NOTE 1 - DESCRIPTION OF PLAN

The Shin-Etsu/Shincor Silicones, Inc. Employee Savings and Profit Sharing Plan (the "Plan") is a retirement savings plan designed to invest voluntary pre-tax and post-tax employee contributions, matching employer contributions and discretionary employer contributions for the benefit of the participating employees. The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established by Shin-Etsu/Shincor Silicones, Inc. (the "Company") as a safe harbor defined contribution 401(k) plan designed to provide employees of the Company and certain affiliates with tax advantaged long-term savings for retirement. The Plan is administered by the Company along with Bank of America, N.A. (the "Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

All employees of the Company are eligible to participate in the Plan as of the first enrollment date after completing one month of service. The Plan offers enrollment dates monthly.

Contributions

The Plan provides for pre-tax contributions by participants and Roth elective deferrals, through payroll deductions, and for matching contributions by the Company. Each participating employee elects to enter into a salary reduction agreement by directly contacting the Trustee, thereby contributing to his/her participant account a percentage of compensation, as defined, not less than 1%, nor more than 100% of eligible earnings subject to Internal Revenue Code ("IRC") limitations. At their discretion, the participants may allocate the contributions among the investment funds made available by the Plan. Participants may change their contribution percentages and their allocation of future contributions among the available investments at any time.

The Plan provides for a matching contribution from the Company of 100% of the first 4% of eligible earnings contributed by each participant that does not work out of Freeport, Texas. Those employees working out of Freeport, Texas receive an employer matching contribution 100% of the first 6% of eligible earnings. The Company has the right to change the amount of its contributions, pursuant to the Plan, at any time. The Company did not make any discretionary contributions for the years ended December 31, 2011 and 2010.

Vesting and Distributions

Each participant is immediately and fully vested in all participant contributions and earnings thereon. Participants vest in matching contributions by the Company and the earnings thereon immediately under the safe harbor plan. On termination of service due to death, disability, or retirement, a participant receives a lump-sum payment.

Participant Accounts

Each participant's account is increased, or decreased as appropriate, with (a) the participant's contribution, (b) the Company's matching and discretionary contributions, (c) net investment earnings based on the participant's account balance and composition, (d) administrative expenses, (e) loan disbursements and repayments, and (f) distributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Administrative Expense

The Plan Sponsor pays costs of administering the Plan, except for some cash management fees, which are paid by the Plan. There are also indirect fees deducted directly from investment earnings of the Plan.

Notes Receivable from Participants

Subject to certain limitations, the Plan permits loans to participants. The minimum loan amount is $1,000. The maximum amount a participant may borrow is the lesser of (1) one-half of a participant's vested balance or (2) $50,000. Participants may borrow from the value of their balances invested in any of the various investment funds at their discretion. The interest rate on the loans is equal to 1% plus the prime lending rate, at commencement of the loan. The terms of the loans are 1-5 years or up to 15 years for the purchase of a primary residence. Principal and interest are paid bi-weekly through payroll deductions.

Rollovers

Participant's may transfer eligible cash distributions from any other employer sponsored qualified plan under Section 401(a) or 403(a) of the IRC into the Plan by a direct transfer from such other plan. Additionally, the Plan will accept a direct rollover of an eligible rollover distribution from a qualified plan under Section 401(a) or 403(a) of the IRC or participant rollover contribution of the portion of a distribution from an Individual Retirement Account or Annuity under Section 408(a) or 408(b) that is eligible to be rolled over and would otherwise be includable in gross income.

Uncertain Tax Positions

Under the Income Taxes Topic of the FASB ASC, Plan management is required to identify potential uncertain tax positions taken, assess and quantify those positions and record reserves. As of December 31, 2011 and 2010 and for the years then ended, Plan management has identified no uncertain tax positions. The Plan files the United States Federal Form 5500 annually and is generally no longer subject to income tax examinations for years prior to 2008.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Trustee would value the trust and the shares of all participants as of the termination date and would distribute, as soon as possible, the balance of the accounts.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis.

Fair Value Measurements
Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Investment Valuation and Income Recognition
Mutual funds are stated at fair value as measured by quoted market prices. Common / collective trust funds with underlying investments in fully benefit-responsive investment contracts are valued at fair market value of the underlying investments and then adjusted by the issuer to contract value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes it valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As required by the Plan Accounting – Defined Contribution Pension Plans Topic and the Plan Accounting – Health and Welfare Benefit Plans Topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2011 and 2010, the contract value of the fully-benefit responsive investment contracts approximate fair value. Therefore, no adjustment to contract value is required.

Included within the Plan's investments through October 5, 2010, the Merrill Lynch Retirement Preservation Trust was a stable value fund that could invest in traditional insurance investment contracts, U.S. government and agency securities, asset-backed securities, and collective investment funds. Participants could direct the withdrawal or transfer of all or a portion of their investment at contract value. The fair value of the underlying investments in the funds was based on: (1) discounting the related cash flows of the guaranteed investment contracts based on current yields of similar instruments with comparable durations and (2) quoted market values for the U.S. government and agency securities and asset backed securities. Contract value represented contributions made to the fund, plus earnings, less participant withdrawals. On October 6, 2010, the Merrill Lynch Retirement Preservation Trust was restructured to operate as a short-term investment fund that sought to maintain a dollar net asset value per share. The Merrill Lynch Retirement Preservation Trust was discontinued on February 17, 2011 and any investments in the Merrill Lynch Retirement Preservation Trust were transferred to the INVESCO Stable Value Retirement Fund.

bmf

Investment income consists of interest and dividend income and participant loan interest. The net appreciation (depreciation) in the fair value of investments consists of realized gains or losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported based on historical cost.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the basis financial statements and related notes to the financial statements. Actual results could differ from those estimates. The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Notes Receivable from Participants
Notes receivable from participants represent participant loans and are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Repayments of principal and interest are recognized in the period in which payroll deductions are processed.

Subsequent Events
The Plan has evaluated subsequent events through July 10, 2012, the date the financial statements were available to be issued.

NOTE 5 - TAX STATUS

As of January 1, 2006, the Company adopted a Safe Harbor plan. The Plan obtained its latest determination letter on December 20, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status and believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 - FAIR VALUE MEASUREMENTS

Fair Value Measurements and Disclosures Topic of the FASB ASC established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

bmf

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 7 - PARTY-IN-INTEREST

During 2010 and through February 2011, certain Plan investments were shares of a stable value fund which are maintained and managed by the Trustee as defined by the Plan and, therefore, those transactions were party-in-interest transactions. There are also indirect fees deducted directly from investment earnings of the Plan.
