B. Contributions

Each year, participants may contribute up to a specified percentage of pretax annual compensation, as defined in the Plan by each Company. Participants who have attained age 50 before the end of the Plan year are eligible to make catchup contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds investment options for participants. Additional profit-sharing amounts may be contributed at the option of each Company's board of directors and are invested according to the participant's direction. Contributions are subject to certain limitations. Participant contributions may by matched by their respective employer if such Company has elected a matching provision.

C. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if applicable) and (b) the Plan's earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1: DESCRIPTION OF PLAN (continued)

D. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Participants become vested in matching and discretionary contributions according to provisions defined by each member Company.

E. Notes Receivable from Participants

A participant may receive a loan based on a loan program set forth by the Plan. The minimum loan is $1,000 and the maximum is $50,000, not to exceed 50% of the participant's vested account balance. Loans are repaid through payroll deductions over a maximum of five years. A participant can have only one loan outstanding. Current loans bear interest at rates between 1.00% and 9.25%.

F. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

G. Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $3,857 and $2,695, respectively. These accounts may be used to reduce future employer contributions or pay plan expenses.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

A. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

B. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

C. Payment of Benefits

Benefits are recorded when paid.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (continued)

D. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

E. Subsequent Events

For the year ended December 31, 2011, the Company has evaluated subsequent events for potential recognition and disclosure through August 16, 2012, the date of financial statement issuance.

NOTE 3: INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

At December 31, 2011, the Plan's investments were held by the Trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2011	2010
JH Retirement Living at 2045	$315,166	$576,420
JH Retirement Living at 2035	556,540	556,540
JH Retirement Living at 2025	403,386	838,466
American Funds Capital World Growth & Income	342,941	431,026
American Funds Capital Appreciation Fund	890,257	969,184
JH Small Cap Growth & Income	318,347	360,559
JH Money Market Fund	424,521	-

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by ($77,530) as follows:

Mutual Funds	$(77,655)
Guaranteed Investments	$125

NOTE 4: FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include –

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds

Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed Investment Contract

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as the reporting date.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

Level 3 Gains and Losses
The following table sets forth a summary of changes in the fair value of the plan's Level 3 assets for the year ended December 31, 2011.

Unrealized gains/(losses) relating to instruments held at the reporting date	125
Purchases, sales, issuances & settlements (net)	(21,412)
Balance, end of year	$ 179,902

NOTE 5: INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with John Hancock Life Insurance Company. John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by John Hancock. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The contract has certain restrictions that impact the ability to collect the full contract value. For example, the Plan may not withdraw more than 25% of the beginning of the year balance of the contract without incurring a penalty. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. John Hancock may not terminate the contract at any amount less than contract value.

John Hancock is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, and is based on the quarterly period. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2011
Average Yields:	
Based on annualized earnings (1)	0.56%
Based on interest rate credited to participants (2)	0.56%

(1) Computed by dividing the annualized one-day actual earnings of the contract on the last day of the plan year by the fair value of the investments on the same date.

(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the investments on the same date.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 7: TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated June 16, 2009, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9: RELATED-PARTY TRANSACTIONS

The Company provides certain accounting, administrative and investment management services to the Plan for which no fees are charged. These transactions are exempt party-in interest transactions.
