options daily. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their pre-tax contributions, Roth contributions, rollover contributions, and allocated earnings or losses thereon.

Any employer matching and discretionary contributions and the earnings or losses thereon are subject to the following vesting schedule:

Years of Service	Vested Interest
Less than 2 years	0%
2 years	50%
3 or more years	100%

Participant Notes Receivable

Participants may borrow from their vested employee account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, as determined by the Plan administrator at the inception of the loan, and maturing dates range from January 2012 through June 2020. Loans must be repaid within five years unless the loan is collateralized by a personal residence, in which case it may be repaid within ten years. Principal and interest is paid ratably through payroll deductions. A participant may only have two loans outstanding at any time. No more than two loans will be approved within any 12-month period.

Payments of Benefits

Upon death, disability, retirement, or termination of service, a participant may request to receive a lump-sum payment in the amount equal to the participant's vested account balance or they may roll the amount into another qualified plan or Individual Retirement Account ("IRA"). Immediate lump-sum distributions are made to terminated participants if the participant's vested balance is $1,000 or less. If the balance is greater than $1,000 but less than $5,000, the vested amount will be rolled into a qualified IRA in the name and for the benefit of the participant unless the participant elects to receive or rollover the balance.

Participants may not make withdrawals from their accounts prior to retirement at age 65, except in the event of disability, death, or termination of employment, without being subject to certain restrictions or penalties. In-service distributions at age 59 1/2 and hardship distributions are also allowed if certain criteria are met.

Benefits are recorded when paid to participants.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If, at the time of termination of employment, the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures shall be used first to reduce Plan expenses, and any remaining forfeitures may be used to reduce employer contributions. The balance of this account at December 31, 2011 and 2010 was $41,471 and $23,071, respectively.

Expenses of the Plan

Loan fees are paid by participants who have loans through their Plan accounts. Certain other administrative expenses related to the operation of the Plan are paid by the Plan. Forfeitures of $6,294 were utilized to offset Plan expenses during the 2011 Plan year. All other expenses of the Plan were paid by the Company.

Investment Valuation and Income Recognition

Mutual funds are stated at fair value based on the quoted market value of the funds on the last business day of the Plan year. Plan investments in the insurance company general account are valued at fair value (Note 2). Insurance company pooled separate accounts are valued by the trustee at the unit value at the close of each business day based upon fair value of the underlying investments. Participant notes receivable are stated at the remaining principal balance, which approximates fair value.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits, and is determined as the difference between market value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end market value. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Purchases and sales are recorded on a trade date basis.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risk and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, certain mutual funds and insurance company pooled separate accounts invest in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse economic developments. Moreover, securities of many foreign companies may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 2 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2011 and 2010.

Note 2 - Fair Value Accounting (continued)

Assets at fair value as of December 31, 2011 are as follows:

The valuation technique used to measure fair values of the pooled separate accounts was determined based on the value of the underlying assets and securities, the majority of which have observable Level 1 and Level 2 pricing inputs, including publicly quoted prices and quoted prices for similar assets in active or non-active markets. While the underlying assets values are quoted prices, the net asset value ("NAV') of a separate account is not publicly quoted. Generally accepted accounting principals state that assets that are measured and redeemable at NAV shall be categorized as a Level 2 fair value measurement. One separate account invests mainly in commercial real estate and includes mortgage loans, which are backed by the associated properties, the underlying assets of which are measured at NAV. As of December 31, 2010, the same separate account was categorized as a Level 3 fair value measurement due to withdrawal limitations that expired during the 2011 Plan year, which resulted in a transfer from a Level 3 fair value measurement at December 31, 2010 to a Level 2 fair value measurement at December 31, 2011.

The valuation techniques used to measure fair value of the guaranteed interest contract reflect the amount the Plan sponsor would receive if they were to withdraw or transfer funds within the Plan prior to their maturity, adjusted for any withdrawal. This account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The underlying assets of the guaranteed interest contract have unobservable Level 3 pricing inputs.

There were no changes to the valuation techniques used during the period.

(a) These funds seek to invest in the common stock large companies such as those located on the S&P 500 and large capitalization companies with strong growth potential, with the intent to mirror the activity of both markets.

(b) These funds seek the long-term growth of capital and generating a total return. The funds normally invest in the common stock of small to medium market companies with above average growth expectations as well as companies that are principally engaged in the real estate industry.

(c) These funds seek to invest in the equities of small to medium sized companies that operate in emerging markets with the intent to mirror the activity of those markets.

(d) The balanced asset allocation funds combine a fixed mix of stock components, bond components, and short-term investment components into a single portfolio. The funds are designed to reflect either a moderate (higher equity component) or conservative (higher fixed income component) orientation. The underlying portfolios may invest in securities of domestic or foreign issuers. The funds also invest in target funds that seek current income and capital appreciation appropriate for the asset allocation associated with its target retirement date. The underlying funds invest in investment company funds in proportions that are balanced to meet the current target of the fund, which will move toward preservation of capital from production of income as the target retirement date approaches.

(e) The short-term fixed income fund seeks to provide as high a level of current income as is consistent with prudent investment management and stability of principal. The fund invests primarily in high quality short-term bonds and other fixed income securities. Its investments may also include corporate securities, U.S. and foreign government securities, mortgage-backed and asset-backed securities, and real estate investment trust securities.

Note 2 - Fair Value Accounting (continued)

Reported Net Asset Values (continued)

(f) The fixed income funds invest solely in fixed income investments, such as bonds, U.S. government and agency securities, mortgage-backed securities, zero coupon securities, money market instruments, and other short-term and long-term investments. These funds seek dependability and limit the amount of risk an investor takes on, although it could mean a lesser return that would be possible in a higher-risk fund.

(g) The U.S. Property Separate Account as of December 31, 2010 had imposed a withdrawal limitation on investment balances in the investment which prohibited the removal of investment balances. As of December 31, 2010, the Plan had a balance of $157,517 in the U.S. Property Separate Account that was subject to the withdrawal limitation. This withdrawal limitation was removed in March 2011.

Note 3 - Investments and Information Certified by the Plan's Custodian

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by Principal except for comparing such information contained therein to information included in the financial statements and the supplemental schedule. Principal has certified the following information as complete and accurate:

- Investments as reported in the accompanying statements of net assets available for benefits and the supplemental schedule of assets (held at end of year).
- Investment income as reported in the accompanying statement of changes in net assets available for benefits.

Note 3 - Investments and Information Certified by the Plan's Custodian (continued)

The Plan's investments that exceed 5% of net assets available for benefits are as follows:

	December 31, 2011	December 31, 2010	
Fixed Income Option	$ 2,789,306	$ 2,666,336	
Lifetime 2040 Account	$ 1,632,606	$ 1,541,660	
Lifetime 2020 Account	$ 1,460,479	$ 1,522,133	
Lifetime 2030 Account	$ 1,303,093	$ 1,037,801	
Large-Cap Stock Index Account	$ 1,109,457	$ 947,018	
American Funds Growth Fund of America	$ 1,034,405	$ 1,099,635	
Lifetime 2050 Account	$ 1,021,704	$ 889,679	*
American Funds EuroPacific Growth Fund	$ 971,336	$ 1,269,520	

* Not greater than 5% of net assets available for Plan benefits at the respective date.

During 2011, the Plan's investments (including gains and losses on investments bought and sold as well as held during year) appreciated in value as follows:

Mutual funds	$ (300,785)
Pooled separate accounts	(197,610)
	$ (498,395)

Note 4 - Investment Contracts with Insurance Company

The Plan entered into a fully benefit-responsive guaranteed interest contract with Principal. Principal maintains the contributions in a general account ("Principal Fixed Income Option"), with a fair value of $2,789,306 and $2,666,336 at December 31, 2011 and 2010, respectively, which exceeded 5% of net assets available for benefits. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the Statements of Net Assets Available for Benefits at fair value as reported to the Plan by Principal with an adjustment to contract value included as a component of net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 4 - Investment Contracts with Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying contracts. As a result, the average yield earned by the Plan is the yield earned on the group annuity contract. The average yield was approximately 2.73% and 3.00% for the years ended December 31, 2011 and 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 2.75% for the period from January 1, 2011 through June 30, 2011 and 2.70% for the period from July 1, 2011 through December 31, 2011 or less than 3.10% and 2.90% for the periods from January 1, 2010 through June 30, 2010 and June 30, 2010 through December 31, 2010, respectively. The crediting rate is currently reset on a semiannual basis.

By definition, the contract is an insurance contract. As a result, the Plan may transact according to the terms defined in the contract at any time.

Note 5 - Income Taxes

On September 17, 2009, the United States Treasury Department advised the custodian that the form of the Prototype Plan is acceptable under Section 401(a) of the IRC. This notification from the United States Treasury Department replaced the prior acceptance dated July 28, 2003. The Plan has been amended; however, the Plan administrator believes that the Plan is designed and is currently being operated and administered in compliance with the applicable requirements of the IRC and, therefore, is tax-exempt. Thus, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 6 - Party-in-Interest Transactions

Certain Plan investments are insurance company pooled separate accounts, a guaranteed interest contract, and participant notes receivable that are managed by Principal. Principal is the asset custodian and recordkeeper, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transactions rules.

Plan expenses paid to Principal by the Plan were $32,123 during the year ended December 31, 2011.

Note 7 - Subsequent Events

The Plan has evaluated subsequent events from December 31, 2011 through the date of report, July 24, 2012, the date the financial statements were available to be issued.
