1. DESCRIPTION OF PLAN:

The following description of the F & M Mafco, Inc. Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of F & M Mafco, Inc. (the Company). There are no age or service requirements to enter the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

The Plan allows automatic enrollment of eligible employees. Eligible employees' compensation will be reduced by 3%, the automatic deferral rate, and will increase by 1% each January 1, limited to 6% of compensation.

Contributions

Participants may contribute up to 60% of their compensation, as defined by the Plan. The Company may make matching as well as discretionary contributions. There were no matching or discretionary employer contributions during 2011 or 2010.

Participant accounts

Each participant's account is credited with the participant's elective contributions and the employer's related matching and discretionary contributions and an allocation of Plan earnings. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

Benefits

Participants are entitled to benefits beginning at normal retirement age (65). Upon termination of service, participants with a balance of \$1,000 or less receive a lump sum distribution, no later than sixty days after the end of the Plan year in which they retire or terminate their employment. Participants with account balances greater than \$1,000 but less than \$5,000 that do not request a lump-sum or rollover distribution within sixty days after the end of the Plan year in which they retire or terminate employment will have their account balance automatically distributed to an Individual Retirement Account for the participant's benefit. Those with balances greater than \$5,000 may elect to leave their funds in the Plan.

Death and disability benefits

A death benefit equal to the value of a participant's vested account will be paid to the participant's beneficiary. Active participants, who become totally and permanently disabled, will receive disability benefits no later than sixty days after the last day of the Plan year in which the disability occurred.

Notes receivable from participants

The Plan permits participants to borrow from their vested account. The maximum amount that may be borrowed is the lesser of \$50,000 or 50% of the vested balance of the account. The interest rate on the loan is determined by the Plan Administrator. Loans are payable within five years except for those used to acquire a principal residence.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The accompanying financial statements have been presented on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. As required by professional standards, the Statements of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are reported on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

Certain annual fees are paid by the Company.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through July 30, 2012, the date the financial statements were available to be issued.

3. INVESTMENTS:

The Plan provides for participant directed investment programs for individual participants. Investments of employee contributions and related Company contributions can be made into the various funds in accordance with each participant's election.

Fund balances that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010 are as follows:

4. FAIR VALUE MEASUREMENTS:

Financial Accounting Standards Board (FASB) provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common/collective trust: The fair value of the investments in the common/collective trust is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end. The significant investment strategies of the fund is as described in the financial statements provided by the fund. There are no restrictions on redemptions from this fund.

Mutual and money market funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010.

5. FORFEITURES:

Forfeitures amounted to \$4,763 and \$4,852 for the years ended December 31, 2011 and 2010, respectively. The balance in the forfeiture account available for administrative expenses or employer matching contributions was \$1,977 and \$1,324 at December 31, 2011 and 2010, respectively. Forfeitures of \$4,110 and \$5,951 were used to pay administrative expenses in 2011 and 2010, respectively.

6. INCOME TAX STATUS:

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. While the Company has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, each participant will become 100% vested in their account.

8. INFORMATION CERTIFIED BY THE TRUSTEE:

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified to the completeness and accuracy of all investments and notes receivable from participants as of December 31, 2011 and 2010, and the related investment and notes receivable activity for the years then ended.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

10. RELATED PARTY TRANSACTIONS:

Certain Plan investments are shares of money market, mutual funds and common/collective trusts issued by Fidelity Management Trust Company. Fidelity Management Trust Company is trustee of the Plan and these transactions qualify as party-in-interest transactions.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of the amounts reported in the financial statements as of and for the years ended December 31, 2011 and 2010 and those reported on the Form 5500:
