INDEPENDENT AUDITORS' REPORT

We were engaged to audit the accompanying statements of net assets available for benefits of the New Vision Medical Laboratories Retirement Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the years then ended and the supplemental schedule for the year ended December 31, 2011 as referenced in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank & Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NEW VISION MEDICAL LABORATORIES RETIREMENT PLAN

NOTES TO AUDITED FINANCIAL STATEMENTS

NOTE 1: PLAN DESCRIPTION

The following description of the New Vision Medical Laboratories (the Company) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan covering all employees of the Company who have one year of service and are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to defer from two to 100 percent of their pretax annual compensation, as defined in the Plan upon reaching the age of 18. Each year, the Company makes a discretionary contribution of two percent of eligible participants' wages and matches 100 percent of the first two percent of compensation of eligible participant elective deferrals. To be eligible for the Company matching contribution, participants must complete one year of service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution and (b) the allocations of the Company's discretionary and matching contributions and (c) the Plan's earnings and (d) is charged with an allocation of administrative expenses. Allocations are based on compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-Directed Investment Options

Upon enrollment in the Plan, a participant may direct contributions in five percent increments to any investment options available during the year. In addition to several different mutual funds, participants have the ability to direct contributions into a guaranteed investment contract.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. Participants vest ratably from year two to year six of credited service.

Notes Receivable From Participants

The Plan allows participants to apply for and obtain loans, limited to 50 percent of the participant's vested account balance not to exceed \$50,000, from the vested balance of the participant's account. All loans must be repaid within five years unless the loan is used to finance the participant's primary residence, in which case, the term of the loan is not to exceed ten years. Interest is charged at a rate equal to the prime rate plus two percent. Payments of principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, participants may elect to receive a distribution equal to the value of their vested interest in their account, or defer receipt of their account balance until age 70½. Furthermore, participants, upon a hardship (as defined by the Plan), may elect to withdraw a portion of their salary deferral (redirection) account.

NOTES TO AUDITED FINANCIAL STATEMENTS

NOTE 1: PLAN DESCRIPTION (CONTINUED)

Forfeited Amounts

Any discretionary and matching contributions forfeited by participants who terminate employment prior to becoming fully vested are used in the following sequence, (a) to restore participant accounts, (b) to offset plan expenses and (c) to reduce future employer contributions. For the years ended December 31, 2011 and 2010, unallocated forfeited non-vested accounts were \$27,315 and \$24,540, respectively. For 2011 and 2010, forfeitures in the amount of \$3,871 and \$632 were used to reduce employer contributions, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Presentation

The accompanying financial statements have been presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits as of the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses, such as trustee fees, are paid by the Plan. Additionally, the Company provides administrative services at no cost to the Plan.

Subsequent Events

Subsequent events have been evaluated through August 14, 2012, which is the date the financial statements were available to be issued.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following is a summary of the plan's assets information as of December 31, 2011 and 2010 and for the years then ended, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations of Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

NOTE 5: FAIR VALUE MEASUREMENT

Generally accepted accounting principles include a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Pooled separate accounts: Valued at unit price as determined by the custodian at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

NOTE 6: RELATED PARTY OF PARTY IN INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. During 2011 and 2010 the Plan paid administrative fees of \$100 and \$4,302 to Diversified Investment Advisors, the record keeper of the Plan.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA, as amended. In the event of Plan termination, all participants will become 100 percent vested in their accounts.

NEW VISION MEDICAL LABORATORIES RETIREMENT PLAN

NOTES TO AUDITED FINANCIAL STATEMENTS

NOTE 8: TAX STATUS

Effective December 7, 2000, the Plan adopted a non-standardized form of a prototype plan sponsored by Diversified Investment Advisors, Inc. The Internal Revenue Service has determined and informed the company by an opinion letter dated March 31, 2008, that the prototype plan is qualified and the trust established under the prototype plan is tax-exempt, under the appropriate sections of the code. The plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds, a pooled separate account and a guaranteed investment contract. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the inherent level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits and participant's individual account balances.
