NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of The Ben Arnold-Sunbelt Beverage Company of South Carolina, L.P. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of The Ben Arnold - Sunbelt Beverage Company of South Carolina, L.P. (the Partnership, Plan Sponsor, or Employer) with three months of service and who have attained the age of 21. After eligibility requirements are met, employees may enter the Plan on the first day of the subsequent month. Marshall & Ilsley Institutional Trust Services (M&I) serves as the custodian and trustee of the Plan. Certain members of management of the Partnership also serve as trustees of the Plan. Primetrust Advisors serve as the co-fiduciary of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan up to certain IRS limitations. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a stable value fund as investment options for participants. For the years ended December 31, 2011 and 2010, the Partnership contributed 100% of the first 1% and 50% of the next 5% of a participant's contributions to the Plan. A profit sharing contribution, if any, is also discretionary and determined annually by the Partnership. For the years ended December 31, 2011 and 2010, there were no profit sharing contributions. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Partnership's contribution; including profit sharing contributions, if any, and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Partnership's matching contribution portion and profit sharing contribution, if any, portion of their accounts is based on years of continuous service. A participant is 100% vested after two years of credited service.

Notes receivable from participants

Notes receivable from participants are participant loans. Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their vested account balances, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan Administrator. These rates range from 3.34% to 10.25%. Loans are paid through payroll deductions.

NOTE 1 - DESCRIPTION OF THE PLAN, Continued

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$20,481 and \$8,628, respectively. These accounts will be used to reduce future employer contributions. Also, in 2011, employer contributions were reduced by \$8,339 from forfeited non-vested accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting with the exception of benefits which are recorded when paid in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investments and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Administrative expenses

All administrative costs of the Plan and professional services related to it are paid by the Partnership except for certain investment fees and 50% of the Plan's co-fiduciary's fees, which are paid by the Plan. Indirect fees paid to the investment advisor from Plan assets were \$7,806.

Subsequent events

The Plan has evaluated subsequent events through July 18, 2012, the date the financial statements were available to be issued.

Recently issued accounting pronouncements

Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures about Fair Value Measurements* amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis was delayed until 2011, the guidance in ASU 2010-06 was effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures (although certain of these new disclosures will not be required for nonpublic entities).

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in the Partnership contribution portion of their accounts.

NOTE 4 - TRUSTEE CERTIFICATIONS

The following is a summary of the Plan's asset information as of and for the years ended December 31, 2011 and 2010, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	<u>December 31,</u>	
	<u>2011</u>	<u>2010</u>
Cash	\$ -	\$ 10,912
Investments at fair value		
Pooled separate accounts	14,045,071	14,890,449
Accrued interest and dividends	99,601	85,429
Investments at contract value		
Stable value fund	1,108,785	1,456,184
Notes receivable from participants	<u>788,488</u>	<u>757,369</u>
	<u>\$ 16,041,945</u>	<u>\$ 17,200,343</u>

M&I also certified to the completeness and accuracy of \$569,250 in net depreciation in 2011 and \$1,764,600 in net appreciation in 2010 in fair value of investments; \$305,693 and \$299,476 of interest and dividends related to the aforementioned Plan assets and \$30,970 and \$37,565 in interest on notes receivable from participants for the years ended December 31, 2011 and 2010, respectively.

NOTE 5 - STABLE VALUE INVESTMENT OPTIONS

The BMO Stable Principal Fund is comprised of fully benefit-responsive contracts and is therefore valued at contract value, which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The following is a reconciliation of fair value to contract value of the Plan's stable value investment option:

	<u>2011</u>	<u>2010</u>
Investment at fair value	\$ 1,130,961	\$ 1,470,746
Adjustments to contract value	<u>(22,176)</u>	<u>(14,562)</u>
Investment at contract value	<u>\$ 1,108,785</u>	<u>\$ 1,456,184</u>

NOTE 6 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used to measure fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Stable value fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Partnership by a letter dated July 8, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be substantiated upon examination by the Internal Revenue Service or Department of Labor. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2008.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by M&I. M&I is the custodian and trustee of the Plan's assets; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to related parties for investment management services totaled \$4,162 and \$5,502 for the years ended December 31, 2011 and 2010, respectively.
