We were engaged to audit the accompanying Statements of Net Assets Available for Benefits of the Borrell Electric Co., Inc. 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011, the supplemental Form 5500, Schedule H, Line 4i - Schedule of Assets Held (at End of Year) as of December 31, 2011, and the supplemental Form 5500, Schedule G, Part I – Schedule of Loans of Fixed Income Obligations in Default or Classified as Uncollectible as of December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 3, which was certified by SunTrust Bank, N.A., the Plan trustee, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 – Description of plan

Plan Description - The Borrell Electric Co., Inc. 401(k) Plan (the "Plan") was established by Borrell Electric Co., Inc. (the "Company") as a defined contribution plan effective April 1, 1986 and has subsequently been amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following is a summary of major plan provisions. Participants should refer to the Plan document for more complete information.

Participation - All employees of the Company who have completed at least one year of service and have attained the age of twenty-one are eligible to participate. Participants who have completed 1,000 hours of service within the Plan year and who are employed by the Company on the last day of the year are eligible for discretionary employer matching contributions.

Plan Sponsor and Administrator - The Company serves as the Plan sponsor and administrator.

Contributions - The Plan provides for participant salary deferral contributions, and employer matching contributions pursuant to section 401(k) of the Internal Revenue Code ("IRC"). The Company may make a discretionary matching contribution not in excess of 3% of such participant's compensation. The employer matching contribution was 50% of the employee salary deferral contributions in 2011. The Company may also make a discretionary non-elective contribution allocated to participants as a uniform percentage of included compensation. The Company did not make a non-elective contribution for the year ended December 31, 2011.

Participant Accounts - Each participant's account is adjusted for distributions to the participant, participant's contributions, employer discretionary contributions, and Plan earnings, as well as a portion of the administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All participant accounts are maintained by the trustee of the Plan assets. Participants direct the allocation of their contributions among the investment funds allowed under the Plan.

Vesting - Participants are immediately vested in their salary deferral contributions and rollover contributions, plus actual earnings thereon. Vesting of employer matching and non-elective contributions plus actual earnings thereon are based on years of credited service. A participant is 100% vested after six years of credited service as follows:

Years of Service	**Vested Percentage**
Less than 2 years	0%
2 years, but less than 3 years	20%
3 years, but less than 4 years	40%
4 years, but less than 5 years	60%
5 years, but less than 6 years	80%
6 years or more	100%

Upon death, disability, or termination of the Plan, the employer discretionary matching and discretionary non-elective contributions become 100% vested.

Note 1 – Description of plan (Continued)

Forfeitures - At December 31, 2011 and 2010, forfeited non-vested accounts totaled $0 and $1,139, respectively. These accounts are used to reduce future employer contributions or pay Plan expenses. During 2011, forfeited non-vested accounts totaling $1,835 were used to pay Plan expenses.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The notes are secured by the balance in the participant's account and bear interest at local prevailing rates determined at the time the note is made. Principal and interest payments are paid ratably through payroll deductions over a period not to exceed fifteen years.

Notes receivable from participants are valued at cost, plus accrued interest. Notes receivable from participants deemed to be in default are recorded as deemed distributions. Total notes receivable from participants in default recorded as deemed distributions were approximately $32,753 for the year ended December 31, 2011, including accrued interest. Total notes receivable from participants deemed to be in default were approximately $73,485 and $39,393 as of December 31, 2011 and 2010 respectively.

Payment of Benefits - Upon termination, retirement, death, or disability, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a life annuity or annual installments paid over a ten-year period. For termination of service for other reasons, the participant may receive the value of the vested interest in his or her account as a lump-sum distribution or in the form of a direct transfer to an individual retirement account or any qualified plan described in Section 401(a) of the Internal Revenue Code.

Note 2 – Summary of significant accounting policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held in a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. The Plan invests in investment contracts through a common/collective investment trust. The Statement of Net Assets Available for Benefits presents the fair value of the interest in the common/collective investment trust as well as the adjustment of the interest in the common/collective investment trust from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investments, Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Note 2 – Summary of significant accounting policies (Continued)

Three levels of inputs may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and,

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds - These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/Collective Trusts - These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Money Market Funds - These investments are public investment vehicles valued using $1 for the NAV. The money market funds are classified within level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded when earned. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 – Summary of significant accounting policies (Continued)

New Accounting Pronouncements - In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance to improve disclosures regarding fair value measurements. This update, insofar as it relates to the year ended December 31, 2011, requires entities to present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. As this guidance is only disclosure related, it did not have any effect on the carrying value of the investments on the Statement of Net Assets Available for Benefits as of December 31, 2011.

Upcoming Accounting Pronouncements - In May 2011, the FASB issued guidance to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between generally accepted accounting principles in the United States ("GAAP") and International Financial Reporting Standards. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This guidance is effective for annual periods beginning after December 15, 2011 (the 2012 Plan year) and should be applied prospectively. Plan management is currently evaluating the impact of the pending adoption of this update on the Plan's financial statements.

Benefits Paid to Participants - Benefits are recorded when processed and paid by the Plan.

Accounting Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events - Management has evaluated subsequent events through August 21, 2012 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 3 – Information certified by the trustee (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustee, as complete and accurate, except for comparing such information to the information included in the Plan's financial statements and supplemental schedules.

	December 31,

Note 5 – Fully benefit-responsive contracts

The Plan invests in a common/collective trust contract that was determined to be fully benefit-responsive. As a result of the contract being fully benefit-responsive, the contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective trust. Contract value, as reported to the Plan by SunTrust Bank, N.A., represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, the common/collective investment trust is included in the financial statements at contract value as reported to the Plan by SunTrust Bank. There are no reserves against the common/collective investment trust for credit risk of the contract issuer or otherwise. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Average yields:	**2011**	**2010**
Based on actual earnings	1.19%	1.66%
Based on interest rate credited to participants	2.70%	2.83%

Note 6 – Plan termination

Although the Company intends the Plan to be permanent and continuing, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and accrued benefits must be distributed to the participants.

Note 7 – Income tax status

The Plan is identical to the SunTrust Bank Prototype Defined Contribution Plan ("SunTrust Prototype Plan") approved as to form by the Internal Revenue Service ("IRS"). The SunTrust Prototype Plan is a qualified plan under Section 401(k) of the IRC and, as such, is exempt from federal income taxes under Section 501(a) of the IRC. The SunTrust Prototype Plan obtained its latest determination letter dated August 26, 2002, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however the Plan's administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdiction; however, there are currently no audits for any tax periods in progress. Plan Management believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8 – Party-in-interest transactions

Administrative fees paid by the Plan during the year ended December 31, 2011 were based on customary and reasonable rates. Certain investments throughout the year were in trust funds managed by SunTrust Bank, N.A., the Plan's trustee. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. While these transactions qualify as party-in-interest activity, they are expressly exempted from the prohibited transaction rules (ERISA, Title I, Section 408(b)).

Note 9 – Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of Net Assets Available for Benefits per the financial statements to Schedule H of Form 5500 at December 31:

	2011	2010
Net assets available for benefits per the financial statements	$ 4,965,286	$ 5,419,080
Less: Current year employer contribution receivable	(71,146)	(76,859)
Plus Notes and accrued interest receivable from participants in default distributed for financial reporting; not deemed distributed on Form 5500	73,485	-
Plus: Accrual for participant excess contributions payable	1,203	10,477
Net assets available for benefits per Schedule H of Form 5500	$ 4,968,828	$ 5,352,698

Note 9 – Reconciliation of financial statements to Schedule H of Form 5500 (Continued)

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements to those amounts in Form 5500:

	Year ended December 31, 2011
Net decrease in Net Assets Available for Benefits per financial statements	$ (453,794)
Less: Current year employer contribution receivable	(71,146)
Add: Prior year employer contribution receivable	76,859
Add: Current year excess participant contributions payable	1,203
Less: Prior year excess participant contributions payable	(10,477)
Add: Participant loan interest related to deemed distributions	1,754
Add: Deemed distributions related to defaulted loans	71,732
	$ (383,869)

Note 10 – Bond coverage

Under ERISA, the Employer is required to maintain a fidelity bond covering the Plan assets. The required minimum bond coverage must be equal to the lesser of 10% of the Plans beginning net assets or $500,000. For the years ended December 31, 2011 and 2010, the Plan Sponsor's bond coverage did not meet this minimum bonding requirement.

Note 11 – Risks and uncertainties

The Plan provides for investment options in various funds. Investment securities are exposed to certain risks, such as interest rate, market and credit. Due to the level of risk associated with investment securities and the level of uncertainty related to the changes in their value, it is at least reasonably possible that changes in fair value in the near future could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.
