Independent Auditors' Report

The Plan Administrator
Cerestar USA, Inc. Retirement Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of the Cerestar USA, Inc. Retirement Plan (the Plan) as of December 31, 2011 and 2010, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2010, the related statement of changes in accumulated plan benefits for the year then ended, and the supplemental schedules of (1) Schedule H, line 4i – Schedule of Assets (Held At End of Year) and (2) Schedule H, line 4j – Schedule of Reportable Transactions as of or for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 5 to the financial statements, which was certified by Bank of New York Mellon, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Cerestar USA, Inc. Retirement Plan
NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

(1) **Description of Plan**

The following is a brief description of the Cerestar USA, Inc. Retirement Plan (the Plan). Participants should refer to the Plan Document for more complete information.

The Plan is a noncontributory, defined benefit pension plan covering substantially all eligible salaried, clerical, and nonunion production employees at participating domestic plant locations and subsidiaries of Cerestar USA, Inc.

Effective June 30, 2002, accredited service in the Plan was frozen and the employees became participants in the Cargill, Incorporated and Associated Companies Pension Plan for Salaried Employees on July 1, 2002.

Effective January 1, 2003, all assets of the Plan were transferred to the Cargill, Incorporated and Associated Companies Master Pension Trust.

The Plan provides that upon normal retirement, at age 65, a participant receives an annual pension from the Plan. The annual pension is a graduated amount based on the date of retirement and the participant's years of credited service. Participants may choose to receive their benefit in the form of a single life annuity option, a life and 10-year certain option, 50% joint and survivor annuity option, or contingent annuity option, as defined in the Plan Document. The Plan also allows for early retirement (age 55 plus ten years of vesting service) upon meeting certain criteria, as defined.

A participant is credited with one year of vesting service for a 12-month period of service. A participant's accrued benefit shall be 100% vested upon one of the following: (1) the participant's completion of at least five years of vesting service; or (2) the participant's attainment of age 65 while employed by Cargill, Incorporated (the Company).

(2) **Summary of Accounting Policies**

Following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefit obligations and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits and in accumulated plan

Cerestar USA, Inc. Retirement Plan
NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

benefit obligations during the reporting period. Actual amounts could differ from those estimates.

Risks and Uncertainties

The Plan has investments across a range of investment strategies. Investments, in general, are exposed to various market risks. Due to the level of risk associated with certain investments, it is possible that changes in the values of these investments could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in these estimates, it is possible that changes in these assumptions could materially affect the financial statements.

Investments and Income Recognition

The Company established, effective September 3, 1985, a master trust fund (the Master Trust) with Mellon Trust (the Plan Trustee) for its pension plans.

The purpose of the Master Trust is to pool investment transactions and achieve uniform rates of return on comparable funds under each plan in the Master Trust. Each plan deposits investable funds in the Master Trust and each owns an undivided interest in the net assets of the trust. The investment securities of the Master Trust are carried at fair value. The Plan's investment in the Master Trust represents its pro rata interest in the net assets of the trust. The unaudited financial statements of the Master Trust are separately filed with the Department of Labor (note 6).

Transactions and assets of the Master Trust are accounted for separately from those of the Plan. Securities transactions are recognized on the date the order to buy or sell is executed. Net appreciation and depreciation of investments includes realized and unrealized gains and losses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board FASB issued Accounting Standards Update ASU No. 2010-06 (ASU 2010-06), *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*, which requires new disclosures related to fair value measurements and clarifies existing disclosure requirements about the level of disaggregation, inputs, and valuation techniques. Additionally, this guidance requires disclosures about significant transfers between

Cerestar USA, Inc. Retirement Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

Levels 1 and 2 measurement categories and separating the presentation of purchases, sales, and settlements. This guidance was effective for periods beginning after December 15, 2009, except for the disclosures regarding the separation of the presentation of purchases, sales, and settlements, which is effective for periods beginning after December 15, 2010. ASU 2010-06 was adopted by the Plan effective January 1, 2010 with the exception of separating the presentation of purchases, sales, and settlements which was adopted effective January 1, 2011. There was no impact to the Plan's statements of net assets available for benefits or statements of changes in net assets available for benefits due to the adoption of this new guidance. The clarification of existing disclosure requirements about the level of disaggregation, inputs, and valuation techniques is included in note 7.

Derivatives

Derivative financial instruments are used by the Master Trust's investment managers primarily to rebalance the fixed income/equity allocation of the Master Trust's portfolio and to hedge the currency risk component of the Master Trust's foreign investments. The derivatives most commonly used by the investment managers are highly liquid exchange traded equity and fixed income futures, and over-the-counter forward foreign currency exchange contracts. The use of derivative instruments is not believed to materially increase the credit or market risk of the Master Trust's investments.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to service rendered by employees. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under the aforementioned circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits, including both vested (benefits to which participants are entitled, regardless of future service with the Company) and nonvested benefits, is determined as of the beginning of the plan year by the independent actuarial firm of William M. Mercer, Incorporated and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements for death, disability, termination, or retirement) between the valuation date and expected dates of payment.

Significant assumptions used in the valuation include: (a) withdrawal and disability rates based upon past experience; (b) assumed mortality rates based upon published statistical data using the RP-2000 Mortality Table; (c) assumed retirement age varies from 55 to 65; and (d) assumed rate of return of 8.0% for 2011 and 2010.

Cerestar USA, Inc. Retirement Plan
NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

Expenses

Expenses are paid out of the Master Trust by the Plan Trustee. Any expenses that are directly incurred by the plans, such as Pension Benefit Guaranty Corporation (PBGC) insurance premiums, actuarial fees, and audit fees are allocated to the plans based on actual costs. These expenses totaled \$75,495 and \$74,193 for 2011 and 2010, respectively. Expenses incurred by the Master Trust, such as trustee and investment management costs, are allocated to the individual plans based upon beginning of month balances invested in the Master Trust. These expenses totaled \$216,106 and \$233,578 for 2011 and 2010, respectively. Certain plan administration costs are absorbed by the plan administrator.

(3) Funding Policy

The funded status of the Plan is continually monitored by the Company. The Company makes contributions to the Plan sufficient to provide the Plan with assets with which to fund pension benefits to Plan participants. Contributions to the Plan are determined by the actuary using the Unit Credit method. The Company's contributions for 2011 and 2010 equaled or exceeded the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(4) Termination Priorities

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

In the event of plan termination, the benefit of any Highly Compensated Employee (and any Highly Compensated Former Employee), as defined in the Plan, is limited to a benefit that is nondiscriminatory under Section 401(a)(4) of the Internal Revenue Code (IRC).

If the termination is the result of the bankruptcy or near bankruptcy of the Company and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the PBGC will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits (as described in the Plan document) and the level of benefits guaranteed by the PBGC at that time.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount that, together with the plan assets, will satisfy all benefits accumulated to the date of the plan termination.

(5) Information Certified by Trustee

The Plan Trustee holds the Plan's investment assets, executes transactions therein pursuant to discretionary authority granted to the Plan Trustee concerning purchases and sales of investments in the Trust fund, and collects the related investment income.

The Plan Trustee has provided the plan administrator with certifications as to the completeness and accuracy of investment assets, liabilities, and income of the Plan and Master Trust as of and for the years ended December 31, 2011 and 2010 as outlined in the following table:

	<u>2011</u>	<u>2010</u>
Plan interest in Cargill Master Trust:		
Investments at fair value	\$ 65,686,296	68,404,332
Investment income	1,160,322	8,559,141
Cargill Master Trust:		
Investments at fair value	\$ 1,953,257,969	1,836,629,157
Investment income	25,562,740	220,073,520

Such amounts are included in the accompanying financial statements, notes thereto, and supplemental schedules of the Plan based on such certification from the Plan Trustee.

(6) Interest in Master Trust

Most of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other Cargill sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Plan Trustee. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2011 and 2010, the Plan's interest in the net assets of the Master Trust was approximately 3.4% and 3.7%, respectively. Investment income related to the Master Trust is allocated to the individual plans based upon beginning of the month balances invested in the Plan.

The Master Trust invested in forward foreign currency exchange contracts during the years ended December 31, 2011 and 2010. Forward foreign currency exchange contracts are contracts for delayed delivery of securities or money market instruments in which the seller agrees to make delivery at a specified future date of a specified instrument, at a specified price or yield. The holder is exposed to credit risk for nonperformance and to market risk for changes in interest and currency

Cerestar USA, Inc. Retirement Plan
NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

rates. Those instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the statements of net assets available for benefits. The Master Trust attempts to mitigate this credit risk by utilizing the same policies in making commitments and conditional obligations as it does for on-balance-sheet instruments, and through structured trading with reputable parties and continual monitoring procedures. Accordingly, the Master Trust does not anticipate losses for nonperformance. The Master Trust does not require collateral or other security to support forward foreign currency exchange contracts.

At December 31, 2011 and 2010, the Master Trust had \$22,698 and \$94,213 of forward foreign currency exchange contracts receivable and \$22,831 and \$94,401 of forward foreign currency exchange contracts payable, respectively. The net contract receivable or payable is included in the investment categories of the security being hedged by the contracts, generally international equity securities.

The forward foreign exchange contracts are marked-to-market daily at the applicable translation rates and any resulting unrealized gains or losses are recognized by the Master Trust. Realized gains or losses are recognized at the time the sale of the forward foreign currency exchange contract is closed. A forward foreign currency exchange contract is extinguished through a sale or the expiration of the contract. Net unrealized and realized gains or losses on forward foreign currency exchange contracts are included in the investment categories of the security being hedged by the contracts, generally international equity securities.

The Master Trust began investing in common stock of the Company, a party in interest, during the year ended December 31, 1996, through a purchase agreement that allows the Master Trust to own up to 10% of its investments in Cargill, Incorporated common stock. The purchase agreement includes a put option by the Master Trust that allows it to sell the Cargill, Incorporated common stock back to the Company at the greater of cost or fair value. The Master Trust continued to hold the investment throughout the years ended December 31, 2011 and 2010. Fair value of the Cargill, Incorporated common stock is determined quarterly by an independent valuation. The transaction is considered an exempt party-in-interest transaction by the Department of Labor. At December 31, 2011 and 2010, the Cargill, Incorporated common stock represented 4.3% and 4.7%, respectively, of the Master Trust assets. If the stock were to be traded in an open market, the results of the stock value could be different from what is reported on the financial statements.

The Master Trust has \$870,316,321 of investments in alternative investment funds and Cargill, Incorporated common stock, which are reported at fair value. For \$785,456,266 of those investments, the Master Trust has concluded that the net asset value (NAV) reported by the underlying fund approximates the fair value of the investment. Such investments are redeemable with the fund at NAV under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the Master Trust's interests in the funds.

Cerestar USA, Inc. Retirement Plan
NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

The following table summarizes the redemption terms for Master Trust investments, which were valued using the NAV as a practical expedient as of December 31, 2011.

(7) Fair Value Measurements

The Company establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Basis for Fair Value Measurement:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 Quoted prices of similar or identical assets in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Cerestar USA, Inc. Retirement Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

fund and are classified as Level 2 within the valuation hierarchy; (c) the Company's stock is valued based on observable and unobservable inputs and is classified as Level 3 within the valuation hierarchy.

- (2) Corporate bonds are valued at either the yields currently available on comparable securities or valued under a discounted cash flow model. At December 31, 2011, all Level 2 corporate bonds were held directly by the Master Trust and all Level 3 corporate bonds were held through common/collective trusts. At December 31, 2010, all Level 2 corporate bonds (\$329,632,171) and 9.3% (\$2,464,963) of Level 3 corporate bonds were held directly by the Master Trust. The remaining Level 3 corporate bonds (\$24,092,691) were held through common/collective trusts.
- (3) Consists of interests in limited partnerships that invest in real estate, private equity, and hedge funds. Real estate includes debt and equity investments in U.S. and non-U.S. securities. Private equity includes debt and equity investments in U.S. and non-U.S. securities and is diversified across buyouts, growth capital, distressed debt, mezzanine debt, and venture capital. Real estate and private equity valuations require significant management judgment due to the absence of quoted market prices and are classified within Level 3 of the valuation hierarchy. Hedge fund investments are diversified by manager, geography, and strategy. Hedge funds are valued based on quoted NAV as determined by the fund administrator and are classified within Level 3 of the valuation hierarchy due to redemption restrictions.
- (4) Short-term investment funds are valued using the NAV provided by the fund administrator. The NAV is a quoted transactional price for participants in the fund, which does not represent an active market. As such, they are classified as Level 2 within the fair value hierarchy.

The Plan's investment in Boston Company, Inc. Pooled Employee Funds Daily Liquidity Fund, which is held outside the Master Trust and is valued at cost, which approximates fair value, would fall within Level 2 of the fair value hierarchy.

The Master Trust and the Plan did not have significant transfers between Levels 1 and 2 during the year ended December 31, 2011.

(8) Federal Income Taxes

The Plan has received a tax determination letter dated January 1, 2003, from the Internal Revenue Service stating that the Plan qualified under Section 401(a) of the IRC and the Trust created there under was exempt from federal income taxes under Section 501(a). The Plan has been amended since this determination letter, but the Company believes the Plan continues to meet the requirements of Section 401(a) of the Code and that the related trust is exempt from income tax under Section 501(a) of the Code. Therefore, no provisions for income taxes have been made.

Cerestar USA, Inc. Retirement Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(9) Party-in-interest Transactions

Transactions resulting in plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. Mellon Trust, the Trustee of the Plan, is a party in interest as defined by ERISA as a result of its investing plan assets in certain of their funds. The Master Trust, a master trust established by the plan administrator, is a party in interest as defined by ERISA as a result of the Plan purchasing participation units of the Master Trust and shares of the Company's stock. The transactions described above are exempt under Section 408(b)(8) and are not prohibited by ERISA.

(10) Subsequent Events

The Plan has evaluated subsequent events from the statements of net assets available for benefits date through August 31, 2012, the date at which the financial statements were available to be issued, and determined there are no other items to disclose.

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, Part V — Summary of Plan Provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended effective January 1, 2010, are included in this valuation.

- **Most recent plan amendments included:** Restatement adopted December 22, 2010.
- **Plan amendments excluded:** None
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* See below.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target and target normal cost do not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

Effective date and plan year	Original plan: July 1, 2001 Amended and restated: Effective January 1, 2010 and adopted December 22, 2010 Plan year: January 1 to December 31
Status of the plan	Effective June 30, 2002, Eligibility, Credited Service and benefits were frozen.
Significant events that occurred during the year	None
Definitions	
▪ Covered employees	Prior to July 1, 2002, all salaried and certain hourly production employees were eligible to participate.
▪ Participation	Covered employees are eligible to participate on the first day of the month after completion of 12 months of service.
▪ Credited service	Prior to January 1, 2000, one year of service for each plan year in which the employee works 12 months. Excludes service prior to age 25 if before January 1, 1985; prior to age 21 thereafter. Excludes service prior to November 28, 1984 at the Dimmitt location. Excludes service while the plan was contributing, if the Participant waived participation. Credited Service on and after January 1, 2000 and before July 1, 2002 is one year of service for each 12 full months of employment. Service less than a full year will be prorated (one twelfth for each month with at least one hour worked).
▪ Compensation	Calendar year earnings includes total earnings paid including bonuses, overtime, commissions, accrued vacation, salary deferrals but excluding nonperformance bonuses, imputed income, reimbursed expenses, severance pay and nonqualified deferred compensation and unused vacation.
▪ Covered Compensation	Average of the Social Security Taxable Wage Bases in effect for the 35-year period ending in the calendar year in which the participant attains or will attain Social Security retirement age.

Schedule SB, Part V — Summary of Plan Provisions

-
- **Average monthly earnings** Average monthly earnings of the three consecutive completed calendar years of service which produce the highest average within the 10-year period preceding retirement, termination or July 1, 2002, if earlier. Compensation for a partial calendar year after December 31, 1998, will be used as a full calendar year only if this inclusion will increase Average Monthly Earnings.
-

Normal retirement

-
- **Eligibility** The first day of the calendar month coincident with or next following Normal Retirement Age (age 65).
 - **Benefit** 0.9% of Average Monthly Earnings times Credited Service, plus 0.45% of Average Monthly Earnings in excess of Covered Compensation times Credited Service not in excess of 35 years. Minimum benefit equal to \$35 times years of Credited Service. In no event shall the Normal Retirement Benefit be less than:
 - a) the Participant's Accrued Benefit under the Cerestar USA, Inc. Retirement Plan (the CUSA Plan) as of December 31, 1999 recognizing increases in Average Monthly Compensation and Average Social Security Compensation up through December 31, 2004 but Credited Service as of December 31, 1999 (Average Monthly Compensation is the 60 highest consecutive months), plus;
 - b) the benefit under the EBSA plan accrued after December 31, 1999.
-

Early retirement

-
- **Eligibility** Age 55 and completion of ten years of Vesting Service.
 - **Benefit** Accrued Benefit reduced by 4.8% per year for the first two years that retirement precedes age 62 and 6% per year thereafter. For employees participating prior to 2000, certain Early Retirement Benefits have been grandfathered.
-

Deferred vested

-
- **Eligibility** Five years of Vesting Service or the date the Participant attains age 65, if earlier.
 - **Benefit** Accrued Benefit is payable at the Normal Retirement Date. May commence early if completed the age and service requirements for Early Retirement with an actuarial equivalent of the Accrued Benefit.
-

Schedule SB, Part V — Summary of Plan Provisions

Disability	
▪ Eligibility	Participant became disabled after completing five years of Credited Service.
▪ Benefit	Continue to accrue Vesting and Credited Service.
Pre-retirement death	
▪ Eligibility	The Participant and spouse had been married at the date of the Participant's death and the Participant had become eligible for vested benefits.
▪ Benefit	The surviving spouse receives the 50% continuation portion of the 50% Joint and Survivor annuity, payable at the Participant's earliest retirement date or at the date of death, if later.
Form of benefits	
▪ Automatic form for unmarried participants	10-year Certain and Life annuity
▪ Automatic form for married participants	50% Joint and Survivor
▪ Optional forms	Single life annuity and 50%, 75% and 100% Joint and Survivor annuity
▪ Optional form conversion factors	Optional forms of benefit are the actuarial equivalent of the normal form.
Miscellaneous	
▪ Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins.
▪ Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2011, the limit is \$195,000.

Plan provision changes since prior valuation

There were no changes in plan provisions from the prior valuation which had an impact on this year's valuation results.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest discounts and mortality rates were updated from 2010 to 2011 in accordance with PPA.
- Expense normal cost was decreased from \$90,000 to \$80,000 to reflect expectations for the current plan year.
