Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Participants and Benefits Administrative Committee of the
Basell Pension Plan

We were engaged to audit the financial statements and supplemental schedule of Basell Pension Plan (the "Plan") at December 31, 2011 and December 31, 2010 and for the years then ended, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Bank of New York Mellon the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and December 31, 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

BASELL PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS

1. Description of Plan

General – The Basell Pension Plan (“Plan”) is a noncontributory defined benefit pension plan covering substantially all employees of Equistar Chemicals, LP (“Equistar” or “Company”) who were employees of Basell USA, Inc. located at Lake Charles, Louisiana as of April 30, 2006, and who were represented by a union where such union bargained in good faith to be covered under the Plan. Equistar is a wholly owned subsidiary of Lyondell Chemical Company (“Lyondell”). Effective May 1, 2006, the Plan was closed to new hires. Prior to January 1, 2010, the Plan was sponsored by Basell North America Inc. (“Basell”). Effective January 1, 2010, active participants in the Plan became employees of Equistar, and Equistar assumed sponsorship of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Participants should refer to the Plan document for a complete description of the Plan provisions.

On January 6, 2009, Equistar, Lyondell and Basell filed voluntary petitions for relief under chapter 11 (“chapter 11”) of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court. The Plan of Reorganization provided that Basell would continue to maintain the Plan. On April 30, 2010, Equistar and Lyondell emerged from chapter 11 proceedings, and in conjunction with the emergence, Basell USA, Inc. merged into Equistar.

Pension Benefits – Participants are entitled to a normal retirement pension upon retirement on or after age 65. A reduced early retirement pension is available if a participant retires after reaching age 50 with at least ten years of credited service. An unreduced early retirement pension is available if a participant retires after reaching age 55 and satisfies certain minimum credited service requirements (that depend on age at retirement). If a participant terminates employment with five years of service but prior to eligibility for normal or early retirement, the participant is entitled to a deferred vested pension commencing as early as age 50, subject to actuarial reduction for early commencement. Participants receive their accumulated plan benefits as a monthly benefit or in an actuarially equivalent optional form available under the Plan.

Death and Disability Benefits – An active participant who becomes eligible for an early or normal retirement pension benefit may elect to provide a benefit to a designated beneficiary if the participant dies prior to retirement. The beneficiary’s benefit shall be computed based on the participant’s service and earnings accrued to the date of death and then reduced in accordance with Plan provisions based on the payment option elected. However, if a participant is married at the time of death, is vested in his or her benefit, and dies prior to commencement of his or her benefit, then the preretirement death benefit will be payable to the participant’s spouse in the form of a qualified preretirement survivor annuity unless waived by the participant with spousal consent. Other death benefits are described fully in the Plan document.

If disabled, a participant who has completed ten years of credited service is eligible for a disability pension. A disability retirement benefit is generally computed as a normal retirement benefit, subject to continuance of the disability and other Plan provisions.

Contributions – All contributions are made by the Company and participant contributions are not permitted under the terms of the Plan.

BASELL PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

Administration – The Plan is administered by the Benefits Administrative Committee (“BAC”). Mercer is the Plan’s recordkeeper and actuary. Plan assets are maintained in the Lyondell Chemical Company Retirement Master Trust (“Master Trust”) under the custody of The Bank of New York Mellon (“Trustee”). Management of portfolio assets is directed by external investment managers hired and monitored by the Benefits Finance Committee (“BFC”). Both the BAC and BFC consist of individuals appointed by the Lyondell Board of Directors.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with Generally Accepted Accounting Principles in the United States of America (“GAAP”).

New Accounting Standards – In May 2011, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS* (International Financial Reporting Standards). ASU 2011-4 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. This guidance also enhances disclosure requirements for recurring Level 3 fair value measurements to include quantitative information about unobservable inputs used, a description of the valuation processes used by the Plan, and a qualitative discussion about the sensitivity of the measurements. The amendments are of two types: (i) those that clarify the FASB’s intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The Company does not expect the adoption of this update will have a material impact on the Plan’s financial statements.

Recently Adopted Guidance – In January 2010, the FASB issued additional guidance on improving disclosure regarding fair value measurements. ASU 2010-06 amends Accounting Standards Codification (“ASC”) 820-10, *Fair Value Measurements and Disclosures*. This update requires entities to disclose the amounts of significant transfers between Level 1 and Level 2 of the fair value hierarchy and the reasons for these transfers, as well as their reasons for any transfer in or out of Level 3. The guidance also requires separate disclosure of information about purchases, sales, issuances, and settlements in the reconciliation of recurring Level 3 measurements on a gross basis. The Company has adopted all of the amendments regarding fair value measurements. These disclosures did not have a material impact on the Plan’s financial statements.

Use of Estimates – The preparation of the Plan’s financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements and the changes in net assets available for benefits and changes in accumulated plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – A separate account for the Plan is maintained by the Master Trust reflecting the Plan’s share of the Master Trust. Interest in the Master Trust is determined on a monthly basis and is based upon the beginning of the month value of the Plan’s interest in the Master Trust plus actual contributions and allocated investment (loss) income, less actual distributions and an allocation of administrative expenses. Investments of the Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

From time to time the Master Trust's investment managers may use derivative financial instruments including forward exchange contracts and future contracts. Derivative instruments are used primarily to mitigate exposure to foreign exchange rate and interest rate fluctuations as well as manage the investment mix in the portfolio. The Master Trust's interest in funds which utilize such financial instruments is not considered significant to the Plan's financial statements.

Purchases and sales of securities by the Master Trust are accounted for on the trade date basis (the date the order to buy or sell is originated). Gains or losses on the sale or distribution of securities are computed on a first-in, first-out basis. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. The net appreciation or depreciation in the fair value of investments, which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments, is included in "Investment income from the Lyondell Chemical Company Retirement Master Trust" in the Statements of Changes in Net Assets Available for Benefits.

Interest and dividends earned, net appreciation or depreciation in the fair value of investments, and expenses incurred under the collective investment accounts of the Master Trust are allocated to the Plan based upon the average monthly investment balance in the Master Trust of each plan participating in the trust.

At December 31, 2011 and 2010, the Plan has an investment in the Metropolitan Life Insurance Company Investment Group Annuity Contract ("GIC") with Metropolitan Life Insurance Company (the "Custodian") of \$4,182,386 and \$4,524,437, respectively. The Company has calculated the fair value measurement of the GIC as discussed in Note 10.

Risks and Uncertainties - The Master Trust invests in a combination of common and preferred stock, fixed income securities, bank common and commingled funds, short-term investments, open ended real estate funds, hedge funds, convertible securities, U.S. government securities, and cash and cash equivalents. Investment securities and the GIC are exposed to various risks, such as market and credit risks. Changes in the values of investment securities will continue to occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants – Benefit payments to participants are recorded upon distribution and are paid by the Master Trust.

Administrative Expenses – Certain administrative expenses are paid by the Plan and the Plan sponsor. See Note 12 for discussion of related-party transactions.

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service that employees have rendered, as of the beginning of the plan year. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits earned and accrued under the Plan are based upon the employee's years of service and average monthly eligible earnings for the highest five consecutive calendar years during the employee's last ten years of service. Benefits payable under all circumstances, including retirement, death, disability, and termination of employment, are included to the extent that the circumstances are deemed attributable to employee service rendered up to the valuation date.

The 2010 actuarial present value of accumulated plan benefits was determined by the Plan's actuary, Mercer. The actuarial method used to determine the present value of accumulated plan benefits is the projected unit credit actuarial cost method. The more significant assumptions underlying the actuarial valuation are as follows:

	December 31, 2010
Investment return	8.0% per year
Interest rate	8.0% per year
Mortality table	RP-2000 Combined healthy mortality table for males and females with no collar adjustment, projected to 2017
Assumed average retirement age	63 years of age

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based upon certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Funding Policy

The funding policy of the Company is to satisfy legal minimum funding requirements, as determined under the standard unit credit method, as adopted January 1, 2008, under the Pension Protection Act of 2006 ("PPA"), with the discretion to make additional contributions from time to time. Fluctuations in the return (interest, dividends, and net appreciation or depreciation in fair value) on investments of the Plan from the assumed rate serve to reduce or increase the future contributions required to provide for the benefits defined under the Plan.

Contributions for the years ended December 31, 2011 and 2010 were \$21,088,932 and \$970,000, respectively, and, as determined by the Plan's actuaries, met the minimum funding requirements under ERISA and the Internal Revenue Code of 1986 (the "Code"), each as amended by the PPA.

5. Plan Termination

Although it has not expressed any intention to do so, Equistar has the right, under the terms of the Plan document, to discontinue its contributions at any time and to terminate the Plan, subject to the applicable provisions of ERISA and the Code.

Participants' retirement allowances under the Plan are insured to the extent required by law through the Pension Benefit Guaranty Corporation ("PBGC"). If the Plan were to be terminated, priorities of payment of benefits would be made in accordance with the requirements of ERISA and the Code.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

6. Reconciliation of the Plan Financial Statements to Schedule H of Form 5500

The following is a reconciliation of the Plan's net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Schedule H of Form 5500:

7. Tax Status

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan administrator has analyzed the tax positions of the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The statute of limitations for collecting income taxes from the Plan is closed for the years prior to 2008.

The IRS issued a determination letter dated February 10, 2012, stating that the Plan and related Master Trust are designed in accordance with applicable sections of the Code. The BAC believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Accordingly, no provision is made for federal income taxes.

8. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and schedule are complete and accurate:

- Plan interest in the Master Trust, at fair value
- Plan interest in the GIC, at contract value
- Investment income from the Master Trust
- The Supplemental Schedule of Assets (Held at End of Year) as of December 31, 2011
- Investment amounts as shown in Note 9, Note 10 and Note 11, except for the following amounts which were not certified by the Trustee:
 - Adjustment from contract value to fair value of the Plan interest in the GIC as shown in Note 10
 - Total investment in the GIC, at fair value as shown in Note 10
 - Net depreciation in the Plan interest in the GIC as shown in Note 10
 - Fair value of the Plan interest in the GIC as shown in the fair value hierarchy tables in Note 11
 - Summary of changes in fair value of the Plan Only GIC as shown in the Level 3 reconciliation table in Note 11
 - Non-monetary information included in the Net Asset Value per Share table as shown in Note 11

9. Interest in Lyondell Chemical Company Retirement Master Trust

The Master Trust is a pooled investment trust composed of the beneficial interests of certain participating defined benefit plans (“Master Trust Plans”) of Lyondell and certain of its subsidiaries and affiliates. The Master Trust consists of a portfolio of investments in a combination of common and preferred stock, fixed income securities, bank common and commingled funds, short-term investments, open ended real estate funds, hedge funds, convertible securities, U.S. government securities, and cash and cash equivalents.

Master Trust Plans do not own specific securities or other assets in the Master Trust but have an undivided interest in the Master Trust. The Plan’s undivided interest in the investment holdings of the Master Trust, consisting of total investments, receivables from sales of securities, accrued interest, dividends and payables from purchases of securities, and other payables and receivables, was approximately 4% at both December 31, 2011 and 2010. Investment (loss) income related to the Master Trust is allocated to the Master Trust Plans based upon each plan’s average monthly investment balance in the Master Trust.

10. Guaranteed Investment Group Annuity Contract

The Plan records the GIC at fair market value in accordance with ASC 960, *Reporting by Defined Benefit Pension Plans of Investment Contracts*. The contract value of the GIC was certified as complete and accurate by the Trustee. The fair market value was calculated by the Company and the net assets of the GIC are accounted for separately from the investments of the Master Trust.

The following represents a reconciliation of the amounts certified by the Trustee to amounts reported in the financial statements:

11. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with ASC 820, fair value measurements are classified using the following hierarchy:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

BASELL PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. In some cases where market prices are not available, observable market based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally-developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Valuation methodologies used for major investment types measured at fair value include:

Common and preferred stock – Valued at the closing price reported on the active market on which the individual securities are traded.

Fixed income securities – Certain securities are valued at the closing price reported on the active market on which the individual securities are traded. Other securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Commingled funds – Valued based upon the unit values of such collective trust funds held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from, or corroborated by, observable market data by correlation or other means.

Short-term investments – Valued at the quoted prices for similar assets or liabilities in active markets.

Real estate – Valued on the basis of a discounted cash flow approach, which includes the future rental receipts, expenses, and residual values as the highest and best use of the real estate from a market participant view as rental property.

Hedge funds – Valued based upon the unit values of such alternative investments held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund.

Convertible securities – Valued at the quoted prices for similar assets or liabilities in active markets.

U.S. government securities – Certain securities are valued at the closing price reported on the active market on which the individual securities are traded. Other securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Cash and cash equivalents – Valued at the quoted prices for similar assets or liabilities in active markets.

Guaranteed investment group annuity contract – The GIC is reported at fair value as calculated by the Company. The market value of the GIC is estimated as the present value of its future expected cash flows, discounted at an appropriate interest rate.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

12. Related-Party Transactions

The Plan, through its interest in the Master Trust, holds shares of short-term investment and S&P Index funds managed by Mellon Capital, a subsidiary of Bank of New York Mellon, the Trustee of the Plan. The Plan also invests in an insurance contract that was entered into between a subsidiary of Lyondell and Metropolitan Life Insurance Company, the Custodian. These transactions fall under the definition of a party-in-interest transaction; however, the Company does not believe that they give rise to prohibited transactions under ERISA. Fees paid by the Company on behalf of the Plan for certain administrative costs were approximately \$38,617 in 2011. The Company has reviewed the administrative costs paid by the Company on behalf of the Plan during 2010 and such costs were not considered material to the Plan's financial statements.

13. Commitments and Contingencies

The Plan is subject to commitments and contingencies arising from the ordinary course of business to which the Plan is a party. It is management's belief that the ultimate resolution of these commitments and contingencies will not have a material adverse impact on the Plan's financial statements.

14. Subsequent Events

The Company has evaluated subsequent events through August 7, 2012, the date the financial statements were available to be issued.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods – effective January 1, 2009**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value of assets that is greater than market value.

Participant methods – effective January 1, 2009

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods – effective January 1, 2009

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation and/or benefit increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation and/or benefit that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount".

Schedule SB, Line 4 — Additional Information for Plans in At-Risk Status

At-risk assumptions

- Special retirement rates Active and deferred participants who are eligible for immediate retirement and withdrawal benefits in the first 11 plan years are assumed to 100% retire in the first year of eligibility following the valuation year.
- Most valuable form of payment Participants who have not yet commenced benefits are assumed to take a single life annuity.

Schedule SB, Part V — Summary of Plan Provisions

Effective date and plan year	November 1, 1983. Last amended effective January 1, 2010.	
Status of the plan	The plan is closed to new entrants effective May 1, 2006.	
Significant events that occurred during the year	None.	
Definitions		
▪ Vesting service	At least six months of earnings are required for one year of vesting service. Prior service under Hercules Incorporated Pension Plan is included.	
▪ Credited service	A participant's period of service in years and months in which a participant accrues earnings. The total months of credited service divided by 12 shall be the years of credited service, even if the months of credited service have not been consecutive. Prior service under Hercules Incorporated Pension Plan is included.	
▪ Final average earnings	Average monthly earnings for the highest five consecutive years during the last ten years of service.	
▪ Social Security earnings base	One twelfth of the compensation as used under the Social Security Act to calculate a maximum unreduced primary Social Security benefit in the year of the earlier of: the effective date of retirement or termination and age 65.	
Normal retirement		
▪ Eligibility	Age 65 and 5 years of credited service.	
▪ Benefit	1.15% of final average earnings up to the Social Security Earnings Base plus 1.35% of final average earnings in excess of such earnings base multiplied by years of credited service.	
Early retirement		
▪ Unreduced early retirement	Eligibility for unreduced retirement benefit is as follows:	
	<u>Age</u>	<u>Credited service</u>
	55	35
	56	32
	57	29
	58	26

	63	14
	64	12

Schedule SB, Part V — Summary of Plan Provisions

▪ Eligibility	Age 50 and 10 years of credited service.	
▪ Benefit	Monthly benefit is equal to the accrued normal retirement benefit payable at age 65, actuarially reduced as described in the Plan for each month preceding the date the participant would be eligible for unreduced early retirement benefits.	
Deferred vested		
▪ Eligibility	5 years of vesting service.	
▪ Benefit	As described under normal retirement benefit above based on credited service and earnings at termination. A participant may elect to receive payment of a vested benefit as early as age 50. The benefit that would have been payable at age 65 will be actuarially reduced as described in the Plan.	
Disability		
▪ Eligibility	10 years of service.	
▪ Benefit	For employees receiving Social Security disability benefits, benefit as described in under normal retirement benefit. For employees who fail to qualify or fail to remain qualified for Social Security disability benefit, 1.15% of final average earnings multiplied by years of service or any other pension under this plan.	
Pre-retirement death		
▪ Eligibility	Beneficiaries of participants who are vested and actively employed or who are vested terminated participants and who have elected this coverage.	
▪ Benefit prior to early retirement	Vested terminated participants (50% contingent annuity option only):	
	Age at coverage	Charge per year coverage
	Up to age 44	0.1% per year
	Age 45 to 50	0.25% per year
	Age 50 and over	0.5% per year

Schedule SB, Part V — Summary of Plan Provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Fifth Amendment to the Basell Pension Plan, signed on December 22, 2009, are included in this valuation.

- **Plan amendments excluded:** No amendments were excluded from this valuation.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement. The plan distributes benefits to active participants who work beyond age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase. The Plan distributes benefits to all deferred vested participants upon attaining age 65.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
