(1) Description of plan

The following description of the KB Electronics, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of KB Electronics, Inc. (the "Company") who have at least one year of service, are age twenty-one or older, and are not excluded by certain provisions outlined in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Participants may contribute up to 100% of qualified compensation, as defined in the plan document, without exceeding the maximum permissible amount allowed by the Internal Revenue Code (the "Code"). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the plan document.

The Company may make discretionary matching contributions. During the years ended December 31, 2011 and 2010, the Company made matching contributions in the amount of 25% of each participant's elected deferral not to exceed 3% of the participant's eligible compensation. Additionally, the Company may make discretionary non-elective contributions to the Plan. Allocations of the Company's discretionary non-elective contributions are based upon a participant's compensation as it relates to all eligible participants' compensation. During the years ended December 31, 2011 and 2010, the Company did not make any discretionary non-elective contributions to the Plan.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective trust fund as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contributions, matching contributions, an allocation of the Company's discretionary non-elective contributions (if any), plus earnings or losses on all contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting - Participants are immediately vested in their own contributions plus actual earnings thereon. Company contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(1) Description of plan (continued)

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at the available market financing rates and must be repaid to the Plan within a three to five-year period, unless used for the purchase of a primary residence, for which the repayment period may extend up to fifteen years. Principal and interest are paid ratably through payroll deductions. The specific terms and conditions of these notes are established by the plan administrator.

Payment of benefits - On termination of service due to death, disability, or upon reaching normal retirement age as defined in the plan document, participants with a vested interest in their account in excess of $5,000 may elect to receive payments of their benefits either in the form of a lump sum payment or in annual installments. Participants with a vested interest in their account of less than $5,000, and/or payments of benefits for other reasons will be distributed in a lump sum payment.

Forfeited accounts - Forfeited nonvested accounts totaled $0 at December 31, 2011 and 2010. Balances in these accounts derived from the Company's matching contributions are used to reduce future Company matching contributions. Balances in these accounts derived from the Company's discretionary non-elective contributions are allocated to remaining participants as an additional discretionary non-elective contribution. During 2011 and 2010, employer matching contributions were reduced by $1,911 and $2,619, respectively, from forfeited nonvested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits are prepared on a contract value basis.

New accounting pronouncements - The following new accounting pronouncements were adopted during the year ended December 31, 2011:

Fair value disclosures - In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance which expanded the required disclosures about fair value measurements. This guidance requires information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value

New accounting pronouncements (continued)

measurements and is effective for fiscal years beginning after December 15, 2010. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

Fair value measurements - In May 2011, the FASB issued guidance which amends Accounting Standards Codification ("ASC") 820. This guidance requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, it provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The guidance requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Unit values - Individual participant accounts for the collective trust fund are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the fund, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

(2) Summary of significant accounting policies (continued)

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits (see Note 6).

(4) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(4) Information prepared and certified by the trustee (continued)

Accordingly, SunTrust Bank ("SunTrust"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

(5) Fair value measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Collective trust fund: Valued at estimated fair value as determined by the issuer of the collective trust fund based on fair market value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

	Investments at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

(5) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Investments at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

Total investments at fair value	$ 3,457,116	$ 61,365	$ -	$ 3,518,481

(6) Party-in-interest transactions

Certain Plan investments are in funds managed by SunTrust. SunTrust is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid to SunTrust by the Plan for investment management and recordkeeping services totaled $1,351 and $1,274 for the years ended December 31, 2011 and 2010, respectively.

(7) Net asset value (“NAV”) per share

In accordance with Accounting Standards Update (“ASU”) No. 2009-12, the Plan expanded its disclosures to include the category, fair value, unfunded commitments, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of December 31, 2011 and 2010.

The following table for December 31, 2011 and 2010 sets forth a summary of the Plan’s investment with a reported NAV.

	Fair Value* 12/31/2011	Fair Value* 12/31/2010	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust fund	$ 75,265	$ 61,365	$ -	Daily	None

* Fair value has been estimated using the net asset value of the investment.

(7) Net asset value ("NAV") per share (continued)

Certain events may result in a value less than NAV per share. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options of deletion or equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the master trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at NAV value with participants, is probable.

(8) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company's contributions.

(9) Tax status

The Internal Revenue Service has issued an opinion letter dated March 31, 2008, stating that the prototype plan adopted by the Plan's management is designed in accordance with applicable sections of the Code. Although the Plan has been amended since the date of this letter and has not received its own determination letter, the Plan's management believes that the Plan is currently being operated in compliance with all applicable requirements of the Code.

Accounting principles generally accepted in the United States of America requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(10) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) Subsequent events

The Plan has evaluated subsequent events through August 8, 2012, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
