ARROW GEAR COMPANY
INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

(1) SUMMARY DESCRIPTION OF PLAN:

The following description of the Arrow Gear Company (the Company) Incentive Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The financial statements were available to be issued on August 9, 2012, with subsequent events being evaluated through this date.

General -

The Plan is a 401(k) plan covering all full-time, eligible employees of the Company who have completed 500 hours of service during any six-month period, are age twenty-one or older, and elect to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions -

Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes 25% of base compensation that a participant contributes to the Plan, up to $800 for union and non-union employees. Contributions are subject to certain limitations.

Participant Accounts -

Each participant shall have an income deferral contribution account and an employer contribution account. These accounts are credited with the participant's contribution and an allocation of a) the Employer's contribution and b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution is 100% vested after five years of continued service.

Investment Options -

Upon enrollment in the Plan, a participant may direct contributions in any of eighteen investment options. Participants may change their investment options at any time during the year.

(1) SUMMARY DESCRIPTION OF PLAN: (Continued)

Participant Notes Receivable -

Participants may borrow up to an amount equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms may not exceed five years, unless it is for the purchase of a primary residence, in which case it is 15 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Interest rates applicable to all outstanding loans are in the range of 4.0% to 9.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits -

On termination of service, a participant may elect to receive either a lump sum amount equal to the value of his/her vested account balance, or annual installments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and his designed beneficiary.

Reclassifications -

Certain amounts in the 2010 financial statements have been changed to conform to the current year presentation.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting -

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition -

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Plan at year end.

Payments of Benefits -

Benefits are recorded when paid.

Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(3) INVESTMENT CONTRACTS:

The Plan has a deposit contract with Principal Financial Group (Principal). Principal maintains the contributions in participant directed accounts. The accounts are credited with actual earnings on the underlying investments and charged for Plan withdrawals.

(4) INVESTMENTS:

Appreciation or depreciation in the market value of an investment held both at the beginning and end of the year is equal to the difference between the market value at the beginning and end of the year. Appreciation or depreciation in the market value of an investment acquired during the year and held at the end of the year is equal to the difference between the cost and the market value of the investment at the end of the year.

Gain or loss recognized from the disposition of an investment held at the beginning of the year is equal to the difference between the market value of the disposed asset at the beginning of the year and the proceeds from disposition. Gain or loss realized from the disposition of an investment acquired during the year is equal to the difference between the cost and the proceeds from disposition.

The Plan's investments were made up of participant accounts that were invested with Principal Trust Company. The following table presents the fair market value of those investments as of December 31, 2011 and 2010 that represents 5% or more of the Plan's net assets.

(5) FAIR VALUE MEASUREMENTS:

The Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1:

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2:

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3:

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed Investment Contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

(5) FAIR VALUE MEASUREMENTS: (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Level 3 Gains and Losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2011 and 2010:

	Level 3 Assets Guaranteed investment contracts

Balance, end of year	$ 3,280,859	$ 2,860,968

(6) INVESTMENT CONTRACT:

The Plan has a benefit-responsive investment contract with Principal Financial Group (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 was $3,280,859. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are revised on a quarterly basis for resetting.

(6) INVESTMENT CONTRACT: (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2011	2010
Average yields -		
Based on actual earnings	2.70%	2.90%
Based on interest rate credited to participants	2.70%	2.90%

(7) ADMINISTRATION COSTS:

The Employer has chosen to absorb certain costs of administering the Plan.

(8) PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account.

(9) TAX STATUS:

The Internal Revenue Service has determined and informed Arrow Gear Company by letter, dated May 22, 1995, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). A new determination letter was received on May 5, 1999. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(10) RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(11) PARTIES-IN-INTEREST:

Certain Plan investments are shares of mutual funds managed by Principal Financial Group. Principal Financial Group is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Participants covered under the Plan are considered to be parties-in-interest. Participant notes receivable in the amounts of $424,600 and $424,351 at December 31, 2011 and 2010, respectively, are considered to be party-in-interest investments.
