Independent Auditor's Report

To the Trustees
Kaseya 401(K) Profit Sharing Plan
Arlington, Virginia

I have audited the accompanying statement of net assets available for benefits of Kaseya 401(K) Profit-Sharing Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011 and 2010. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with US generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, I express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the nest assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011 and 2010 in conformity with accounting principles generally accepted in the United States of America.

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011 did not disclose the interest rate charged on the participant loans as required by Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement income Security Act of 1974.

My audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of basic financial statements and in my opinion, except for the omission of information discussed in the preceding paragraph, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

KASEYA 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

A. Description of Plan

The following description of the Kaseya 401(K) Profit-Sharing Plan (plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

1. ***General.*** The plan is a defined contribution plan covering all full-time employees of the company. Employees are eligible to participant on the 1st of the month subsequent to date of hire.

2. ***Contributions***. Contributions are at the option of the company's board of directors. Contributions are subject to certain limitations. The company may also provide matching contributions as well as profit sharing.

3. ***Participant Accounts.*** Each participant's account is credited with the participant's contribution and an allocation of (a) the company's contribution, (b) plan earnings, and (c) forfeitures of terminated participants' non vested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. ***Vesting.*** Participants are immediately vested in their voluntary contributions and profit sharing contributions plus actual earnings thereon. Vesting in the company matching contributions portion of their account plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after 2 years of credited service for matching contributions.

5. ***Payment of Benefits***. On termination of service due to death, disability of retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits

presents the fair value to the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as hold during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Except for certain administrative fees and fees associated with notes receivable from participants all other expenses of maintaining the plan are paid by the Company.

Subsequent Events

The plan has evaluated subsequent events through July 28, 2012, the date the financial statements were available to be issued.

C. Investments

The plan's assets are held in certain money market funds and registered investment funds. The following table presents investments, with those that represent 5 percent or more of the plan's net assets separately identified. The amounts are the balances as of December 31, 2011.

Ready Assets Prime Money	$ 1,217,179
Thornberg International Value FD	203,437
Oppenheimer Global Opp- N	170,863
Pimco Total Return Fund - R	243,753
Registered Investment Companies Mutual Funds	1,855,232
	$ 3,275,834

During 2011 the plan's investments (including investments bought, sold, and held during the year) incurred a net loss of $ (80,456).

D. Fair Value Measurements

Financial Accounting Standards Board (FASB*) Accounting Standards Codification* (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets of liabilities in active markets that the plan has the ability to access.

Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Level 2 Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011.

Mutual Funds: Certain mutual fund shares are valued at the closing price reported in the active market in which the individual securities are traded. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. If a quoted market price for unrestricted common stock of the issuer is not available, restricted common stocks are valued at a multiple of current earnings less an appropriate discount. The multiple chosen is consistent with multiples of similar companies based on current market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriated and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The plan's assets at fair value as of December 31, 2011 consist of Level 1 investments in registered investment company mutual funds.

Level 3 Gains and Losses

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

E. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as the company may determine.

F. Tax Status

The Plan is considered a "prototype" plan and the plan and related trust are designed in accordance with applicable sections of the IRC. Although the plan has been amended , the plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

G. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
