NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 1 - Description of the Plan

The following description of the Walter G. Anderson, Inc. Employees Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan's summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Walter G. Anderson, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the sponsor and administrator of the Plan. Effective December 1, 2003, the Plan appointed Prudential Trust Company as record keeper and trustee of the Plan. All employees who are members of job classifications defined by the Plan and have completed at least one year of service with the Company are eligible to participate. Upon enrollment in the Plan, a participant may direct their contributions and employer contributions to any combination of 17 investment options.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation (salary reduction contributions), as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Plan allows participants age 50 and older to make catch-up contributions. The employer matches a percentage of the participant's compensation. Additional employer contributions may be contributed at the discretion of the Company's Board of Directors. The Company made discretionary contributions of \$404,047 for the year ended December 31, 2011. Contributions are subject to certain limitations.

Participant's Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the employers' contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction and rollover contributions and employers' matching contributions plus earnings thereon. Participants who leave the Plan because of death, retirement, or disability retirement, as defined in the Plan, are considered 100% vested. Employers' discretionary contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants must complete 1,000 hours of service in a Plan year to receive a year of service for vesting purposes.

WALTER G. ANDERSON, INC. EMPLOYEES RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 1 - Description of the Plan (cont.)

Forfeited Accounts

As of December 31, 2011 and 2010, forfeited nonvested accounts totaled \$61 and \$59, respectively. These accounts will be used to reduce the employer's matching contributions. For the year ended December 31, 2011, no forfeitures were used to reduce employer matching contributions.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan agreement. The Plan provides for normal retirement at age 62. The Plan allows for distributions in the form of a lump-sum, partial lump-sum, and installment payments. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the Plan.

As of December 31, 2011 and 2010, there were no unpaid distributions approved by the Plan administrator.

Termination of Plan

Although they have not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Notes Receivable from Participants

The Plan permits loans to all participants from their elective deferral and rollover accounts. Loans are paid first from a participant's rollover account, if any, and then from the participant's elective deferral account. A participant may not have more than two loans outstanding and all loans must be a minimum of \$1,000.

The maximum loan amount, when added to the outstanding balance of any existing loan, is 50% of the participant's balance in the elective deferral and rollover accounts, or \$50,000, whichever is less. Loans are secured by the participant's loan account. The loans bear interest at one percent over the bank prime loan rate as stated at www.federalreserve.gov, as of the date of the loan withdrawal. Principal and interest is paid through weekly or bi-monthly payroll deductions. Interest rates on participant loans ranged from 4.25% to 9.50% as of December 31, 2011.

Administrative Expenses

Substantially all costs of Plan administration are paid by the Company.

Subsequent events

The Plan has evaluated subsequent events through June 20, 2012, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments consist of mutual funds and a Guaranteed Investment Certificate Contract (GIC) held by the Plan's Trustee. The GIC provides a guaranteed interest rate for a specified period of time. The Plan's mutual funds are valued at fair value based on quoted market prices, which represent the net asset value of shares held by the Plan at year end. Investment contracts held by a defined contribution plan are required to be reported at fair value with an additional line item showing an adjustment of fully benefit-responsive contracts from fair value to contract value on the statement of net assets available for benefits. The GIC is not a traditional GIC and therefore there are not any known cashflows that could be discounted. As a result, the fair value equals the contract value.

Net depreciation in fair value of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation in fair value of investments. Net unrealized appreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits and in individual participant accounts.

Notes Receivable from Participants

Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

WALTER G. ANDERSON, INC. EMPLOYEES RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 3 - Investment Contract with Insurance Company

The Plan has an investment contract with Prudential, who maintains the contributions in a general account, the Guaranteed Investment Certificate Contract (the "GIC"). Contributions to the GIC are combined with earnings at guaranteed crediting rates, less charges for Plan withdrawals and administrative expenses. Prudential is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Investment contracts held in a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributed to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan.

The GIC qualifies as a fully benefit-responsive investment contract because it met all of the following criteria:

- a. The investment contract is effective directly between the GIC and the Issuer and prohibits the Fund from assigning or selling the contract or their proceeds to another party without the consent of the Issuer.
- b. The contract Issuer is obligated to (i) repay principal and interest, or (ii) apply prospective crediting rate adjustments with an assurance the crediting rate will not be less than zero.
- c. The terms of the investment contract requires all permitted participant-initiated transactions with the Fund to occur at contract value with no conditions, limits, or restrictions. Permitted participant-initiated transactions are those transactions allowed by the underlying defined-contribution plan, such as withdrawals for benefits, loans, or transfers to other funds within the Plan.
- d. An event that limits the ability of the Plan to transact at contract value with the Issuer (for example, premature termination of the contracts by the Plan, plant closings, plan termination, bankruptcy, mergers, and early retirement incentive) and that also limits the ability of the Plan to transact at contract value with the participants in the Plan must be probable of not occurring.
- e. The GIC itself must allow participants reasonable access to their funds.

The Plan administrator does not believe there are any events that limit the ability of the Plan to transact at contract value with the issuers. There are also no events and circumstances that would allow the issuers to terminate the fully benefit-responsive group annuity insurance contracts with the Plan and settle at an amount different from the contract value.

Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings at guaranteed crediting rates, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The interest crediting rate is based on a formula agreed upon with the issuer, but it may not be less than 1.5%. Such interest rates are reviewed for resetting on a semi-annual basis. The average yield and interest rates credited to participants were as follows for the year ended December 31:

Average Yields:	<u>2011</u>
Based on actual earnings	2.65%
Based on interest rate credited to participants	2.65%

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 4 - Fair Market Value

The plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted market prices in active markets for identical assets or liabilities.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3 - Unobservable inputs that are not corroborated by market data.

The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services.

The tables below present the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

NOTE 6 - Tax Status

The Internal Revenue Service ruled in a letter dated July 8, 2010 in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator is not aware of any events that have occurred that might adversely affect the plan's qualified status.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Interest earned on participant loans was \$21,701 for the year ended December 31, 2011.

NOTE 7 - Parties-In-Interest

The Plan engages in transactions involving the acquisition and disposition of investments managed by the trustee and investment managers. All investment activity, except for participant loan activity, is with asset accounts of the trustee. These transactions are considered exempt party-in-interest transactions under ERISA.
