INDEPENDENT AUDITORS' REPORT

To the Trustee of the
RCSC Retirement Savings Plan
St. Louis, Missouri

We were engaged to audit the accompanying statements of net assets available for benefits of the RCSC Retirement Savings Plan (the Plan) as of December 31, 2011 and 2010; the related statements of changes in net assets available for benefits for the years then ended; and the supplemental schedule of assets held at year end as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Transamerica Financial Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certification from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RCSC RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the RCSC Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees of Reliant Care Management Company, LLC and certain affiliated companies (the Company). The Plan was established May 1, 2000, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees who have completed one year of service in which they have completed at least 1,000 hours and have attained the age of 21 are eligible to participate in the Plan.

Contributions: Participants may contribute up to 60% of pretax annual compensation, as defined in the Plan, not to exceed maximum amounts specified by the IRS, in accordance with a participant salary deferral agreement. Participants who are at least 50 years of age may make an additional contribution to the Plan not to exceed \$5,500 for 2011 and 2010, under certain conditions. Participants may also contribute amounts representing rollover distributions from other qualified plans. The Company may contribute a discretionary matching contribution and an additional discretionary profit sharing contribution. There were no Company contributions to the Plan in 2011 or 2010. Participants direct the investment of contributions into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions, Company contributions, the participant's rollover contributions from other qualified benefit plans, and an allocation of Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are automatically 100% vested in both their elective salary deferrals and the Company's discretionary matching contributions. Participants vest in the profit sharing contribution at a rate of 20% after one year of service and in 20% increments each subsequent year with full vesting in the Company's profit sharing contribution after 5 years of service. A participant is considered to have one year of service for each one-year period in which he or she has worked 1,000 hours or more.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Only one loan may be outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at a rate that is commensurate with local prevailing rates. Principal and interest are payable through payroll deductions.

Payment of Benefits: Upon termination of service, a participant or his/her beneficiary may receive their benefit distributions in a lump sum payment equal to the value of the participant's vested interest in his or her account, which may be in the form of a cash payout or rolled over into another qualified pension plan.

Administration: Benefit Plans Plus, LLC (BPP) acts as the Plan's third-party administrator (TPA). Transamerica Financial Life Insurance Company (Transamerica) acts as the Plan's custodian and record-keeper. BPP provides general professional and administrative services related to the Plan while Transamerica maintains the individual participant accounts and provides records of balances and transactions to the Plan administrator and participants. Certain administrative and record-keeping costs are being absorbed by the Company, except certain record-keeping fees charged to participant accounts.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Valuation of investments: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade date basis. Realized investment gains and losses are determined on the specific identification basis. Dividends are recorded on the declaration date. Interest is recorded when earned.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. The fair value of the investment contract is to be calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts. This is because contract value is the amount participants would receive if they were to initiate permitted transactions such as loans, withdrawals and transfers among the participant's selected investment accounts. The Statement of Net Assets Available for Benefits displays the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The Plan's investment in the Transamerica Stable Value Account is a fully benefit-responsive investment contract. As plan custodian, Transamerica has determined and certified that contract value approximates fair value for this product; therefore, no reconciliation from fair value to contract value is displayed in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2011 and 2010.

Investment securities of the Plan are exposed to various risks, such as interest rates, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent events: Events that have occurred subsequent to December 31, 2011, have been evaluated through August 27, 2012, which represents the date the Plan's financial statements were approved by management and therefore available to be issued.

3. TERMINATED PARTICIPANTS

Net assets available for benefits at December 31, 2011 and 2010 include \$81,532 and \$36,637, respectively, allocated to the accounts of individuals who, as of or prior to that date, had withdrawn from actively participating in the Plan, generally as a result of terminating employment. These amounts may be paid within the next year, at the request of the participant. These participants receive no further contributions but do receive allocations of investment income

4. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed Fort William LLC by a letter dated March 31, 2008, that the Non-standardized Prototype Profit Sharing Plan with CODA sponsored by Fort William LLC as amended through that date is in a form acceptable under section 401 of the Internal Revenue Code (IRC). The Company adopted this prototype non-standardized profit sharing plan effective January 1, 2007. The Company may rely on the opinion letter issued by the IRS for this non-standardized prototype plan as evidence that the plan is qualified to the extent provided by the IRS in Announcement 2001-77, 2001-30 I.R.B. The Plan is relying on this opinion letter.

On January 1, 2009, the Plan was amended for certain regulatory changes, which did not result in any significant changes to the Plan. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified as of the financial statement date.

The Plan's tax returns are subject to examination by the IRS and the Department of Labor (DOL). Open tax years subject to IRS and DOL examination as of December 31, 2011, are 2009 through 2011. Any interest and penalties incurred related to tax filings are the obligation of the Company.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. INVESTMENTS

Plan investments are held in a trust managed by the Plan's custodian, and are unsecured. All investments are participant-directed and held by parties-in-interest. The following information was certified as complete and accurate by the Plan's custodian. Plan investments consisted of the following as of December 31:

	<u>2011</u>		<u>2010</u>
Group annuity contract:			
Transamerica Stable Value Account	\$ 127,099 *		\$ 116,325 *

During 2011 and 2010, the Plan's investments (including investments bought, sold, and held during the year) (depreciated) appreciated in value and earned investment income as follows:

	<u>2011</u>	<u>2010</u>
Net (depreciation) appreciation in fair value of investments:		
Pooled separate accounts	<u>\$ (23,540)</u>	<u>\$ 65,967</u>

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

A fair value hierarchy is used that prioritizes the inputs to valuation techniques used to measure fair value of balances that are required or permitted to be measured at fair value for reporting in financial statements. The hierarchy gives the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to the unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access. |
| Level 2 | Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, |

or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Observable inputs may include interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals.

Level 3 Valuation is based on methodologies that are unobservable and significant to the fair value measure. These may be generated from model-based techniques that use at least one significant assumption based on unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of valuation methodologies used for assets recorded at fair value.

Group annuity contract: Valued at contract value which includes the cost of principal and contract returns, which approximates fair value.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year-end. The pooled separate accounts are not publicly traded. The units of pooled separate accounts are stated at fair value as determined by the issuer of the account based on the fair value of the underlying investments. Individual participant accounts invested in the pooled separate accounts are maintained on a unit value basis. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. There are no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below present the Plan's assets measured at fair value on a recurring basis as of December 31, aggregated by the level in the fair value hierarchy within which those measurements fall:

2011	Level 1	Level 2	Level 3	Total

8. INVESTMENT CONTRACT

The Plan has entered into a benefit-responsive investment contract with Transamerica through the Transamerica Stable Value Account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Transamerica is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fund. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$127,099 and \$116,325, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example,

divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.
