1. Description of the Plan

The following description of the H.R. Options, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees, age 21 years or older, who meet the Plan's eligibility requirements. The Plan was restated on January 1, 2009 and added a Roth provision starting January 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Union employees and nonresident aliens are excluded from participation in the Plan unless such agreement expressly provides for participation in the Plan.

Administration

The trustee and sponsor of the Plan is H.R. Options, Inc. (the Company). A third-party record-keeper processes and maintains the records of the Plan. Verisight Trust Company serves as custodian and directed trustee of the Plan's participant directed investments.

On April 1, 2011, the Company changed custodian and trustee from TD Ameritrade Trust Company to Retirement Service Trust Company, which later changed its name to Verisight Trust Company.

Contributions

Eligible participants may defer up to 100% of pretax annual compensation, up to the maximum allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into the various investment options offered by the Plan. The Plan currently offers various mutual funds and a stable value fund as investment options for participants. The Company contributions are discretionary. The discretionary matching contribution is 20% of the first 3% of base compensation that a participant contributes to the plan, on a payroll by payroll basis. Contributions are subject to limitation.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Investment income allocations are based on participant account balances on a daily valuation basis. Allocation among the available funds is at the participant's discretion. Participants may change their investment options at any time. The benefit to which a participant is entitled is limited to the amount of the participant's account balance.

Vesting

Participants are vested immediately in their contribution and earnings thereon. Participants are also immediately vested in employer's discretionary matching contribution and earnings thereon.

Break in Service

A participant will incur a break in service during any Plan year in which the participant works less than 501 hours.

Payment of Benefits
On termination of service for account balances less than $5,000, a lump-sum distribution may be made at the employer's discretion. For account balances greater than $5,000, the participant may elect to receive either a lump-sum distribution of the vested balance or substantially equal installments. Participant contributions can be distributed prior to termination or retirement age for hardship claims, death or disability as defined in the Plan agreement.

The normal retirement age under the Plan is 65 years of age. The Plan allows for early retirement at 55 years of age.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosure of contingent assets and liabilities generally accepted in the United States of America. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Company absorbed the majority of administrative costs of the Plan for the year ended December 31, 2011.

Subsequent Events
The Plan has evaluated subsequent events to the statements of net assets available for benefits date of December 31, 2011 through July 16, 2012, which represents the date these financial statements are available to be issued. There were no material events or transaction occurring during this subsequent event reporting period, which requires recognition or disclosure in the financial statements.

3. Investments

The following investments represent 5% or more of the Plan's net assets at December 31:

	2011	2010
American Europacific Growth	$ 319,147	$ 345,948

Vanguard Windsor II Adm	306,268	284,160
Wells Fargo Galliard Stable Val J	656,740	-

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $(26,410).

Common collective trust	$ 5,551
Mutual funds	(31,961)
	$ (26,410)

4. Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds
Valued at the net asset value (NAV) of shares held by the Plan at year end.

Stable Value Funds
Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets held by Verisight Trust Company at fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Stable value fund	$ -	$ 656,740	$ -	$ 656,740
Mutual funds:				
Index funds	230,542	-	-	230,542

Total investment at fair value	$ 2,779,753	$ 656,740	$ -	$ 3,436,493

The following table sets forth by level, within the fair value hierarchy, the plan's assets held by TD Ameritrade Trust Company at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Stable value fund	$ -	$ 129,865	$ -	$ 129,865

Total investment at fair value	$ 3,113,301	$ 129,865	$ -	$ 3,243,166

5. Investment Contract with Trust Company

Wells Fargo Bank, N.A. acts as a directed trustee for a benefit-responsive contract of the Plan. The directed trustee maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for Plan withdrawals and administration expenses. The contract is included in the financial statements at the average contract value, which approximates fair value and represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

The Plan had invested $656,740 and $129,865 as of December 31, 2011 and 2010, respectively, in the Wells Fargo Stable Return Fund J, a collective trust fund sponsored by Wells Fargo Bank. The value of this investment is based on the underlying unit value and approximates fair value at year-end. This fund invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield based on actual earnings was 1.41% and 2.90% and crediting interest rate was 2.31% and 2.38% for the years ended December 31, 2011 and 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero. Such interest rates are reviewed on a quarterly basis for resetting.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants have a 100% non-forfeitable interest in their accounts, including Company contributions.

7. Information Certified by Trustee

The Plan's investments are currently held in safekeeping with Verisight Trust Company, the directed trustee and custodian for the Plan. Investments are in accordance with the policy set by the Plan's Administrator or by subsequent policy amendments.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Verisight Trust Company, a trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of assets available for benefits from April 1, 2011 to December 31, 2011 and the schedule of assets held for investment purposes as of December 31, 2011, and the related investment activity reflected in the statement of changes in assets available for the year then ended. TD Ameritrade Trust Company, the prior trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of assets available for benefits at December 31, 2010 and from January 1, 2010 to March 31, 2011 and the related investment activity reflected in the statement of changes in assets available for benefits for the year then ended.

8. Amounts Allocated to Participants who Have Withdrawn

As of December 31, 2011, forty-four participants with account balances totaling $1,028,770 had withdrawn from participation upon termination, but had not yet received distribution of their vested account balances.

9. Income Tax Status

The IRS has advised the Plan Sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been restated since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Franchise Tax Board. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.
