1. Description of Plan

The following description of the STS, Inc. Profit Sharing 401(k) Plan (the "Plan"), provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan qualifying under Section 401(k) of the Internal Revenue Code and subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established for the purpose of providing eligible employees of Somerset Tire Service, Inc. and Subsidiaries ("STS" or the "Company") and their beneficiaries, funds for retirement.

Eligibility

An employee of the Company becomes an eligible participant in the Plan following their date of hire subject to the completion of 6 months of service and the attainment of 18 year of age.

Employee Contributions

Employees can elect to contribute from 1 to 75 percent of eligible compensation not to exceed $16,500, or $22,000 for employees over 50 years of age, for the year ended December 31, 2011.

Employer Contributions

The Plan provides for discretionary employer contributions to the trust fund each plan year in an amount equal to 25 percent of each participant's first 4 percent of eligible compensation provided, however, that the contribution for any year shall not exceed the maximum amount deductible from the employer's income for such year for federal income tax purposes under the applicable sections of the Internal Revenue Code.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. A participant's account is reduced by withdrawals, losses on investments and any forfeiture. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan offers variety of mutual funds with varying investment objectives as investment options.

Vesting

A participant is at all times fully vested in the portion of his account attributable to participant contributions. Employer contributions become 100 percent vested after three years of service.

Distributions and Withdrawals

Prior to age 59-1/2, distributions and withdrawals are not permitted from the Plan except in the instances of hardship, death, disability, or termination of employment. Under an early retirement option, an employee with 3 years of vested service can receive distributions. Hardship withdrawals must be submitted to the Plan administrator in writing and make the participant ineligible to contribute to the Plan for twelve months. After attaining age 59-1/2, participants may elect to withdraw an amount equal to any whole percentage not to exceed 100 percent of the participant's vested account for any reason. Upon termination of service due to death, total and permanent disability, retirement or termination of employment, vested balances will be distributed to a participant or beneficiary in the form of a lump sum payment.

Participant Loans
Participants may borrow from their accounts a maximum of $50,000 or 50 percent of their voluntary deferred account balance, whichever is less. Loans bear interest at a rate determined by the Plan's 401(k) Committee at the time of the loan (currently ranging from 4.25% and 10.50%), and have repayment terms of up to five years from the date granted.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accounting records of the Plan are maintained and the accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts, because contract value is that amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the statements of net assets available for benefits present the fair value of the investment contracts as well as an adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for plan benefits are prepared on a contract value basis.

Valuation of Investments and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Participant Loans
Notes receivable from participants are measured at their unpaid principle balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Forfeited Accounts
At December 31, 2011 and 2010, the Plan had $46,487 and $36,367, respectively, of forfeited non-vested accounts. Forfeitures can be used to reduce employer contributions at the request of the employer. No forfeitures were applied to employer contributions during the Plan year ended December 31, 2011 or December 31, 2010.

Risks and Uncertainties
The Plan invests in various investment securities. All investment securities are exposed to some type of risk, including, but not limited to, exposure to changes in interest rates, market fluctuations, economic conditions and currency devaluation. Due to the level of risk associated with certain investment securities, it is possible that changes in near term risk factors could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

Administrative Services
The expenses necessary to administer the Plan, including but not limited to, retaining necessary professional assistance from an attorney, an accountant, or an investment advisor are paid by the Company. Except for trustee fees, STS has elected to pay the expenses necessary to administer the Plan.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Information Certified by Trustee (Unaudited)

No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the trustee. Based on information provided and certified by the trustee, there are no fixed income obligations, or non-participant loans in default or deemed uncollectible, as defined by ERISA, for the years ended December 31, 2011 and 2010.

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $930,957 and appreciated in value by $1,399,522, respectively, from investments in mutual funds.

4. Fair Value Measurements

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar securities or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the securities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used for periods presented these financial statements.

Interest-bearing cash: Interest-bearing cash is valued at the closing price reported on the active markets on which the securities are traded.

Mutual funds: Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Common collective trust: Contract value of the common collective trust represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. Investments in wrapper contracts are reported at fair value as determined using a discounted cash flow model, which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities. Net asset value of the underlying funds is reported by the investment advisor using the audited financial statements of the collective trust at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31. Participant loans are not included as they are not considered significant to the fair value disclosure in the financial statements.

As of December 31, 2010, the common / collective trust was invested in underlying US Government Sponsored Agency Obligations (77%) and US Treasury Obligations (23%).*

5. Plan Termination

The Company intends to continue the Plan indefinitely for the benefit of its employees, but reserves the right to modify, amend, or terminate the Plan at any time by resolution of its Board of Directors. In the event of termination of the Plan, all amounts credited to participants' accounts shall be 100 percent vested and non-forfeitable. All participants shall receive a total distribution of their accounts as described in the Plan. Any amount in the forfeiture account upon termination, which has not been applied to reduce the Company contribution, shall be allocated on a pro rata basis to the participant's account.

6. Income Tax Status

The Plan obtained its latest opinion letter for a prototype plan on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed was in compliance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal income taxes has been made in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008. In addition, there are no tax related interest or penalties for periods presented in these financial statements.

7. Party In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Bank of America, N.A., the trustee as defined in the Plan. In addition, the Plan paid fees for investment management services of approximately $18,400. These transactions qualify as party-in-interest transactions. Transaction fees charged by the trustee are absorbed in investment income and are not readily determinable.

8. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, to Schedule H of Form 5500:

	2011	2010

Total investment loss per Schedule H of Form 5500	$ (422,766)	$ 1,875,475

9. Subsequent Events

Subsequent events were evaluated through August 8, 2012, which is the date the financial statements were available to be issued. Based on that evaluation, the Plan has determined that the following subsequent events have occurred that require disclosure in the financial statements:

Effective July 1, 2012, the Department of Labor will require that all fee arrangements between the Plan and its covered service providers will be subject to fee disclosure requirements, pursuant to ERISA Section 408(b)(2). Under section 408(b)(2), applicable fees paid directly or indirectly by the Plan are required to be disclosed to the Plan in writing. A failure to do so by the covered service provider would cause the fee arrangement to be considered a prohibited transaction.

Management has evaluated the impact of its arrangements with covered service providers in compliance with this regulation and believes it is in compliance with this regulation. Any penalties related to this regulation would be borne by the Company or the covered service provider.
