1. DESCRIPTION OF THE PLAN

The following description of Crain Walnut Shelling, Inc., 401(k) Profit Sharing Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering substantially all employees who are age 21 or older and have one year of service with Crain Walnut Shelling, Inc.; Crain Orchards, Inc.; or Eco-Shell, Inc. (the Companies), which are related through common ownership. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was originally established as of January 1, 2004, and has been subsequently amended.

Contributions Participants may elect to contribute to the Plan, in the form of employee 401(k) salary deferral contributions, up to the lesser of 100% of eligible compensation or the maximum amount allowable by law.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers registered investment companies and a common collective trust within a pooled separate account as investment options for participants. The Companies make safe harbor matching contributions of 100% of each participant's deferral up to 3% of the participant's eligible compensation and 50% of the next 2% of eligible compensation. The Companies made safe harbor matching contributions of $107,116 and $86,728, respectively, for the years ended December 31, 2011 and 2010.

Additionally, the Companies may make discretionary non-elective contributions to the Plan. No discretionary non-elective contributions were made for the years ended December 31, 2011 and 2010.

Vesting Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Participants are also immediately vested in the Companies' safe harbor matching contributions. Vesting in the Companies' discretionary non-elective contribution is based on a vesting schedule whereby a participant is 100% vested after six years of credited service.

Forfeitures Forfeitures of employer contributions may be used to pay for administrative expenses or reduce future employer contributions. At December 31, 2011 and 2010, remaining forfeited nonvested accounts totaled $233 and $-0-, respectively. During the years ended December 31, 2011 and 2010, forfeitures of $-0- and $6,104, respectively, were used to pay for administrative expenses.

Participant Accounts Each participant's account is credited with the participant's salary deferral contributions, account earnings, and employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits Upon termination of service, a participant may elect to receive payment in the form of a lump-sum distribution or annual installments over a period of time that is not more than the participant's life expectancy.

Plan Termination Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Discussion of fair value measurements is discussed below.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There were no changes in the methodology used during the years ended December 31, 2011 and 2010.

Pooled Separate Account: The underlying assets of the pooled separate account consist of mutual funds and a common collective trust known as sub-accounts. Each sub-account invests in shares or units of an underlying mutual fund or common collective trust, respectively. Sub-accounts are measured in terms of accumulation units. The sub-accounts are valued based on the quoted market prices of the mutual funds and the underlying assets of the common collective trust. Certain fund fees and expenses, mortality and risk charges, and administration charges (if any) are deducted from the value of both the mutual funds and the common collective trust to arrive at the value of the sub-accounts. The accumulation units are valued at net asset value on a daily basis. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay withdrawal from the pooled separate account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan administrators believe the valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits Benefits are recorded when paid.

Administrative Expenses All administrative expenses of maintaining the Plan are paid by the Companies.

Subsequent Events The Plan has evaluated the need for disclosures or adjustments resulting from subsequent events through July 18, 2012, the date the financial statements were available to be issued. Based on this evaluation, no disclosures or adjustments were required to be made to the financial statements as of December 31, 2011.

3. INVESTMENTS

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such an election, the investments at fair value included in the accompanying statements of net assets available for benefits, and the net appreciation (depreciation) in fair value of investments, and dividends included in the accompanying statements of changes in net assets available for benefits as of and for the years ended December 31, 2011 and 2010, were not subjected to any auditing procedures and have been certified by Hartford Life Insurance Company (Hartford).

Investments that represent 5% or more of the Plan's net assets are as follows:

December 31	2011	2010
Pooled separate account:		
American Funds American Mutual R1	$ 138,364	$ 118,765
Goldman Sachs Small Cap R	97,683	87,014
Invesco Van Kampen Equity and Income R	98,706	88,116

Pioneer Mid-Cap Value R	328,575	291,458

All others with balances of less than 5% of plan assets	598,225	498,105
Total	$ 1,519,250	$ 1,319,971

The following table sets forth the Plan's investments at fair value as of December 31, 2011 and 2010. The Plan's pooled separate account is a Level 2 investment within the fair value hierarchy.

	2011	2010
Pooled separate account:		
Large cap value funds	$ 257,349	$ 217,318
Large cap blend funds	216,932	179,422
Large cap growth funds	155,124	126,597
Mid cap value funds	334,166	295,049
Mid cap growth funds	61,409	50,541

Small cap growth funds	57,164	48,882
Fixed income funds	167,835	144,529
Stable value fund	162,803	163,695
Total Assets at Fair Value	$ 1,519,250	$ 1,319,971

4. RELATED-PARTY TRANSACTIONS

The Plan has an investment contract with Hartford. Hartford is the Trustee as defined by the Plan and, therefore, qualifies as a party-in-interest with respect to the pooled separate account managed by them; however, they are exempt from the prohibited transaction rules under ERISA. Fees paid by the Plan for investment management services were included as reductions of the investment earnings on each investment and amounted to $5,727 and $4,622 for the years ended December 31, 2011 and 2010, respectively.

5. TAX STATUS

The Plan was restated to adopt a volume submitter profit sharing prototype plan established by Associated Pension Consultants effective January 1, 2004. The Associated Pension Consultants prototype plan document was granted a determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the prototype document, as then designed, was in compliance with the applicable requirements of the *Internal Revenue Code*. Adoption of the Associated Pension Consultants prototype plan updated the Plan to be in compliance with recent legislation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the *Internal Revenue Code;* and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the *Internal Revenue Service*. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

6. RISKS AND UNCERTAINITIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. RECENT ACCOUNTING PRONOUNCEMENTS

In May 2011, FASB issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 changes the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Effective for fiscal years beginning after December 15, 2011, entities will need to apply the updated fair value measurement and disclosure requirements, on a prospective basis, when presenting assets or liabilities measured at fair value. The Plan is currently evaluating the impact, if any, ASU No. 2011-04 will have on its financial disclosures.
