CLINICOMP INTERNATIONAL, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of the CliniComp International, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of CliniComp International, Inc. (the "Plan Sponsor" or "Company"). An employee becomes eligible to participate in the Plan on their date of hire. The Plan provides employees with a salary deferral option pursuant to Section 401(k) of the Internal Revenue Code (the "Code"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

The 401(k) salary deferral plan is a savings plan that allows employees to defer a portion of their salaries for income tax purposes through contributions to the Plan and the investment of such contributions in the funds offered by the Plan. A participant may elect to make contributions to the Plan ranging from 2% to 80% of the participant's annual compensation, subject to limits set forth by the Code.

For participants who are age 50 or older, and have reached the maximum contribution limit, the Plan allows an additional catch up contribution subject to the limits set forth by the Code. A participant may, with the consent of the Plan administrator, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from a qualified savings plan in which an employee participated prior to employment with the Company.

The Company provides for matching contributions to the Plan equal to a uniform percentage of each participant's elective deferral. The Company has elected to make matching contributions of 25% of the participant's deferral up to 20% of the employee's compensation. In addition, the Company may, at its discretion, provide an additional profit sharing contribution at the end of the Plan year. For the year ended December 31, 2011, the Company made matching contributions totaling $203,798 and did not make a discretionary profit sharing contribution.

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan administrator. These investment options consist of various mutual funds held in common/collective trusts. Participants may change their investment options at any time throughout the year.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (concluded):

Vesting:

Participants are 100% vested in their contributions to the Plan plus actual earnings thereon and any employer matching or profit sharing contributions at all times.

Payment of benefits:

Distributions are payable to participants or their beneficiaries as a result of retirement, death, disability, termination of employment or termination of the Plan. Participants may elect to receive either a lump-sum amount equal to the value of the participant's account or installment payments over a period of not more than the participant's assumed life expectancy, unless their account balance is less than $5,000. If the account balance is less that $5,000, the Plan administrator will distribute the balance in the form of a single lump-sum payment.

Forfeited accounts:

Forfeitures are used first to pay Plan expenses and then any remaining amounts are used to reduce the Plan Sponsor's contributions to the Plan. At December 31, 2011 and 2010, forfeited nonvested accounts totaled $1,840 and $0, respectively. During 2011, no forfeiture funds were used to reduce the Plan Sponsor's contribution or used to reduce expenses.

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are required to be repaid within five years unless the loan is to be used for the purchase of a primary residence in which case the loan repayment period may be beyond five years as determined by the Plan administrator. Loans are secured by the balance in the participant's account and bear interest at the rate of prime plus 2% (rates ranging from 5.25% - 10.25%). The prime rate in 2011 was 3.25%. The loans mature through 2016. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 2 - Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Note 2 - Summary of significant accounting policies (concluded):

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in the fair value of mutual funds held in common/collective trusts includes the Plan's gains and losses on investments bought and sold as well as changes in fair value of investments held during the year. Interest income and dividends received are included in the calculation of fair value and reported within the net depreciation of the fair value of common/collective trusts on the statement of changes in net assets available for benefits.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based upon the terms of the Plan document.

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Certain administrative expenses are paid from Plan assets.

Subsequent events:

The Plan has evaluated subsequent events through August 17, 2012, which is the date the financial statements were available to be issued.

Note 3 - Investments:

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011 (Audited) and 2010 (Compiled):

	2011 (Audited)	2010 (Compiled)
FidAdv Free 2025 A	**$ 455,883**	$ 434,142
Loomis Bd Inst	*****	367,281
NW Mny Mkt Inst	*****	412,829
NW S&P 500 Indx Inst	**622,831**	610,819
PIMCO Real Rtn Inst	**439,389**	*

* Account balance does not represent 5% or more of the Plan's net assets for the corresponding year.

Note 4 - Certification by the trustee:

The following account balances and transactions were obtained from a statement certified by Nationwide Financial Services, Inc. ("Nationwide"):

Statement of net assets available for benefits:
Investments

Statement of changes in net assets available for benefits:
Investment loss

Schedule of assets (held at end of year)

Note 5 – Related party transactions:

Certain Plan investments are in shares of mutual funds which are managed by Nationwide. Nationwide is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Certain fees associated with investment management are paid inside the funds and decrease the return on investment.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Tax status:

The Plan has adopted a prototype plan and relies on the prototype plan's opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008. The Plan has not applied for a determination letter from the IRS specific for the Plan. The Plan has been amended since the date of the prototype plan's opinion letter. However, the Plan Sponsor believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - Fair value measurements:

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, accounting rules for fair value measurements establish a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Note 9 - Fair value measurements (concluded):

Common/collective trusts:

A collective investment trust is a trust for the collective investment and reinvestment of assets contributed from employee benefit plans maintained by more than one plan. These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the collective trust. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments, which are traded on an active market.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Financial assets carried at fair value at December 31, 2011 (Audited) are classified in the table below in one of the three categories described above:

Effective January 1, 2012, the Plan was amended to require automatic enrollment for employees who become participants after this date. The employer will withhold 3% of compensation each pay period unless otherwise elected. The Plan permits participants to withdraw their enrollment within 90 days of the first automatic deferral.
