Independent Auditor's Report

To the Plan Administrative Committee
ActivIdentity, Inc. 401(k) Plan:

I was engaged to audit the financial statements and supplemental schedule of the ActivIdentity, Inc. 401(k) Plan (the "Plan") as of March 31, 2011 and December 31, 2010, and for the three months ended March 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. As further discussed in Notes A to the financial statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information referred to in Note 3, which was certified by Fidelity Management Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. I have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the custodians as of March 31, 2011 and December 31, 2010, and for the three months ended March 31, 2011, that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that I did not audit, I am unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations For Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by custodians, has been audited by me in accordance with auditing standards generally accepted in the United States of America and, and in my opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ActivIdentity, Inc. 401(k) Plan
Notes to the Financial Statements

1. DESCRIPTION OF PLAN

The following description of the ActivIdentity, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1997 as a defined contribution plan established to provide eligible employees of the ActivIdentity, Inc. (the "Plan Sponsor") with retirement, death and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and Section 401(k) of the Internal Revenue Code (the IRC).

Participant Eligibility, Contribution, and Vesting

The Plan is a defined contribution plan covering all eligible employees who have attained eighteen (18) years of age, and are not members of a collective bargaining agreement, or a non-resident alien. Participants may begin deferring a portion of their compensation into the Plan on the first day of employment. Contributions to the Plan are limited to the maximum amount allowable under the provisions of the IRC and to an annual limitation of $16,500 ($22,000 for those participants over age 49).

The Company is allowed to make discretionary matching and profit sharing contributions as defined in the Plan and as approved by the Board of Directors. No discretionary matching or profit sharing contributions have been made for the Period from January 31, 2011 to March 31, 2011 and for the year ended December 31, 2010.

Participant Loans

With the Plan trustee's approval, and subject to IRS regulations and limitations, participants may borrow up to the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Loans are subject to approval by the Plan administrator, bear interest at prevailing market rates of interest, and are generally repayable in terms of up to 5 years, except home mortgage loans for which the maximum maturity is 15 years. All loans are secured by the participants' account balances.

Participant Accounts

Each participant's account is credited with the employee's payroll contributions; the employer's matching, and Plan earnings and losses. Allocations to participants' accounts are based on participant compensation or account balances in accordance with the provisions of the Plan.

Investment Options

Participants exercise control over the types of investments made on their behalf, provided that such accounts are invested in investment funds designated by the Plan. Participants may invest in any one or more investment funds and change their investment options at any time.

Payment of Benefits

In the case of normal retirement (age 65), retirement due to permanent disability, or termination of employment, participants may elect to receive the value of their vested individual account balances, in accordance with the provisions of the Plan, either in lump-sum distribution or in an alternative manner available under the Plan.

Participants who separate from service and have vested account balances of $1,000 or less are subject to an administrative lump sum distribution at the discretion of the plan administrator. Mandatory distributions of separated participants' vested balances between $1,000 and $5,000 are subject to a direct rollover of their balance into an Individual Retirement Account (IRA) designated by the plan administrator in the name of the separated participant.

Administration

The Company is the plan administrator. The Plan's assets are managed by Fidelity Management Trust Company ("Trustee") from January 1 to March 31, 2011. The trustee, appointed by the Company, executes investment transactions and holds Plan investment assets. The plan administrator reviews the performance of the various available investments and decides on the addition or deletion of an investment fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Valuation of Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefits
Benefits are recorded when paid.

Participant Transaction Fees
The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, substantially all administrative expenses of the Plan are paid by the Company. Expenses relating to specific participant transactions such as loan setup, distribution request are charged directly against the appropriate participant's account.

3. INVESTMENTS

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by Fidelity Management Trust Company regarding the current value of assets held at March 31, 2011 and December 31, 2010, and transactions entered into during the year then ended, was used in the preparation of the accompanying financial statements and supplemental schedule.

	March 31, 2011	December 31, 2010
Cash and cash equivalents	$ -	$ 923,833
Mutual funds	-	4,031,657
Total investments	$ -	$ 4,955,490

During the three months ended March 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value by $212,347, as follows:

Interest and dividends	$ 11,114
Unrealized gains - mutual funds	201,233
Total	$ 212,347

Fidelity Management Trust Company has undergone an examination by other auditors of its internal controls relevant to the processing of transactions and safeguarding of assets as it pertains to its custodial duties. Such examination is designed in accordance with guidance contained in the American Institute of Certified Public Accountants Statements on Standards for Attestation Engagements (SSAE) 16, reporting on controls at a Service Organization. In its report dated December 2, 2011, the other auditors identified and tested internal controls that they believed would provide reasonable assurance that certain control objectives would be achieved. Inclusive of those tests and control objectives were contributions, distributions, and investment activity.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means • If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at March 31, 2011.

Cash and cash equivalents: Valued at the closing of March 31, 2011

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of March 31, 2011 and December 31, 2010:

	Assets at Fair Value as of March 31, 2011			
	Level 1	***Level 2***	***Level 3***	***Total***

	$ 4,955,490	$ -	$ -	$ 4,955,490

5. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee of the Plan, Fidelity Management Trust Company, and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA.

6. PLAN TERMINATION

In early 2011, the Company was acquired by ASSA ABLOY, Inc. Pursuant to that acquisition, the Plan was terminated and all assets transferred to the ASSA ABLOY, Inc. Retirement Savings Plan, effective March 31, 2011.

7. TAX STATUS

The plan adopted a non-standardized 401(k) profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the IRS on November 19, 2001, which states that the Plan is designed in compliance with the applicable sections of the IRC. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

8. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
