Independent Auditor's Report

Board of Trustees
Harting, Inc. Profit Sharing 401(k) Plan & Trust
Elgin, Illinois

We were engaged to audit the financial statements of **Harting, Inc. Profit Sharing 401(k) Plan & Trust** as of December 31, 2011 and for the year then ended and the supplemental schedule as of December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the plan's management. The financial statements of **Harting, Inc. Profit Sharing 401(k) Plan & Trust** as of December 31, 2010 and for the year then ended were audited by Blackman Kallick, LLP, whose report dated July 27, 2011, expressed a disclaimer of opinion on those statements for the same circumstances indicated below. Blackman Kallick, LLP subsequently merged into Plante & Moran, PLLC.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Transamerica Life Insurance Company, the custodian of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Harting, Inc. Profit Sharing 401(k) Plan & Trust (the plan) provides only general information. Participants should refer to the plan agreement for a complete description of the plan's provisions.

General

The plan is a defined contribution plan established by Harting, Inc. and Subsidiaries (the company), the plan's sponsor and administrator, on October 1, 1991 and covers substantially all of the company's employees. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Any employee of the company who is a citizen or resident of the United States of America, has attained 18 years of age and has completed six months of service is eligible to participate on the first day of the month following the date the employee satisfies the eligibility requirements.

Participant Contributions

Participants may elect to make 401(k) deferral contributions subject to certain Internal Revenue Service (IRS) limitations. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. These contributions are made out of pretax earnings through salary reductions and, along with earnings and matching contributions, are not subject to federal income tax at the participant level until withdrawn. Participants may designate all or a portion of their contributions as Roth 401(k) contributions, which are after-tax contributions.

Eligible employees may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participants direct the investment of their contributions into various investment options offered by the plan. The participants are able to change their investment options on a daily basis.

Employer Contributions

The employer makes safe harbor matching contributions equal to 400% of the first 1% of each participant's deferral contribution. Such contributions totaled $133,167 for the plan year ended December 31, 2011.

The employer may also make a discretionary profit sharing contribution to participants who completed 1,000 hours of service during the plan year and are employed on the last day of the plan year. The discretionary profit sharing contribution is allocated based on a ratio of each participant's compensation to the total compensation paid to all participants for the plan year. The employer did not make a discretionary contribution for the year ended December 31, 2011.

Participants direct the investment of their portion of employer contributions in the same manner as their participant contributions.

Note 1 - Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution and allocations of the employer's discretionary contribution and plan earnings, and charged with an allocation of administrative expenses and plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are always 100% vested in their 401(k) deferral, rollover and safe-harbor matching contribution accounts. All other accounts vest in accordance with the following table:

Completed Years of Service	Percentage of Account Balance Vested
Less than 1 Year	0%
1	33
2	66
3	100

Participants are also fully vested upon their early or normal retirement date.

Forfeitures

Any funds from forfeited nonvested accounts are used to reduce future employer contributions. Forfeitures of $63,763 were used to offset employer contributions in 2011. Unused forfeiture balances totaled $29,969 and $91,509 as of December 31, 2011 and 2010, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. Loan terms range from one to five years. Loans for the purchase of a principal residence can be paid over a reasonable period of time, which may exceed five years. The loans are secured by the balance in the participant's account and currently bear interest at rates ranging from 4.25% to 7.25%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through periodic payroll deductions. A participant may not have more than one loan outstanding at any time.

Note 1 - Description of Plan (Continued)

Benefits

Upon death, disability, or termination of service, a participant may elect to receive the value of the participant's vested interest in his or her account in the form of a lump sum payment or select from a variety of annuity payment options.

Administrative Expenses

All administrative expenses are paid by the plan to the extent not paid by the company.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared under the accrual method of accounting.

Investments

Investments are reported at fair value in accordance with accounting principles generally accepted in the United States of America (GAAPUSA). See Note 3 for a discussion of fair value measurements.

Effective January 1, 2010, the plan adopted new guidance that requires the plan to report significant transfers between Level 1 and Level 2 and the reasons for those transfers, as well as disclosing the reasons for transfers in or out of Level 3. Additionally, the guidance requires the plan to clarify existing disclosure requirements about the level of disaggregation and inputs and valuation techniques. The adoption of this guidance did not have a significant impact on the plan's financial statements.

The new guidance also requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount, effective for fiscal years beginning after December 15, 2010. The adoption of the guidance for Level 3 activity did not have a significant impact on the plan's financial statements, other than expanded disclosures.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 - Summary of Significant Accounting Policies

Investments (Continued)

Under GAAPUSA, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. GAAPUSA requires investments in fully benefit-responsive investment contracts to be presented at fair value in the statement of net assets available for benefits, and that the amount representing the difference between fair value and contract value of these investments to be presented as a separate line item in the statement of net assets available for benefits. The Transamerica Stable Value Advantage Option (TSVAO) qualifies as a fully benefit-responsive investment contract and is subject to the previously mentioned reporting requirements. Since the fair value and contract value of this investment is approximately equal as of December 31, 2011 and 2010, the plan's financial statements do not include a separate line item that reconciles the difference between the two values. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and could materially affect the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Loans to participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based on the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Management Estimates

The preparation of financial statements in conformity with GAAPUSA requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Subsequent Events

The plan sponsor has evaluated subsequent events through July 30, 2012, the date the 2011 financial statement were available to be issued.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

The plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Note 3 - Fair Value Measurements (Continued)

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2011 and 2010, the following valuation methods have been used to value the plan's investments:

- Pooled separate accounts - Valued at the net asset value (NAV) per unit as determined by Transamerica Life Insurance Company (Transamerica). Such NAV is based on the value of the underlying assets and liabilities of the accounts. The investment objectives of the accounts vary and can be differentiated by the nature of their holdings as disclosed in the fair value hierarchy table below. Participants may transfer in and out of such accounts on a daily basis without any prohibitive restrictions.

- Insurance company general account - Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 3 - Fair Value Measurements (Continued)

The following tables summarize by level within the fair value hierarchy the plan's financial assets and liabilities accounted for at fair value on a recurring basis as of December 31, 2011 and 2010:

Thornburg International Value	13,549	371,526	15,406	488,310

During 2011, the plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $177,223.

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Life Insurance Company (Transamerica), the custodian of the Plan, has certified to the completeness and accuracy of the plan's investments reflected in the statements of net assets available for benefits as of December 31, 2011 and 2010, the schedule of assets held at end of year as of December 31, 2011, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011, as indicated above and in total.

Note 5 - Transamerica Stable Value Advantage Option

Objectives

The key objectives of the TSVAO are to provide preservation of principal, maintain a stable interest rate and provide daily liquidity at contract value for participant withdrawals and transfers in accordance with the provisions of the plan.

Nature of Investment

TSVAO is a single-group, fixed, unallocated annuity contract supported by the general account of Transamerica. The average yield and crediting interest rate are one and the same since there is no ownership right to the assets in the general account. The crediting interest rate is based on a formula agreed upon with the issuer. Such rates are declared monthly. The crediting interest rate was approximately 2.86% and 3.15% for the years ended December 31, 2011 and 2010, respectively.

Note 5 - Transamerica Stable Value Advantage Option (Continued)

Events That Limit the Ability of TSVAO to Transact at Contract Value

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include termination of the plan, a material adverse change to the provisions of the plan or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the plan's ability to transact at contract value with participants, is probable.

Issuer-Initiated Contract Termination

The issuer may not terminate the contract before its maturity date unless the balance of the contract is zero and no current deposit arrangements have been made.

Note 6 - Party-in-Interest Transactions

The plan holds investments managed by affiliates of Transamerica, the custodian of the plan and, therefore, transactions in such investments qualify as party-in-interest transactions, which are exempt under the prohibited transaction rules. During 2011, administrative fees totaling $27,116 were paid to the plan's custodian.

Note 7 - Plan Termination

Although the company has not expressed any intent to do so, it has the right under the plan to discontinue contributions and to terminate the plan at any time, subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of plan termination, participants will become 100% vested in all of their account balances.

Note 8 - Income Tax Status

The plan adopted the Transamerica Volume Submitter 401(k) Profit Sharing Plan. The Internal Revenue Service has determined and informed Transamerica by letter, dated March 31, 2008, that the plan qualifies under Section 401(a) of the Internal Revenue Code. The plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the plan's qualified status.

Note 8 - Income Tax Status (Continued)

GAAPUSA requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
