Note 1. Description of Plan

The following description of the Standard Supply and Distributing Co., Inc. (Company) The Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan became effective July 1, 1997.

Contributions. Each year, participants may contribute from 1-100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company contributes 50% of the first 4% of base compensation that a participant contributes to the Plan. The matching Company contribution is invested directly in the participants' portfolio of investments. Contributions are subject to certain limitations.

Effective January 1, 2008, a participant may elect to have all or a portion of the participant's elective deferrals to be Roth elective deferrals when contributed to the Plan. These Roth elective deferrals are included in the participant's gross income at the time deferred and must be irrevocably designated as Roth elective deferrals by the participant in the deferral election agreement. Absent a participant's affirmative election to have any portion of an elective deferral be considered a Roth elective deferral, elective deferrals shall be treated as pre-tax elective deferrals.

Participant Accounts. Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years on continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 10.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or payments over a period certain in monthly, quarterly, semiannual, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Unless a participant elects in writing to defer the receipt of benefits, the payment of benefits shall begin not later than the sixtieth (60^{th}) day after the close of the Plan year in which the latest of the following events occur: (a) the date on which the participant attains the earlier of the normal retirement age; (b) the tenth (10^{th}) anniversary of the year in which the participant commenced participation in the Plan; or (c) the date the participant terminates service withe the employer.

Forfeited Accounts. At December 31, 2011 and 2010, forfeited non-vested accounts totaled $4,904 and $1,904, respectively. These amounts will be used to reduce future administrative expenses, with any remaining amounts used to reduce future employer contributions.

Note 2. Summary of Significant Accounting Policies

Date of Management's Review. Subsequent events were evaluated through July 16, 2011, which is the date the financial statements were available to be issued.

Basis of Accounting. The financial statements of the Plan are prepared under the accrual method of accounting. Income and expense are recorded in the period earned and incurred, respectively.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefit payments are recorded in the period in which they are distributed.

Operating Expenses. Certain administrative expenses are paid by the Plan Sponsor.

Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Note 3. Cash

In order to reduce administrative expenses and to offer participants improved services, the Plan administrators approved the change of the Plan's custodian from John Hancock Life Insurance Company (John Hancock) to Putnam Fiduciary Trust Company (Putnam) effective January 3, 2012. In preparation for the change in custodians, John Hancock liquidated the Plan's investment holdings in pooled separate accounts that were held and maintained by John Hancock, effective as of the close of the business day December 30, 2011. The total discontinuance of the Plan's investments in John Hancock pooled separate accounts resulted in the net proceeds of $4,774,571. These funds were held by John Hancock in a non-interest bearing account as of December 31, 2011 and are included in cash in the accompanying financial statements.

The following represents the components of cash held by John Hancock in a non-interest bearing account:

	December 31,	
	2011	2010
Forfeited accounts	$ 4,904	$ 1,904
Employee deferrals - December 30, 2011 payroll	5,875	-
Repayment of note receivable from participant	1,500	-
Funds from discontinuance of pooled separate accounts	4,774,571	-
	$ 4,786,850	$ 1,904

Note 4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consist of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The guaranteed interest contract with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest contract is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

As of December 30, 2011, all investments held by the Plan were liquidated to cash in preparation of the change in custodians effective January 3, 2012. See Note 3.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Fair Value	Fair Value Measurement at the End of the Reporting Period Using: Quoted Prices in Active Markets for Identical Assets (Level 1)
December 31, 2010		
Mutual funds:		
Growth Funds	$ 2,253,634	$ 2,253,634
Blend Funds	1,511,874	1,511,874
Fixed Income Funds	539,051	539,051
Value Funds	298,193	298,193
Total	$ 4,602,752	$ 4,602,752

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the guaranteed interest contract with insurance company for the year ended December 31, 2010:

December 31, 2010:

Beginning balance	$ 353
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-
Purchases, sales, issuances and settlements (net)	(353)
Ending balance	$ -

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2011, are reported in net appreciation in fair value of investments.

Therefore, these transactions qualify as party-in-interest transactions. The fees paid by the Plan for these investment management services amounted to approximately $26,444 for the year ended December 31, 2011.

The Third Party Administrator for the Plan provides administrative and accounting services for the Plan. Fees paid by the Plan for these services to Howard Simon & Associates, Inc. amounted to approximately $9,639 for the year ended December 31, 2011.

That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2011.

Note 11. Tax Status

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated March 31, 2008, that the Plan's prototype and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's Sponsor believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Note 12. Risks and Uncertainties

The Plan provides for various investment options in mutual funds and cash equivalents. These types of investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, including those held by the Plan, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
