INDEPENDENT AUDITOR'S REPORT

To the Participants and Trustees of
Alpha Thought 401(k) Plan
Chicago, Illinois

We were engaged to audit the financial statements of Alpha Thought 401(k) Plan as of December 31, 2011 and 2010, and for the year ended December 31, 2011, and the supplemental schedule as of and for the year ended December 31, 2011 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Capital Bank and Trust Company, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian, as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have

been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Alpha Thought 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) provision covering all employees of Physician Support Systems, Inc. (the "Company"). The Plan and the Trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees of the Company who have reached 21 years of age and have completed six months of service are eligible to participate in salary deferrals and the discretionary profit sharing contributions of the Company on entrance dates consisting of the first day of each quarter.

Contributions

Each year, participants may contribute pre-tax compensation up to the lesser of the Federal Statutory limit or 100% of the participant's annual compensation, subject to certain limitations, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans (rollovers).

The Company, through an annual board of directors' resolution, may contribute to the Plan the following amounts: the total amount of the salary reduction a participant elected to defer, a discretionary matching contribution equal to a uniform percentage of the amount of salary reduction a participant elected to defer, which percentage is determined every year and a discretionary profit sharing contribution.

A participant must complete a year of service during the Plan year and be actively employed on the last day of the Plan year to share in the matching and profit sharing contributions, respectively. The Company did not make any matching or profit sharing contributions for the years ended December 31, 2011 and 2010, respectively.

NOTE 1. DESCRIPTION OF THE PLAN (continued)

Participants' Investment Options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Participants become 100% vested if employment is terminated due to death, disability or retirement.

Forfeitures

Non-vested portions of a terminated participant's account are retained in the Plan and used to reduce administrative expenses. If additional forfeitures remain after reducing administrative expenses, they can be used to reduce future Company contributions. There were no unallocated forfeitures at December 31, 2011 and 2010, respectively.

Payment of Benefits

Upon retirement, termination of service, disability or death, a participant or his/her beneficiary will receive a lump-sum payment equal to the value of the vested interest in his/her account. The Plan's provisions also provide for withdrawals in the event of financial hardship, as defined by the Plan.

NOTE 1. DESCRIPTION OF THE PLAN (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to or from the investment fund and from or to the participant's loan fund. Loan terms shall not exceed five years unless the loan is used to purchase a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The Plan is charging interest on the loans at rates between 4.25% and 9.75% at December 31, 2011. Principal and interest are paid through bi-weekly payroll deductions. The loans mature at various dates through June 2016.

NOTE 2. SUMMARY OF SIGNIFICANT ACOCUNITNG POLICIES

Basis of Accounting

The plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gain and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACOCUNITNG POLICIES (continued)

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits
Benefit payments are recorded when paid.

Administrative Fees
Substantially all of the expenses incurred in the administration of the Plan are charged to, and paid by, the Plan. The Plan administrator does absorb certain expenses of the Plan.

Date of Management's Review
The Plan has evaluated subsequent events through July 30, 2012, the date the financial statements were available to be issued.

NOTE 3. INCOME TAX STATUS

Application for an Internal Revenue Service Determination Letter for the Plan has not been made by the Company. However, because the Plan is an adoption, albeit a standardized adoption, of a prototype plan that is the subject of a favorable Determination Letter, the Plan Sponsor believes the Plan's design complies with applicable laws and regulations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability or asset if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 4. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Capital Bank and Trust Company as of December 31, 2011 and 2010, respectively, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedules as of December 31, 2011 and 2010, respectively.

The following table presents investments that were certified by Capital Bank and Trust Company and also investments representing 5% or more of the Plan's net assets at December 31, 2011.

NOTE 5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, Fair *Value Measurements and Disclosures*, provides framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5. FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Stable value trust (SVT): The SVT holds synthetic guaranteed investment contracts ("synthetic GICs"). Synthetic GICs are portfolios of securities (debt securities or units of collective trusts) owned by the SVT with wrap contracts associated with the portfolios. The value of debt securities and units of collective trusts are described below. The fair value of wrap contracts is determined by the Company based on the change in the present value of each contract's replacement cost and are categorized as Level 3 in the fair value hierarchy. Investment contracts have elements of risk due to lack of a secondary market and resale restrictions resulting in the inability of the SVT to sell a contract. In addition, investment contracts may be subject to credit risk based on the ability of the wrapper providers to meet their obligations under the terms of the contract (see Note 6).

The SVT may also invest in traditional guaranteed investment contracts ("traditional GICs"). GICs are backed by the general account of the issuer. The SVT deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals, as defined, will occur at contract value (principal plus accrued interest). GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. GICs are typically categorized as Level 3 in the fair value hierarchy.

NOTE 5. FAIR VALUE MEASUREMENTS (continued)

Short-term securities are stated at amortized cost (which approximates market value) if maturity is 60 days or less at the time of purchase, or at market value if maturity is greater than 60 days. To the extent the inputs are observable and timely, the values would be categorized as Level 2 in the fair value hierarchy.

Investments in units of affiliated and unaffiliated collective trusts are valued at the respective net asset values as reported by such Trusts, are typically categorized as Level 1 in the fair value hierarchy.

Debt securities are valued on the basis of valuations provided by an independent pricing service approved by the Company. If valuations are not available from such pricing services, valuations are obtained from dealers making a market for such securities. Most debt securities are categorized as Level 2 in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010, respectively.

December 31, 2011	Fair Value	Level 1	Level 2	Level 3

The following table sets forth a summary of changes in fair value of the plan's level 3 assets for the year ended December 31, 2011.

	Level 3
Balance, beginning of year	$ 9,043
Realized gains/(losses)	(68)
Purchases, sales, issuances, and settlements (net)	(8,437)
Balance, end of year	$ 538

The Plan's valuation methodology used to measure the fair values of Company stock and mutual funds was derived from quoted market prices, as these instruments have active markets. The valuation techniques used to measure fair value of common/collective trust funds are included in Note 6 and participant loans are included in Note 2.

NOTE 6. INVESTMENT IN STABLE VALUE TRUST

Invesco Stable Value Trust (the "Trust") is a collective trust fund in the Institutional Retirement Trust ("IRT"). IRT is a Collective Trust of Invesco National Trust Company for Participating Pensions and Profit Sharing Trusts, established by Invesco National Trust Company (the "Company"), for the investment and reinvestment of funds contributed by the Company in its capacity as a fiduciary for pension and profit sharing trusts. As of December 31, 2011, IRT consisted of twenty-one collective trusts. This note includes the Invesco Stable Value Trust. The remaining twenty collective trust funds are included in separate a report.

NOTE 6. INVESTMENT IN STABLE VALUE TRUST (continued)

The Trust's primary investment objectives are to provide preservation of principal, maintain a stable interest rate, and provide daily liquidity at contract value for participant withdrawals and transfers.

The Trust offers five classes of Units. The investment objectives of the Trust are identical among each class of Units. The Trust Class, Class II, Class III, Class IV units each declare income dividends daily and thereby maintain a net asset value of $1.00 per share. The Pentegra Class does not declare income dividends; rather, the Pentegra Class retains income earned and therefore has a variable net asset value per unit.

The Trust has met the requirements of ASC 946-210 (formerly, FASB Staff Position (FSP) No. AAG INV-a, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contributions Health and Welfare and Pension Plans*) and accounts for its investment contracts in accordance with ASC 946-210, which limits the circumstances in which the net assets of an investment company will be able to reflect the contract value of wrapper agreements and provides guidance with respect to the financial statement presentation and disclosure of fully benefit-responsive investment contracts.

The key factors that influence future interest crediting rates for a wrapper contract include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract
- The investment returns generated by the fixed income investments that back the wrapper contract
- The duration of the underlying fixed income investments backing the wrapper contract

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis according to each contract. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio.

Over time, the crediting rate formula amortizes the Trust's realized and unrealized market value gains and losses over the duration of the underlying investments.

NOTE 6. INVESTMENT IN STABLE VALUE TRUST (continued)

Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the Trust are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting difference between the market value of the underlying investments relative to the wrapper contract value is presented on the Trust's Schedule of Portfolio Investments and Statement of Assets and Liabilities as the "Adjustment from Fair Value to Contract Value". If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the wrapper contract value is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate. If the Adjustment from Fair Value to Contract value is negative, this indicates that the wrapper contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher.

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the plan, a material adverse change to the provisions of the plan, the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

While it is possible that some of the plans participating in the Trust may experience plan terminations or other events that would trigger fair value payouts under the Trust's wrapper agreements, based on prior experience, the Trust's management believes it is not probably that such events would be of sufficient magnitude to limit the ability of the Trust to transact at contract value with the participants in the Trust. Given that such events are beyond the control of the Trust, however, there can be no guarantee that this will be the case.

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the Plan's

NOTE 6. INVESTMENT IN STABLE VALUE TRUST (continued)

loss of its qualified status, material breaches of responsibilities which are not cured, or material and adverse changes to the provisions of the plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

Average yields	2011
Based on actual earnings	1.231%
Based on interest rate credited to participants	1.990%

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of American Funds mutual funds. Capital Bank and Trust Company acts as custodian for those investments as defined by the Plan. In addition, American Funds is considered a party-in-interest as defined by ERISA section 3(14)(G). These investments had total market values of $1,537,137 and $1,515,258 at December 31, 2011 and 2010, respectively. Transactions in such investments qualify as party-in-interest transactions which are allowable under Section 408(b)(8) of ERISA and the regulations promulgated thereunder.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements	$ 1,852,377	$ 1,787,780
Adjustment from contract value to fair value for fully benefit - responsive investment contracts	9,016	7,196
Net assets available for benefits per Form 5500	$ 1,861,393	$ 1,794,976

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2011:

Net (decrease) in net assets available for benefits per the financial statements	$ 64,597
Change in adjustment from contract value to fair value for fully benefit-responsive investment contracts	1,820
Net income/loss per Form 5500	$ 66,417
