INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
LynuxWorks, Inc. 401(k) Profit Sharing Plan
San Jose, California

We were engaged to audit the accompanying statements of net assets available for benefits of LynuxWorks, Inc. 401(k) Profit Sharing Plan ("Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C which was certified by Transamerica Life Insurance and Annuity Company, the investment custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the investment custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the investment custodian as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the investment custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the investment custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A – Description of the Plan

The following description of the LynuxWorks 401(k) Profit Sharing Plan (the Plan) provides only general information. Interested persons should refer to the Plan agreement and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was established by LynuxWorks, Inc. (the Company), effective June 1, 1990, to provide retirement benefits to eligible employees. The Plan was last amended and restated effective January 1, 2008.

The Plan is a defined contribution plan covering all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Company employees serve as Plan trustees. Plan assets are invested in a contract with Transamerica Life Insurance Company (Transamerica). In addition, certain administrative services were provided by Transamerica.

Contributions

Participants are permitted to make voluntary salary deferral contributions of up to 30% of eligible compensation. The Plan permits participants to make certain tax-free transfers (rollovers) of lump sum distributions received from other tax-qualified plans subject to regulations. The Company may make profit sharing contributions. Effective May 15, 2002, the Plan was amended to eliminate Company matching contributions at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations.

Vesting

Participants are immediately vested in their salary deferral and rollover contributions and Company profit-sharing contributions, plus earnings thereon.

Participant Accounts

Participant accounts are credited with the participant contributions and an allocation of (a) Company discretionary profit sharing contributions and (b) Plan earnings (less any losses). Participant accounts are also charged an allocation of Plan expenses. Allocations are based on participant earnings or account balances. Participants may invest their accounts in several investment options offered by the Plan. Effective August 15, 2005, the Plan was amended to restrict transfers on certain investments to reduce the negative impact of frequent trading.

Note A – Description of the Plan (Continued)

Notes Receivable from Participants

Participants may obtain personal loans from their account balances. A participant may borrow the lesser of $50,000 or one-half of his or her vested account balance for a period not to exceed five years except for loans used to purchase a primary residence for which longer loan terms are permitted. Participant loans are evidenced by a written promissory note, bear a reasonable rate of interest as determined under the loan policy, and are collateralized by the participant account balance. Repayment of principal and interest is made through payroll deductions. Participants are charged loan transaction and maintenance fees. Transactions with participants qualify as party-in-interest transactions.

Forfeitures

The forfeited nonvested portion of terminated participants' account balances are used to reduce the Company's profit sharing contributions and employer matching contributions. As of December 31, 2011, forfeitures in the amount of $65,079 were available to offset future employer contributions.

Payment of Benefit

Upon termination of employment, participants are entitled to their vested benefits. Participants may elect to receive benefits in a lump-sum distribution or in the form of an annuity. Benefits are recorded when paid. Effective April 28, 2008, all Participants or Beneficiaries receiving a distribution of their account balance will pay a $50 Distribution Fee per distribution. This will apply to any distribution due to termination of employment, retirement, disability, death, Plan termination, financial hardship or in-service withdrawals. For Participants who elect an installment payment option, the distribution fee will be $10 per installment payment.

Plan Expenses

Certain direct expenses, as determined by the trustees, may be charged to the Plan and paid for with Plan assets. Plan expenses include investment management and transaction fees. Expenses to administer the Plan are paid by the Company and, therefore, are not reflected in the Plan's financial statements.

Note B – Summary of Significant Accounting Policies

Basis of Presentation and Accounting Period

The Plan presents its financial statements on the accrual basis of accounting. The Plan has adopted a calendar year end.

Note B – Summary of Significant Accounting Policies (Continued)

Valuation of Investments

The Plan investments are stated at fair value except for its stable value fund investment contract valued at contract value as reported by Transamerica, which approximates fair value (Note E). Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net assets value of shares held by the Plan at year-end. Participant loans are valued at cost, which approximates fair value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan's management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events through July 12, 2012, the date the financial statements were available for issuance.

Note C – Information Certified by the Plan's Trustee and Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustee, except for comparing such information certified by the trustee to information included in the plan's financial statements and supplemental schedule of assets held for investment purposes.

	Transamerica December 31, 2011	Transamerica December 31, 2010
Mutual funds	$ 4,255,433	$ 4,169,833
Stable value fund	2,063,945	2,229,464

In addition, the trustee also certified to net depreciation in fair value of investments in the amount of $144,468 and interest income in the amount of $50,864 for the year ended December 31, 2011.

Note D – Investments

The following presents investments that represent 5% or more of the Plan's net assets.

	December 31, 2011	December 31, 2010
Janus Advisor Balanced	$ 361,594	$ 376,551
SSgA Russell Large Cap Growth Index	365,193	387,168
Transamerica Stable Value	2,063,945	2,229,464
Morgan Stanley Growth Opportunities	375,002	324,736
Columbia Mid Cap Value	333,223	323,931

Note E – Investment Contract with Insurance Company

In 2002, the Plan entered into a fully benefit-responsive contract with Transamerica Life Insurance Company (Transamerica). The stable value fund option of Transamerica Retirement Services' (TRS's) Group Annuity Contract complies with the Financial Accounting Standards Board's (FASB's) fully benefit-responsive requirements based on the following characteristics, and thus must be reported at contract value in the defined contribution plan's financial statements:

a. The stable value fund is a nontradable obligation of Transamerica Retirement Services. Thus, the fund cannot or will not assign or sell the contract or its proceeds to another party without the consent of TRS.

Note E – Investment Contract with Insurance Company (Continued)

b. The repayment of principal and interest credited to participants in the fund is a financial obligation of TRS. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable (for example, a significant decline in creditworthiness of TRS), the stable value fund will no longer be considered fully benefit-responsive.

c. The terms of TRS's Group Annuity Contract require all permitted participant-initiated transactions with the fund to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans or transfers to other funds within the plan.

d. Since the stable value fund is an obligation of TRS, the occurrence of an event that limits the ability of the fund to transact at contract value with TRS and the participants in the fund is not probable.

e. The stable value fund allows participants reasonable access to their funds.

f. TRS's stable value fund has no stated maturity. Interest rates are reset monthly as of the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the fund. For deposit liabilities with no defined maturities, the fair value to be disclosed is the amount payable on demand at the reporting date. Accordingly, the contract value is also the fair value to be disclosed.

Effective January 29, 2007, the Transamerica Stable Value Fund changed its name to the Transamerica Stable Value Option. This investment seeks to protect against any loss of principal while providing returns in excess of money market funds and one-year U. S. Treasury bills. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and with no set maturity. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return. The Transamerica Stable Value Option is not a separate account investment choice, it is an investment in the issuer's general account.

The average effective yield, which is equal to the crediting interest rate, was approximately 2.45% and 2.73% for 2011 and 2010, respectively.

The following represents rating of Transamerica's financial strength/claims paying ability as represented by various insurance rating services.

Service	Rating	Rating Description
A.M. Best	A+	Excellent
Fitch, Inc.	AA-	Very Strong
Moody's	A1	Good
Standard & Poor's	AA-	Very Strong

Note F – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2011.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (See Note E).

Note F – Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Values as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

Note G – Tax Status

The Plan is a prototype benefit plan offered by Transamerica Life Insurance and Annuity Company. The plan obtained its latest determination letter on November 5, 2009, in which the Internal Revenue Service stated that the plan was in compliance with the applicable requirements of the Internal Revenue code. The plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. No uncertain positions have been identified that would require recognition of a liability (or asset) or disclosure in the financial statements as of December 31, 2011. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

Note H – Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note I – Party-In-Interest Transactions

Administrative expenses of the Plan are paid by the Company. The Plan invests in mutual funds managed by Transamerica, the administrator and investment custodian. Other than as described above, the Plan has no agreements or transactions with any party-in-interest.

Note J – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note K – Subsequent Events

On March 1, 2012, the Plan changed third party administrators from Transamerica to Fidelity. All Plan assets except the Stable Value Fund were transferred to Fidelity on March 1, 2012. The Stable Value Fund was transferred separately to Fidelity on April 27, 2012.
