TSI GROUP, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of the TSI Group, Inc. (the "Company" or the "Plan Sponsor") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the actual Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing plan with a 401(k) feature that allows for voluntary employee salary reductions to be placed into the Plan. The Plan is a single employer plan with a controlled group that covers the employees of TSI Group, Inc., Sandy Bay Machine, Inc., Brazonics, Inc., Woven Electronics, LLC, American Avionic Technologies Corporation, Performance Metal Fabricators, Inc., Thompson Industries, Ltd., ADB Industries, and CGR Technologies Incorporated. The Plan generally covers all employees who have reached the age of twenty-one (21) and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA"). In October 2010, the Company became a wholly owned subsidiary of BE Aerospace, Inc. ("BE Aerospace"), and all contributions to the Plan were ceased effective December 31, 2010, as a result of BE Aerospace's acquisition of the Company. On January 26, 2012, BE Aerospace adopted a resolution to merge the TSI Group, Inc. 401(k) Plan with the BE Aerospace, Inc. Savings Plan effective February 1, 2012. See Note 8 for further discussion of the Plan merger.

Contributions

Each payroll period, participants could defer on a pre-tax basis up to 100 percent of their compensation into the Plan, up to the maximum amount allowed by law. Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also roll over amounts representing distributions from certain other eligible retirement plans. Participants directed their contributions into various investment options offered by the Plan. The Company contributed a safe-harbor matching contribution equal to 100 percent of the amount of the participant's deferral contribution up to three percent of the participant's compensation, plus 50 percent of the participant's deferral contribution exceeding three percent of the participant's compensation, but not exceeding five percent. The Company could also make additional discretionary matching and profit sharing contributions. Contributions were subject to certain limitations, and certain Company contributions were also subject to allocation conditions. Effective December 31, 2010, all contributions to the Plan were ceased, and all Plan participants were eligible to begin making contributions to the BE Aerospace, Inc. Savings Plan effective January 1, 2011. For the period ending February 1, 2012, the Company did not make an additional discretionary matching or profit-sharing contribution.

Participant accounts

Each participant's account is credited with the participant's and Company's contribution and allocations of Plan earnings and may be charged with an allocation of administrative expense. The benefit to which a participant is entitled is provided from the participant's vested account.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN, Continued

Vesting

Participants are immediately vested in their deferral contributions and the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service. A participant vests 20 percent per year of service and is 100 percent vested in the Company's additional matching contributions and the Company's profit sharing contributions plus actual earnings thereon after five years of credited service. Upon reaching normal retirement age as defined by the Plan, or following disability or death, a participant is 100 percent vested in his or her entire account.

Notes receivable from participants

Participants are not permitted to borrow from their accounts under the Plan. However, participant notes that existed from previous individual company plans that merged into the Plan remain in effect until the outstanding amounts are repaid. These notes were secured by the balance in the participant's account and bear interest at the prime rate at the time of borrowing (ranging from 5.75 to 9.25 percent), as defined. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

Upon termination of service for any reason, if the value of the vested account is greater than \$5,000, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. If the value of the vested account is \$5,000 or less, the balance will be automatically distributed with the option of rolling the vested balance into an IRA or retirement plan or having the balance paid in cash. If the participant does not make an election, the vested account will be distributed as follows: (1) vested balances of \$1,000 or less will be paid directly to the participant in cash and (2) vested balances greater than \$1,000 will be rolled directly into an IRA established by the plan administrator. At age 70 1/2, participants must begin receiving benefit distributions (unless they are still employed by the Company). In addition, hardship distributions from the participant's deferral account only are permitted if certain criteria are met.

Forfeited accounts

Forfeited balances of terminated participants' non-vested accounts are used to reduce administrative expenses and then to reduce any employer contributions. At February 1, 2012 and December 31, 2011, unallocated forfeited non-vested accounts totaled \$0 and \$1,873, respectively. During 2012, the Plan did not use forfeitures to reduce administrative expenses and all remaining forfeiture balances were transferred to the BE Aerospace, Inc. Savings Plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES AND ACTIVITIES

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES AND ACTIVITIES, Continued

Basis of accounting, continued

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions which affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Administrative expenses for service provider and trustee fees are paid directly by the Plan. Professional services are paid by the Plan Sponsor.

Subsequent events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through July 24, 2012, the date the financial statements were available for issuance.

Recently issued accounting pronouncements

Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures about Fair Value Measurements*, ("ASU 2010-06"), amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which was delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, the adoption of ASU 2010-06 did not have a significant effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, ("ASU 2011-04"). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011 and are not expected to have a significant effect on the Plan's financial statements.

NOTE 4 - CUSTODIAN CERTIFICATIONS

The following is a summary of the Plan's asset information as of February 1, 2012 and December 31, 2011 and for the period from January 1, 2012 to February 1, 2012, included throughout the Plan's financial statements, that was prepared by or derived from information provided by Nationwide Financial Services, Inc. ("Nationwide Financial"), the custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that the information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements related to the following assets:

	<u>February 1, 2012</u>	<u>December 31, 2011</u>
Investments at fair value:		
Mutual funds	\$ -	\$ 12,470,967

Nationwide Financial also certified to the completeness and accuracy of \$645,653 net appreciation in fair value of investments and \$4,654 of interest and dividends related to the aforementioned Plan assets for the period from January 1, 2012 to February 1, 2012.

NOTE 5 - STABLE VALUE FUND

The Union Bond & Trust Company Stable Value Fund, formerly known as the Morley Stable Value Fund, is comprised of fully benefit-responsive contracts and is therefore valued at contract value, which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate was 2.09% and 2.45% at February 1, 2012 and December 31, 2011, respectively. The average yield was 0.18% and 2.37% for the period from January 1, 2012 to February 1, 2012 and for the year ended December 31, 2011, respectively.

The following is a reconciliation of fair value of the investments to contract value as identified in the certified information as of December 31, 2011. There was no such investment at February 1, 2012.

	<u>December 31,</u> <u>2011</u>

NOTE 6 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 6 - FAIR VALUE MEASUREMENTS, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 1, 2012 and December 31, 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Stable value fund: Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations.

State Street S&P Mid Cap Index Securities Lending Series Fund: Valued at the NAV of each Class with the Class underlying investments in collective investment funds valued at their transaction price, which reflects investments in State Street Cash Collateral Funds, if any, valued at a constant \$1.00 price per unit.

Money market fund: Valued on the active market on which it is traded; at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Due to Plan merger as discussed in Note 8, all Plan assets were transferred to the BE Aerospace, Inc. Savings Plan on February 1, 2012. As such, there are no fair value measurements to disclose as of February 1, 2012.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2011:

<u>Fair value measurements as of December 31, 2011</u>

NOTE 7 - TRANSACTIONS WITH PARTIES-IN-INTEREST AND RELATED PARTIES

Certain Plan investments are shares of mutual funds managed by Nationwide Financial. Nationwide Financial is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to approximately \$3,500 for the period from January 1, 2012 to February 1, 2012.

Summit Financial Corporation is the third-party administrator for the Plan. Transactions with Summit Financial Corporation qualify as party-in-interest transactions. Fees paid by the Plan to Summit Financial Corporation for services amounted to approximately \$12,000 for the period from January 1, 2012 to February 1, 2012.

NOTE 8 - PLAN TERMINATION

As previously discussed in Note 1, all contributions to the TSI Group, Inc. 401(k) Plan ceased effective December 31, 2010 in conjunction with the acquisition of the Company by BE Aerospace. On January 26, 2012, BE Aerospace adopted a resolution to merge the TSI Group, Inc. 401(k) Plan with the BE Aerospace, Inc. Savings Plan effective February 1, 2012. All Plan assets were transferred to BE Aerospace, Inc. Savings Plan on February 1, 2012. All service with TSI Group, Inc. will be recognized for both eligibility and vesting purposes of the BE Aerospace, Inc. Savings Plan.

NOTE 9 - INCOME TAX STATUS

The Company has adopted the Plan based on a prototype plan document sponsored by Summit Financial Corporation. Summit Financial Corporation has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The Plan Administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the prototype plan. While the Plan cannot rely on the IRS opinion letter, the Company and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be substantiated upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of February 1, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2008.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
