Jarden Corporation Savings and Retirement Plan

Notes to Financial Statements

December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of the Jarden Corporation Savings and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator, for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan sponsored by Jarden Corporation (Company) for the benefit of certain hourly and salaried employees who have at least 30 days of continuous employment of service and are age 18 or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Wells Fargo Bank, N.A. serves as the trustee of the Plan.

Contributions

The Plan permits eligible employees through compensation deferral election to make annual contributions of 1 to 50% of eligible compensation. Employee rollover and catch-up contributions are also permitted. Contributions are subject to certain limitations.

The Plan provides for a discretionary Company contribution as determined by the Plan Sponsor. During 2011 and 2010, the Company made a discretionary matching contribution of .375% and 0.75%, respectively, of eligible participants' compensation for all employees except employees who are members of certain collectively bargained groups and the NUK division. In addition, the Company made a discretionary profit-sharing contribution of 1% during 2011 and 2010 for certain divisions of the Company. From January 1, 2010 through June 30, 2011, the Plan included a fixed employer match of 25% of the participant's first 5% of eligible compensation for the majority of the noncollectively bargained employees and Enka Bargained Employees. Effective July 2011, the Plan was amended for a fixed employer match of 50% of the first 3% and 25% of the next 2% of eligible compensation. A separate matching formula is applicable for Muncie Bargained Employees, Greeneville Bargained Employees and NUK employees.

The Plan includes a nonelective fixed contribution for participants who were employed at the Company's McMinnville, Tennessee facility on December 31, 2005, and were accruing benefits under the Sunbeam Products, Inc. Consolidated Retirement Plan. The participant must remain employed at the McMinnville, Tennessee facility on the last day of the Plan year. A participant who has less than 30 years of service on the last day of the Plan year will receive a contribution of 1.5% of eligible compensation, and a participant who has greater than 30 years of service on the last day of the Plan year will receive a contribution of 2.5% of eligible compensation.

Jarden Corporation Savings and Retirement Plan

Notes to Financial Statements

December 31, 2011 and 2010

Effective April 1, 2010, NUK USA LLC (NUK) became a participating employer of the Plan. The NUK participant's contributions remained the same as when the participants entered the Plan for one year. Therefore, effective April 1, 2011, all participants' contributions were consistent with the Jarden Corporation Savings and Retirement Plan. The NUK participants were permitted to make annual contributions both pre-tax and after-tax deferrals up to 50% of eligible compensation. For participants who had completed one year of service, the Company match 100% of 6% of eligible compensation for all noncollectively bargained employees and 50% of 6% for NUK Bargained Employees.

In 2011 and 2010, the eligible NUK participant's received a nonelective fixed contribution equal to 3% of compensation if the participant remains an employee on the last day of the Plan year or terminated during the year due to death, disability or reaching age 60.

Effective April 19, 2010, the Stuhlbarg International Sales 401(k) Profit Sharing Plan and Trust merged into the Plan.

Aero Products International, Inc. (Aero) became a participating employer of the Plan effective with the payroll period beginning December 27, 2010. Participants merged into the Plan during 2011.

Effective January 1, 2010, the Plan was amended to include an automatic deferral feature whereby new participants are treated as electing to defer 3% of eligible compensation unless the participant makes an affirmative election otherwise. The automatic deferral feature does not apply to certain bargained employees as defined in the Plan Document.

Administration

The Company delegates the day-to-day administration of the Plan to an administrative committee appointed by the Board of Directors.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their employee and Company contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution, Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Effective January 1, 2006, matching contributions are fully vested. Employer contributions from merged plans are vested based on years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Company contributions or to pay Plan expenses.

Forfeited nonvested accounts totaled \$896,095 and \$580,183 at December 31, 2011 and 2010, respectively. The entire forfeited nonvested account balance at December 31, 2011 was used to reduce the employer contributions remitted in 2012 for 2011 receivables. Forfeitures utilized to pay Plan expenses during December 31, 2011 and 2010 were \$35,800 and \$36,967, respectively.

Payment of Benefits

A participant or his beneficiary may only elect to receive a lump-sum amount equal to the vested value of the participant's account upon the participants' death or termination of service.

Withdrawals other than for termination are permitted under circumstances provided by the Plan.

Notes Receivable From Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be \$1,000. The maximum amount of a loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the vested portion of their account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a primary residence) through payroll withholdings or periodic payments. Loans bear a fixed interest rate of 1% above the prime interest rate as promulgated by Wells Fargo Bank, N.A.

Notes receivable from participants are reported at the amortized principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are valued at quoted market price or prices established by local security brokers. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. The Plan's interests in the common collective trust funds are valued based on information reported by the investment advisor using the audited financial statements of the common collective trust funds at year end. The collective investment fund invests in investments that pursue multiple strategies to exceed the performance of certain industrial averages. The funds may invest in securities, guaranteed investment contracts, a combination of other collective funds, or swap and option contracts. The net asset value of the fund is determined by utilizing the values of the underlying assets. The fund can be redeemed daily.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through collective trusts. The investments in the Stable Return Fund of Wells Fargo and the Wells Fargo Stable Return Fund B are considered to be fully benefit-responsive. The statement of net assets available for benefits presents the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available in benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust document sponsored by Wells Fargo Bank, N.A. This prototype plan document has been filed with the appropriate agency. The Plan has applied for a determination letter, but the determination letter has not yet been received. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for the years before 2008.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Investments

The Plan's investments are held by a bank-administered trust fund. The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

Note 4: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also establishes a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Jarden Corporation Savings and Retirement Plan

Notes to Financial Statements December 31, 2011 and 2010

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include collective trust funds. These funds are either valued at the NAV of shares held by the Plan at year end plus wrap contracts, which are valued using discounted cash flow models, or the unit value of the underlying shares. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There are no Level 3 securities in the Plan.

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2011 and 2010:

Jarden Corporation Savings and Retirement Plan

Notes to Financial Statements

December 31, 2011 and 2010

Note 7: Significant Estimates and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The current protracted economic decline continues to present retirement plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8: Plan Amendments

Effective July 1, 2011, the Plan's fixed employer contribution was amended to be 50% of the first 3% and 25% of 2% of participating compensation.

Quickie Manufacturing Corporation ("Quickie Manufacturing") became a participating employer of the Plan effective with the payroll period beginning December 26, 2011.

Note 9: Subsequent Events

In February 2012, assets of approximately \$7,200,000 from Quickie Manufacturing were transferred into the Plan.

Subsequent events have been evaluated through the date of the Independent Accountants' Report, which is the date the financial statements were available to be issued.
