INDEPENDENT AUDITORS REPORT

To the Plan Administrator
of the MedTech Group, Inc.
401(k) Salaried Employees Retirement Savings Plan

We were engaged to audit the financial statements and supplementary schedule of The MedTech Group, Inc. 401(k) Salaried Employees Retirement Savings Plan (the "Plan") as of June 30, 2011 and 2010, and the related statement of changes in net assets available for benefits for the fiscal years then ended, and the supplementary Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of June 30, 2011. These financial statements and supplementary schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.130-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by PNC Advisors, the trustee of the Plan, except for comparing such information with the related information included in the 2011 financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the fiscal year ended June 30, 2011 and 2010, and that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary schedule taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplementary schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

General

The following description of The MedTech Group, Inc. 401(k) Salaried Employees Retirement Savings Plan (the Plan) is provided for general purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of The MedTech Group, Inc. (the Company). The Plan, established on September 1, 1986, and amended on January 1, 2009 is administered by a third party and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation

Employees become participants in the Plan at the beginning of the first month after completion of thirty days of service and upon reaching age 19. Participants are immediately vested in their contributions plus actual earnings thereon.

Forfeited Accounts

Upon termination from the Plan, participants will forfeit any non-vested portion of their account balance as of the termination date. Forfeitures are used to reduce Company matching contributions or to pay administrative expenses of the Plan. Forfeited non-vested amounts totaled \$15,686 and \$8,679 as of June 30, 2011 and 2010, respectively. Forfeited amounts remain in the Plan for the benefit of the other Plan Participants.

Participant Loans

The Plan provides for loans to participants which are repaid through payroll deductions. Loans (i) bear a reasonable rate of interest, (ii) must be adequately secured, (iii) are available to all participants on a uniform and nondiscriminatory basis, (iv) provide for repayment over a period not to exceed five years unless such loan is used to purchase a primary residence and (v) are limited to an amount not to exceed the lesser of \$50,000 or ½ of the participant's vested account balance. A loan will not be issued for an amount less than \$1,000. Participant loans are permitted in accordance with the employer's established loan procedures.

Contributions

Upon enrollment in the Plan, a participant may direct employee contributions in whole percentages of compensation or specific dollar amounts up to the maximum amount of employee compensation but cannot exceed annual permissible dollar limits. Participants may change their investment options at any time. The Company matches 25% of a participant's contribution which does not exceed 5% of compensation. In addition, the plan provided for discretionary contributions as determined by the board of directors. The discretionary contribution was 1% until August 2009 and then discontinued.

NOTES TO FINANCIAL STATEMENTS
June 30, 2011 and 2010

1. PLAN DESCRIPTION

Contributions (continued)

Participant accounts are credited with the participant's contributions and an allocation of Company contributions and plan earnings. Allocations are based on participant compensation and account balances.

Participants are entitled to the benefit that can be provided from the participant's vested account.

Notes Receivable

Under certain conditions, employees will be permitted to borrow from the plan. All loans will be made in accordance with the participant loan policy established by the loan administrator. Loans to participants are secured by the balance in the participant's account.

Vesting

All participants are fully vested in their voluntary contributions. Vesting in Company matching contributions is based on years of service with full vesting being attained after six years, or upon the attainment of age 59-1/2, whichever is earlier. Full vesting also occurs upon a participant's death or total disability. In the event the Plan is terminated, participants will become 100% vested in their accounts.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Uncertain Tax Positions

The Plan evaluates all significant tax positions as required by generally accepted accounting principles in the United States. As of June 30, 2011, the Plan does not believe that it has taken any tax positions that would require the recording of any additional tax liability nor does it believe that there are any unrealized tax benefits that would either increase or decrease within the next twelve months. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

NOTES TO FINANCIAL STATEMENTS
June 30, 2011 and 2010

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation

Investments are valued at fair market value, as estimated by the trustee based on quoted market values of the underlying assets at the Plan's year end.

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statement of Net Assets Available for Benefits. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Concentration of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk are part of the holdings in Plan's investments. Management believes that the Custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure to any particular investment.

Payment of Benefits

Benefits are recorded when paid.

Gains and Losses

The realized gain or loss on the sale of investments is the difference between the proceeds received and the average cost of the investments sold. Unrealized appreciation or depreciation in the aggregate fair value of investments represents the change in the difference between the fair value and cost of investments.

Realized gains and losses are computed on a current value basis for Form 5500. This difference may result in a differing classification between realized and unrealized gains and losses; total gain or loss will be unaffected.

Reclassifications

Certain amounts in the Plan year 2010 financial statements have been reclassified to conform to the Plan year 2011 presentation, with no effect on the net assets available for benefits.

Operating Expenses

All of the Plan's operating expenses are absorbed by the Company.

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

Subsequent events have been evaluated through August 21, 2012, the date which the financial statements were available for issue. During a review of the Plan's coverage and non-discrimination testing during 2012, it was determined that the Plan needed to be retroactively amended in order to provide additional allocations to certain non-highly compensated employees in order to pass IRS coverage testing requirements. In addition, it was determined that certain match and profit sharing contributions that had been paid into the Plan were inconsistent with the terms of the written plan document. During 2012, the Company intends to file an application under the Voluntary Compliance Program (VCP) to correct these defects. The Plan's administrator expects that the final outcome of the VCP will not have a material effect on the Plan's financial statements or any impact to the Plan's qualified tax status.

3. INVESTMENTS

Investments representing 5% or more of Plan assets are identified below. All investments are stated at fair value as determined by quoted market price.

	<u>2011</u>	<u>2010</u>

4. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB ASC 820 are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the Measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial Instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The table below segregates all financial assets and liabilities as of June 30, 2011 and 2010 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date:

		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs

5. CERTIFIED FINANCIAL DATA

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Company has accepted the certification of PNC Advisors, the trustee of the Plan, as to the accuracy and completeness of the investment information included in the accompanying financial statements and schedule and instructed the Plan's independent accountants not to perform any auditing procedures with respect to such information. Accordingly, the following information was certified by PNC Advisors as of and for the fiscal years ended June 30, 2011 and 2010. This information was not subjected to any auditing procedures except for comparing such information with the related information contained in the accompanying financial statements and schedule.

- Investments at fair value as of June 30, 2011 and 2010, which are included in the Statement of Net Assets Available for Benefits.
- Dividends and interest and net appreciation in fair value of investments for the fiscal years ended June 30, 2011 and 2010 which are included in the Statement of Changes in Net Assets Available for Benefits.

6. TAX STATUS

The Plan has not applied for a determination letter with the Internal Revenue Service (IRS). The Plan has adopted a prototype plan and the IRS stated that the prototype, as then designed, is in compliance with the applicable requirements of the Internal Revenue Code. The prototype plan opinion letter has been relied upon by the Plan. In the opinion of the plan administrator, the Plan and its underlying trust have operated within the terms of the Plan and remain qualified under the applicable provisions of the Code.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. TRANSACTIONS WITH PARTIES-IN-INTEREST

During the fiscal years ended June 30, 2011 and 2010, the Plan held units of participation in the funds PNC Advisors, the Plan Trustee. At June 30, 2011 and 2010, these investments had a total aggregate fair value of \$607,572 and \$535,369, respectively. For the fiscal years ended June 30, 2011 and 2010 all transactions with these funds are allowable party-in-interest transactions under Section 408(b) (8) if the ERISA regulations.

9. ADMINISTRATIVE COSTS AND TRANSACTIONS WITH PARTIES-IN-INTEREST

All expenses of administration may be paid out of the Plan unless paid by the Company. Fees paid by the Plan to the Plan administrator, associated with the administration of distributions were \$2,364 and \$11,562 for the fiscal years ended June 30, 2011 and 2010.

INDEPENDENT AUDITORS REPORT

To the Plan Administrator
of the MedTech Group, Inc.
401(k) Salaried Employees Retirement Savings Plan

We were engaged to audit the financial statements and supplementary schedule of The MedTech Group, Inc. 401(k) Salaried Employees Retirement Savings Plan (the "Plan") as of June 30, 2011 and 2010, and the related statement of changes in net assets available for benefits for the fiscal years then ended, and the supplementary Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of June 30, 2011. 1. PLAN DESCRIPTION

General

The following description of The MedTech Group, Inc. 401(k) Salaried Employees Retirement Savings Plan (the Plan) is provided for general purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of The MedTech Group, Inc. (the Company). The Plan, established on September 1, 1986, and amended on January 1, 2009 is administered by a third party and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation

Employees become participants in the Plan at the beginning of the first month after completion of thirty days of service and upon reaching age 19. Participants are immediately vested in their contributions plus actual earnings thereon.

Forfeited Accounts

Upon termination from the Plan, participants will forfeit any non-vested portion of their account balance as of the termination date. Forfeitures are used to reduce Company matching contributions or to pay administrative expenses of the Plan. Forfeited non-vested amounts totaled \$15,686 and \$8,679 as of June 30, 2011 and 2010, respectively. Forfeited amounts remain in the Plan for the benefit of the other Plan Participants.

Participant Loans

The Plan provides for loans to participants which are repaid through payroll deductions. Loans (i) bear a reasonable rate of interest, (ii) must be adequately secured, (iii) are available to all participants on a uniform and nondiscriminatory basis, (iv) provide for repayment over a period not to exceed five years unless such loan is used to purchase a primary residence and (v) are limited to an amount not to exceed the lesser of \$50,000 or ½ of the participant's vested account balance. A loan will not be issued for an amount less than \$1,000. Participant loans are permitted in accordance with the employer's established loan procedures.

Contributions

Upon enrollment in the Plan, a participant may direct employee contributions in whole percentages of compensation or specific dollar amounts up to the maximum amount of employee compensation but cannot exceed annual permissible dollar limits. Participants may change their investment options at any time. The Company matches 25% of a participant's contribution which does not exceed 5% of compensation. In addition, the plan provided for discretionary contributions as determined by the board of directors. The discretionary contribution was 1% until August 2009 and then discontinued.

1. PLAN DESCRIPTION

Contributions (continued)

Participant accounts are credited with the participant's contributions and an allocation of Company contributions and plan earnings. Allocations are based on participant compensation and account balances.

Participants are entitled to the benefit that can be provided from the participant's vested account.

Notes Receivable

Under certain conditions, employees will be permitted to borrow from the plan. All loans will be made in accordance with the participant loan policy established by the loan administrator. Loans to participants are secured by the balance in the participant's account.

Vesting

All participants are fully vested in their voluntary contributions. Vesting in Company matching contributions is based on years of service with full vesting being attained after six years, or upon the attainment of age 59-1/2, whichever is earlier. Full vesting also occurs upon a participant's death or total disability. In the event the Plan is terminated, participants will become 100% vested in their accounts.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Uncertain Tax Positions

The Plan evaluates all significant tax positions as required by generally accepted accounting principles in the United States. As of June 30, 2011, the Plan does not believe that it has taken any tax positions that would require the recording of any additional tax liability nor does it believe that there are any unrealized tax benefits that would either increase or decrease within the next twelve months. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation

Investments are valued at fair market value, as estimated by the trustee based on quoted market values of the underlying assets at the Plan's year end.

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statement of Net Assets Available for Benefits. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Concentration of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk are part of the holdings in Plan's investments. Management believes that the Custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure to any particular investment.

Payment of Benefits

Benefits are recorded when paid.

Gains and Losses

The realized gain or loss on the sale of investments is the difference between the proceeds received and the average cost of the investments sold. Unrealized appreciation or depreciation in the aggregate fair value of investments represents the change in the difference between the fair value and cost of investments.

Realized gains and losses are computed on a current value basis for Form 5500. This difference may result in a differing classification between realized and unrealized gains and losses; total gain or loss will be unaffected.

Reclassifications

Certain amounts in the Plan year 2010 financial statements have been reclassified to conform to the Plan year 2011 presentation, with no effect on the net assets available for benefits.

Operating Expenses

All of the Plan's operating expenses are absorbed by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

Subsequent events have been evaluated through August 21, 2012, the date which the financial statements were available for issue. During a review of the Plan's coverage and non-discrimination testing during 2012, it was determined that the Plan needed to be retroactively amended in order to provide additional allocations to certain non-highly compensated employees in order to pass IRS coverage testing requirements. In addition, it was determined that certain match and profit sharing contributions that had been paid into the Plan were inconsistent with the terms of the written plan document. During 2012, the Company intends to file an application under the Voluntary Compliance Program (VCP) to correct these defects. The Plan's administrator expects that the final outcome of the VCP will not have a material effect on the Plan's financial statements or any impact to the Plan's qualified tax status.

3. INVESTMENTS

Investments representing 5% or more of Plan assets are identified below. All investments are stated at fair value as determined by quoted market price.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB ASC 820 are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the Measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial Instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The table below segregates all financial assets and liabilities as of June 30, 2011 and 2010 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date:

Actual results could differ from those estimates.

Uncertain Tax Positions

The Plan evaluates all significant tax positions as required by generally accepted accounting principles in the United States. As of June 30, 2011, the Plan does not believe that it has taken any tax positions that would require the recording of any additional tax liability nor does it believe that there are any unrealized tax benefits that would either increase or decrease within the next twelve months. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation

Investments are valued at fair market value, as estimated by the trustee based on quoted market values of the underlying assets at the Plan's year end.

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statement of Net Assets Available for Benefits. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Concentration of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk are part of the holdings in Plan's investments. Management believes that the Custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure to any particular investment.

Payment of Benefits

Benefits are recorded when paid.

Gains and Losses

The realized gain or loss on the sale of investments is the difference between the proceeds received and the average cost of the investments sold. Unrealized appreciation or depreciation in the aggregate fair value of investments represents the change in the difference between the fair value and cost of investments.

Realized gains and losses are computed on a current value basis for Form 5500. This difference may result in a differing classification between realized and unrealized gains and losses; total gain or loss will be unaffected.

Reclassifications

Certain amounts in the Plan year 2010 financial statements have been reclassified to conform to the Plan year 2011 presentation, with no effect on the net assets available for benefits.

Operating Expenses

All of the Plan's operating expenses are absorbed by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

Subsequent events have been evaluated through August 21, 2012, the date which the financial statements were available for issue. During a review of the Plan's coverage and non-discrimination testing during 2012, it was determined that the Plan needed to be retroactively amended in order to provide additional allocations to certain non-highly compensated employees in order to pass IRS coverage testing requirements. In addition, it was determined that certain match and profit sharing contributions that had been paid into the Plan were inconsistent with the terms of the written plan document. During 2012, the Company intends to file an application under the Voluntary Compliance Program (VCP) to correct these defects. The Plan's administrator expects that the final outcome of the VCP will not have a material effect on the Plan's financial statements or any impact to the Plan's qualified tax status.

3. INVESTMENTS

4. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB ASC 820 are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the Measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial Instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The table below segregates all financial assets and liabilities as of June 30, 2011 and 2010 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date:

		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
