We have been informed by the plan administrator that the asset custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the asset custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the asset custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Note 1 - Plan Description

The following brief description of the BBS Technologies 401(k) Profit Sharing Plan (the Plan) is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of BBS Technologies, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was adopted by the Company on January 1, 2002.

The Company serves as the plan administrator. Hartford Life Insurance Company (The Hartford) serves as the Plan's asset custodian and record keeper.

Eligibility

The Plan is provided for all eligible employees. Participation is available for all employees who are at least 21 years of age. The Plan includes a savings feature designed to permit the employee and the Company to contribute to the Plan, at amounts allowable under Section 401(k) of the Internal Revenue Code (IRC).

Contributions

Employee pre-tax and after-tax (Roth) contributions are made to the Plan by electing to contribute a portion of the employee's compensation, as defined, subject to the maximum limit allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

All eligible employees automatically begin deferring 1% of their compensation for each payroll period after beginning employment, unless an affirmative election not to contribute or to contribute at a different percentage is made by the employee. The contributions will be made on a pre-tax basis unless the employee affirmatively designates that any portion or all of the contributions be treated as Roth contributions.

The Company may elect to make matching contributions equal to a discretionary percentage, to be determined by the Company, of an employee's elective deferral. No matching contributions were made for the year ended December 31, 2011.

Participants direct the investment of their entire account into various investment options offered by the Plan. Each participant's account is credited daily with the participant's contributions, the Company's matching contributions, and actual earnings (losses) thereon, as applicable.

Vesting and Forfeitures

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their account is based on years of service. A participant is 0% vested through the first two years of service at which point they become 100% vested. Additionally, regardless of the vesting schedule, participants become fully vested upon death or total and permanent disability. At December 31, 2011 and 2010, forfeited non-vested amounts totaled $11 and $3,441, respectively. Forfeitures are first used to pay Plan expenses then to reduce future matching contributions.

Benefit Payments

Distributions may be made to participants upon termination of employment, death, disability or retirement. Withdrawals may be made by active participants upon attainment of age 59½ or due to financial hardship. All distributions from the Plan are in the form of a lump sum distribution. Upon withdrawal from the Plan or termination of employment, participants with an account balance of $1,000 or less shall receive an automatic lump sum distribution from the Plan. For participants with an account balance greater than $1,000 but less than $5,000, the plan administrator shall make a direct rollover into an individual retirement account. Withdrawals from the Plan may be subject to federal income tax on contributions and income earned.

Notes Receivable from Participants

Notes receivable from participants are loans to participants secured by the vested portion of their accounts. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The minimum loan is $1,000. Loans to participants are secured by their participant account balance as allowed by the Plan. Interest rates range from 3.25% to 4.25% and are based at prime plus 1% on the date of issuance. Principal and interest are repaid through payroll deductions. Loans are to be repaid within five years unless the purpose of the loan is to acquire a principal residence. A participant may only have one loan outstanding at any given time.

Note 2 - Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net depreciation in the fair value of pooled separate accounts includes realized gains and losses on investments sold during the year as well as appreciation and depreciation of investments held at the end of the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as the notes are collateralized by the participant's account balance. In general, notes receivable from participants are placed into default in the calendar quarter following the quarter in which no payment on the note is made and are recognized as distributions based upon the terms of the Plan document.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Loan fees and certain transactional charges are paid by the participants. All other administrative costs are paid by the Plan unless paid by the Company, at its discretion.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and may impact participants' account balances and the amounts reported in the financial statements.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through July 31, 2012, which is the date the financial statements were available to be issued.

Note 3 - Information Certified by the Asset Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from the asset custodian of the Plan that all of the information provided is complete and accurate. Information included in the accompanying financial statements and accompanying notes to financial statements as to investments, notes receivable from participants, investment income (loss), interest income on notes receivable from participants, and all the related information in the supplemental schedule of assets held (at end of year) is presented in reliance solely upon this certification.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements, supplemental schedule and accompanying notes.

Note 4 - Fair Value Measurements

The Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Accounts: These investments are valued at their net asset value (NAV) by the issuer based upon the fair value of the underlying investments when available, net of certain expenses.

The methods described above may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value measurements:

	December 31, 2011			
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobserv-able Inputs Level 3	Total

Pooled separate accounts:				
Fixed income fund (a)		$ 193,628		**$ 193,628**

Specialty funds (f)		45,988		**45,988**
Total investments at fair value		$ 3,119,235		**$ 3,119,235**

In accordance with the fair value measurements and disclosure guidance, the following information is provided for the pooled separate accounts that calculate NAV as of December 31, 2011 and 2010:

(a) The strategy of the fixed income fund is to seek maximum current income consistent with liquidity and preservation of capital. The fund normally invests exclusively in cash, cash equivalents, and debt securities.

(b) The strategy of the bond funds is to seek maximum total return, consistent with the preservation of capital. The funds typically invest at least 65% of assets in a portfolio of domestic and international investment grade fixed-income and inflation indexed securities of varying maturities.

(c) The strategy of the balanced funds is to seek high total return through capital appreciation and income. The funds normally invest at least 60% of assets in equity securities of domestic companies and foreign companies. The funds also normally invest in foreign stock and bonds, fixed income securities, and cash.

(d) The strategy of the equity funds is to seek high total return through capital appreciation. The funds typically invest at least 90% of assets in equity securities of medium and large cap domestic and foreign companies. The funds may also invest in domestic and foreign bonds, as well as cash.

(e) The strategy of the international funds is to seek long-term capital appreciation. The funds normally invest in equity securities of foreign companies including those in countries with emerging economies or securities markets. The funds seek exposure to markets that offer favorable growth and economic outlooks. The funds may also invest in debt instruments of foreign companies.

(f) The strategy of the specialty funds is to seek long-term capital appreciation. The funds normally invest at least 90% of net assets in equity securities of domestic and international science and technology companies and in companies that deal in natural resources. Types of natural resources include integrated energy, chemicals, steel, forest products, base and precious metals, coal and uranium, and agricultural products. The funds may also invest in domestic and foreign bonds, as well as cash.

The pooled separate accounts are valued on a daily basis and can generally be redeemed immediately at the stated NAV. As of December 31, 2011, there are no unfunded commitments.

Note 6 - Federal Income Tax

The Plan has not received a favorable determination letter from the Internal Revenue Service exempting it from federal income tax; however the prototype adopted by the Plan was accepted by the IRS on March 31, 2008. The Plan has been amended since March 31, 2008. The Company has identified certain operational discrepancies with respect to the Plan and intends to correct the discrepancies in accordance with the requirements of the IRC. The Company does not believe that these corrections are material to the overall financial statements. Aside from these operational discrepancies, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The prior three tax years are subject to income tax examinations by taxing authorities.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, all participants become 100% vested.

Note 8 - Party-in-Interest

Certain Plan investments are shares of pooled separate accounts managed by the asset custodian; therefore, the Plan's investment transactions in these funds qualify as party-in-interest transactions. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.

Note 9 - Nonexempt Party-in-interest Transactions

As disclosed on Schedule H, Line 4a - Schedule of Delinquent Participant Contributions, there were unintentional delays by the Company in submitting $6,573 of employee contributions relating to the 2011 plan year. The principal amount was remitted to the Plan on March 27, 2012. The Plan sponsor is in the process of remitting lost earnings relating to these unintentional delays.

Note 10 - Subsequent Events

The Company has changed its business name from BBS Technologies, Inc. to Idera, Inc. effective January 31, 2012. Effective April 1, 2012, Fidelity Management Trust Company replaced Hartford Life Insurance Company as the asset custodian. Along with the provider change, the Plan name changed from BBS Technologies 401(k) Profit Sharing Plan to Idera 401(k) Savings Plan.
