Notes to the Financial Statements

1) DESCRIPTION OF PLAN

The following description of the Micro Plastics, Inc. ("Company") 401(k) Savings and Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute from 1% to 50% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-one mutual funds as investment options for participants. The Company may make a contribution up to 100% of the first 3% of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations. All employee contributions are submitted weekly. The Company ceased matching contributions in March 2008.

Forfeited Accounts

At December 31, 2011 and 2010, there were no forfeited, non-vested accounts.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, if any, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Each loan is secured by the balance in the participant's account and bears interest at rates that range from 5.25% to 10.25%, which are commensurate with local prevailing rates. Principal and interest are paid ratably through monthly payroll deductions.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon.

Micro Plastics, Inc.
401(k) Savings and Retirement Plan
Notes to the Financial Statements

1) DESCRIPTION OF PLAN (continued)

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account either directly or rolled-over into another qualified plan.

Plan Administration Costs

The employer absorbs the significant cost of plan administration; therefore, this is not an expense of the Plan.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Date of Management Review

The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through July 27, 2012 which is the date the report was available for release. No subsequent events have been recognized or disclosed.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Reclassification

Certain amounts of the 2010 financial statements have been reclassified to conform to the current year presentation.

Micro Plastics, Inc.
401(k) Savings and Retirement Plan
Notes to the Financial Statements

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes Receivable from Participants

Participant loans are reclassified as notes receivable from participants measured at the unpaid principal balance plus any accrued unpaid accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Defaulted loans are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During the year ended December 31, 2011, \$ 2,353 was recorded as a deemed distribution.

3) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts.

4) TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the United States Department of the Treasury Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5) INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN

The plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Life Insurance Company, Inc, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

6) FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Level 2 Inputs to the valuation methodology include:

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2011.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

401(k) Savings and Retirement Plan
Notes to the Financial Statements

6) FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010.

Assets at Fair Value as of December 31, 2011:

Mutual Funds	Level 1	Level 2	Level 3	Total
Income	\$ 573,496	\$ -	\$ -	\$ 573,496
Growth & Income	398,247	-	-	398,247
Aggressive Growth	799,616	-	-	799,616
Growth	1,309,725	-	-	1,309,725
Total	\$ 3,081,084	\$ -	\$ -	\$ 3,081,084

Assets at Fair Value as of December 31, 2010:

Mutual Funds	Level 1	Level 2	Level 3	Total
Income	\$ 653,762	\$ -	\$ -	\$ 653,762
Growth & Income	410,542	-	-	410,542
Aggressive Growth	779,486	-	-	779,486
Growth	1,467,623	-	-	1,467,623
Total	\$ 3,311,413	\$ -	\$ -	\$ 3,311,413

7) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
