NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of Paris Accessories, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The plan sponsor is Paris Accessories, Inc. (the "Company").

General:

The Plan is a defined contribution plan covering all eligible employees of the Company as defined, who are age 21 or older, except those covered by a collective bargaining agreement. An employee is eligible to participate in the Plan after completing one year of service. Entry dates are January 1, April 1, July 1 and October 1 of each plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2010, the Plan is authorized to extend individual participant loans to eligible plan participants who are actively employed by the employer and to former participants and beneficiaries who are "parties in interest" as determined under Section 3(14) of the Employee Retirement Income Security Act of 1974, upon their application and subject to the terms of the Plan. All participant loans shall be repaid through payroll deductions on an amortization schedule incorporating employer's payroll periods and shall be repaid over a period which may not exceed five years.

Contributions:

The Plan allows participants to defer a portion of their salaries for income tax purposes through contributions to the Plan. An employee may contribute on a pre-tax basis a percentage of the employee's annual salary limited to the maximum amount permitted under the Internal Revenue Code (the "Code"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participant may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of contributions into various investment funds offered by the Plan. The Plan currently offers a money market fund, a collective investment trust and various mutual funds as investment options for participants. The Company may make discretionary matching contributions ("Matching Contributions") equal to a percentage of employee deferrals to the Plan at the option of the plan administrator. There were no Matching Contributions made to the Plan for the year ended December 31, 2010. The Company, at its discretion may contribute additional Profit-Sharing contributions ("Profit-Sharing Contributions"). There was no Profit-Sharing Contributions made to the Plan for the year ended December 31, 2010.

Note 1 - Description of Plan (concluded):

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's Matching Contribution and Profit-Sharing Contribution is based on years of service. A participant is 100% vested in his or her account after five years of credited service. Notwithstanding the foregoing, a participant becomes fully vested in his or her Company discretionary contribution upon the earlier of: (i) retirement at age 65; (ii) total and permanent disability, (iii) age 65 while employed; and (iv) termination of employment by way of death.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loan is secured by the balance in the participant's account and bear interest at 4.25% which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits:

On termination of service due to disability, retirement or any other reasons, a participant with a vested account balance of more than $5,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or their investments will remain in the Plan. If a participant's vested balance is $5,000 or less, a lump-sum distribution equal to the value of the vested interest in his or her account will be made automatically within a reasonable amount of time after termination of service.

On termination of service due to death, the participant's beneficiary will receive within a reasonable amount of time, a lump-sum amount equal to the value of the participant's vested interest in his or her account or at the election of the beneficiary, in equal monthly, quarterly or annual payments over the life expectancy of the beneficiary.

Forfeitures:

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $561 and $-0-, respectively. There were no forfeited accounts allocated to participant accounts during the year ended December 31, 2010.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Significant accounting policies (concluded):

Administrative expenses:

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in net appreciation or depreciation in fair market value of such investments. Certain administrative expenses of the Plan are paid by the Company or from plan assets.

Payment of benefits:

Benefits are recorded when paid.

Reclassification:

Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

Subsequent events:

The Plan has evaluated subsequent events through October 17, 2011 which is the date the financial statements were available to be issued.

Note 3 - Investments (unaudited):

Investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2010 and 2009 are as follows:

	2010	2009
Wilmington Trust Retirement and Institutional Services Company Collective Investment Trust III for Metlife Group Annuity Contract at contract value (Note 4)	**$2,111,688**	$2,123,127

American Funds Growth Fund	**783,467**	668,915
Sentinal Funds Government Securities	**773,181**	714,349
T Rowe Price Funds Retirement 2020	**605,754**	507,942
Janus Perkins Mid Cap Value Fund	**415,390**	329,220
American Funds Europacific Growth Fund	**382,148**	**
Eaton Vance Large Cap Value	**376,558**	332,587

** This fund did not represent 5% or more of the Plan's net assets available for benefits as of December 31, 2009.

Note 4 - Collective investment trust:

The Plan invests in a collective investment trust that has a benefit-responsive investment contract with Metropolitan Life Insurance Company ("Metropolitan"). Metropolitan maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant

Note 4 - Collective investment trust (concluded):

withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the collective investment trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective investment trust. The collective investment trust is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Metropolitan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $2,160,489 and $2,138,688, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

The collective investment trust does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Based on actual earnings	**5.42%**	12.28%
Based on interest rate credited to participants	**3.13%**	3.23 %

NOTES TO FINANCIAL STATEMENTS

Note 5 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of termination the participants' accounts would become 100 percent vested in their Matching Contributions and Profit-Sharing Contributions.

Note 6 - Tax status:

The Plan obtained its latest determination letter on September 29, 2001 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and had concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 7 - Certification by the Trustee:

The following account balances and transactions were obtained from statements certified by the trustee of the Plan:

Statements of net assets available for benefits:
- Investments

Statement of changes in net assets available for benefits:
- Net appreciation in fair value of investments
- Interest and dividends

Schedule of assets (held at end of year)

Note 8 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Fair value measurements:

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (*ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for individual assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of the unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

Note 9 - Fair value measurements (concluded):

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Money market fund: Valued using amortized cost, which approximates fair value.

Mutual fund investments: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Collective investment trust: Valued based on quoted market prices of the underlying investments (Note 4).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes that its valuation methods are appropriate and consistent with those of other markets participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Note 10 - Nonexempt transactions:

As reported on the supplemental schedule of delinquent participant contributions (Schedule H, Line 4a), certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's Regulation 29 (CFR 2510.3-102), thus constituting nonexempt transactions between the Plan and the Company for the years ended December 31, 2010 and 2009. In October 2010 the Company began the process of correcting $105,530 of delinquent participant contributions for the years ended December 31, 2010 and 2009 in accordance with the Department of Labor's Voluntary Fiduciary Correction Program.
