Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Navajo Manufacturing Company, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1994 and most recently restated effective December 31, 2009. The Plan is available to employees of Navajo Manufacturing Company, Inc. (the "Company") who are age 21 years or older and who have completed one year of continuous service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of the Company administers the Plan. State Street Bank and Trust Company serves as trustee; T. Rowe Price manages Plan assets; and Boston Financial maintains the Plan records. T. Rowe Price offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions up to 50% of their annual compensation, subject to limitations by the Internal Revenue Service ("IRS"), which are adjusted annually by the Secretary of Treasury for inflation ($16,500 for the year ended December 31, 2011). Employee contributions to the Plan are made through regular payroll deductions. An additional catch-up contribution is allowed for employees age 50 and over up to $5,500 for 2011. The Plan also permits rollover contributions from other qualified retirement plans. The Company may contribute to the Plan a discretionary matching contribution based on a percentage of the participant's compensation subject to certain limitations. In addition, the Company may contribute a discretionary profit sharing contribution based on each participant's compensation. There were no discretionary matching or profit sharing contributions to the Plan for 2011.

Participants' Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, if any, Plan earnings and losses, and forfeitures. The Plan allows participants to direct the trustee as to the investment of their individual account balances. Allocations of Plan earnings and losses are based upon daily account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2 years	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the sixth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 8.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator, and mature at various dates between March 2012 and May 2015. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits

Upon termination of service, death, disability, in-service distribution at age 59½, or attaining normal retirement age, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or installment payments. Participants may also roll over the balance to an IRA or another retirement plan or leave the assets in the Plan if the balance is greater than $1,000. Benefits are made in the form of a lump-sum payment if less than $1,000. Benefits are recorded as distributions to participants when paid.

The Plan allows participants to receive hardship withdrawals to satisfy certain immediate and heavy financial needs. Hardship withdrawals may only be made from fully vested accounts and are subject to $1,000 minimum. Participant contributions will be suspended for a minimum period of six months after the receipt of a hardship withdrawal.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

Forfeitures arising from termination of employment prior to full vesting are used to offset subsequent Plan expenses or reduce future employer contributions. Forfeited account balances were minimal as of December 31, 2011 and 2010.

Valuation of Investments and Income Recognition

The assets of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

The net realized and unrealized investments gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchase and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Administrative Expenses

The Company has elected to pay for certain administrative, accounting, and legal expenses of the Plan. All other expenses are paid from Plan assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with GAAP.

Note 2 - Assets Certified

State Street Bank and Trust Company has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant notes receivable as of December 31, 2011 and 2010, and the income earned thereon for the year ended December 31, 2011, as reflected in the accompanying financial statements and the supplemental schedule, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustee except for comparing the information contained therein to information included in the financial statements and the supplemental schedule.

The fair value of investments greater than 5% of net assets was the following:

	December 31,	
	2011	2010
T. Rowe Price International Discovery Fund	$ 289,487	$ 305,778
T. Rowe Price Blue Chip Growth Fund	$ 205,642	$ 229,347
T. Rowe Price Midcap Growth Fund	$ 199,674	$ 176,937
T. Rowe Price Equity Income Fund	$ 159,433	$ 154,780
T. Rowe Price Spectrum Income Fund	$ 156,871	$ 145,122
T. Rowe Price Equity Index 500 Fund	$ 106,622	$ 103,401

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Note 3 - Fair Value Accounting (continued)

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets that are carried at fair value, and whose valuation is performed on a recurring basis, as of December 31, 2011 and 2010.

The fair value of the mutual funds and the money market fund was determined based upon observable prices in active markets.

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan did not obtain a Plan specific determination letter as it operates with the trustee's opinion letter dated March 31, 2008, which was issued on the basic prototype plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 6 - Party-in-Interest Transactions

Certain Plan investments are mutual funds and a money market fund managed by T. Rowe Price. State Street Bank and Trust Company is the asset trustee, as defined by the Plan; therefore, these transactions qualify as transactions with parties-in-interest. These transactions are exempt from prohibited transaction rules.

Note 7 - Subsequent Events

The Company has evaluated all subsequent events through July 24, 2012, which is the date the financial statements were available for issuance.
