NOTE A – DESCRIPTION OF PLAN

The following description of the Lieberman Management Services, Inc. Retirement Savings Plan (the "Plan") provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing and 401(k) plan covering eligible employees of Lieberman Management Services, Inc., Lieberman Financial Group, LLC, and LMS Construction, Inc. (collectively, the" Company"). Non-excluded employees age 21 or older are eligible to participate upon completion of 250 hours of service in the first three months of employment or being credited with a year of service, subject to plan entry dates of the first day of each plan quarter. Effective September 1, 2011, non-excluded employees that meet the eligibility requirements will be automatically enrolled in the plan unless they decline to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan is funded by voluntary pretax and post-tax contributions of participants and discretionary matching and profit sharing contributions of the Company. Participants may contribute to the Plan, through regular payroll deductions, an amount subject to limitations imposed by the Internal Revenue Code. Auto-enrolled participants will default to a three percent pretax contribution. Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Participants who have attained age 50 before the Plan year are eligible to make additional pre-tax contributions, also known as "catch-up" contributions. The Company made discretionary matching contributions of $24,345 to the Plan and no discretionary profit sharing contributions for the year ended December 31, 2011.

Investment Options

Participants must direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's discretionary matching and if any, an allocation of profit sharing contributions, and an allocation of plan earnings. The Company's discretionary matching contribution is allocated based on a percentage of the participant's contribution. The Company's discretionary profit sharing contribution is allocated as of the last day of the plan year and is based on a ratio of each eligible participant's compensation to total compensation for all eligible participants. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

NOTE A – DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 25% vested after two years of service and continues to vest at the rate of 25% for each successive year until 100% vested after five years of service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time, or a direct rollover distribution.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants are permitted to take loans from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are collateralized by the borrowers' respective vested account balances and bear interest at 4.25% to 8.00%. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income totaled $4,815 for the year ended December 31, 2011.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company. Administrative expenses paid by the Company totaled approximately $3,300 for the year ended December 31, 2011.

Forfeitures

At December 31, 2011 and 2010, unallocated plan assets resulting from forfeited non-vested accounts totaled $72 and $0, respectively. These accounts will first be used to reduce future administrative expenses of the Plan, any forfeitures left after paying for expenses may be used to offset future Company contributions. Forfeitures used to reduce administrative expenses and Company contributions totaled $2,604 for the year ended December 31, 2011.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Income Recognition and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a complete description of the valuation methodologies used for assets measured at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Unrealized gains or losses from appreciation or depreciation of investments are recognized as increases or decreases in net assets available for benefits. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, *Fair Value Measurements, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*, which provides guidance clarifying how to measure and disclose fair value. This guidance amends the application of the "highest and best use" concept to be used only in the measurement of fair value of nonfinancial assets, clarifies that the measurement of the fair value of equity-classified financial instruments should be performed from the perspective of a market participant who holds the instrument as an asset, clarifies that an entity that manages a group of financial assets and liabilities on the basis of its net risk exposure can measure those financial instruments on the basis of its net exposure to those risks, and clarifies when premiums and discounts should be taken into account when measuring fair value. The fair value disclosure requirements also were amended. The guidance is effective for periods beginning after December 15, 2011, and the Plan is in the process of evaluating the impact the amended guidance will have on the Plan's financial statements.

NOTE C – CONTRACT WITH INSURANCE COMPANY

In 2011, the Plan entered into a benefit-responsive guaranteed investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the

NOTE C – CONTRACT WITH INSURANCE COMPANY (Continued)

principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011, was $186,165 The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring. The crediting interest rates and the average yield for 2011 was 2.65%

NOTE D – INVESTMENTS

The following table presents the fair value representing more than 5% of the Plan's net assets as of December 31:

	2011	2010
Principal Fixed Income Guaranteed Option (1)	$ 186,165	$ -
Lord Abbett Short Duration Income Fund (1)	392,054	-

Short-Term Bond (2)	-	423,765
Long-Term Inv-Grade Bond (2)	-	105,124
Other Pooled Separate Accounts (2)	-	561,836

NOTE D – INVESTMENTS (Continued)

(1) Funds available through Principal Trust Company were not available in 2010
(2) Funds available through Minnesota Life Insurance Company were liquidated in 2011.

During 2011 and 2010 the Plan's investments in pooled separate accounts (including investments bought, sold and held during the year) (depreciated)/appreciated in value by $(125,516) and $145,124, respectively. During 2011 the Plan's investments in mutual funds appreciated by $26,705.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE E – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1- Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

NOTE E – FAIR VALUE MEASUREMENTS (Continued)

Mutual funds: Valued at the quoted net asset value of shares held by the Plan's investment accounts at year end.

Investment contracts with insurance company: Fair value is the amount plan sponsors would receive currently if they were to withdraw or transfer funds within the plan prior to their maturity. This fair value represents discontinuation value or contract value times 95% (One minus 5% withdrawal charge). See note C for additional disclosures.

Pooled separate accounts: Valued at fair value based on the market value of underlying investments.
The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

NOTE E – FAIR VALUE MEASUREMENTS (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Investment Account's Level 3 assets for the year ended December 31, 2011:

	Investment Contract
Balance, beginning of year	$ -
Interest credited	1,081
Purchases	195,845
Settlements	(10,761)
Balance, end of year	$ 186,165

NOTE F – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

NOTE G – INCOME TAX STATUS

Effective January 1, 2008, the Plan adopted a volume submitter plan sponsored by Principal Financial Group. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state and local tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is no longer subject to U.S. federal, state or local income tax examinations by tax authorities for years before 2008.

NOTE H – INFORMATION CERTIFIED BY CUSTODIANS

Investments and notes receivable from participants held at December 31, 2011 and 2010, net appreciation in the fair value of investments, and interest for the year ended December 31, 2011, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Principal Trust Company and Minnesota Life Insurance Company, the custodians. Accordingly, as permitted by 29 CFR 2520-103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodians.

NOTE I – RELATED-PARTY TRANSACTIONS

Certain plan investments are managed by Principal Trust Company effective September 1, 2011 and by Minnesota Life Insurance Company prior to September 1, 2011. Principal Trust Company and Minnesota Life Insurance Company are the custodians, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. $9,926 fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment.

NOTE J – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through August 27 2012, the date that these financial statements were available to be issued.

We are providing this letter in connection with your audit of the financial statements and supplemental schedule of Lieberman management Services, Inc. Retirement Savings Plan as of December 31, 2011, and for the year then ended. As permitted by Regulation 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), we have instructed you not to perform any auditing procedures with respect to information prepared and certified to by Principal Trust Company and Minnesota Life Insurance Company, the "Custodian's", in accordance with DOL Regulation 2520.103-5, except for comparing the information with the related information included in the financial statements and supplemental schedules. Because of the significance of the information which you did not audit, we understand that you will not express an opinion on the financial statements and supplemental schedules taken as a whole.

We are responsible for the fair presentation in the Plan's financial statements of and changes in conformity with U.S. generally accepted accounting principles and for the fair presentation of the accompanying supplemental schedules in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. We are also responsible for adopting sound accounting policies, establishing and maintaining internal control, and preventing and detecting fraud.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.
