We have been informed by the plan administrator that Minnesota Life Insurance Company held the Plan's assets and executed investment transactions. The plan administrator has obtained a certification from Minnesota Life Insurance Company as of February 10, 2012 (date of Plan liquidation) and for the period from October 1, 2011 to February 10, 2012 and as of September 30, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 DESCRIPTION OF PLAN

The following description of the SoftBrands, Inc. Salary Savings Plan (the “Plan”) provides only general information, and therefore, does not include all situations and limitations covered by the Plan. Participants should refer to the plan document for a more complete description of the Plan’s provisions. SoftBrands, Inc. (the “Company” or “Employer”) is the plan sponsor.

General

The Company established the Plan, a defined contribution plan adopted under section 401(k) of the Internal Revenue Code, to provide retirement income and other benefits to qualified employees. The Company is the sponsor and administrator of the Plan. Minnesota Life Insurance Company (the “Trustee”) is responsible for holding the assets of the Plan, executing investment transactions and making disbursements. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

On December 31, 2009, the Plan was frozen and no longer accepted new employees or contributions.

Plan Merger

On November 29, 2011, Plan management approved a Plan merger with the Infor Global Solutions 401(k) Plan (the “Infor Plan”) to take place the first calendar quarter of 2012. The sponsor of the Infor Plan is the parent company of SoftBrands, Inc. The assets of the Plan were liquidated on February 10, 2012 and were transferred to Fidelity Management Trust Company, the trustee and recordkeeper of the Infor Plan, on February 13, 2012.

Participant Accounts

Prior to the Plan being frozen, participant accounts were credited with employee salary deferrals and with an allocation of the Employer’s contribution, Plan earnings, and forfeiture of participants’ nonvested accounts, if applicable. Subsequent to the Plan being frozen, participant accounts are credited with an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. The participant accounts are valued on a daily basis.

Vesting

Employee salary deferral contributions are fully vested and nonforfeitable at all times. Vesting in the Employer’s contributions is generally based on the number of years for which an employee is credited with 1,000 hours or more of service subject to certain other provisions of the Plan. Participants vest at the rate of 20% per year, beginning in the first year of service and are fully vested after five years of service.

NOTES TO FINANCIAL STATEMENTS

Period From October 1, 2011 to February 13, 2012 and Year Ended September 30, 2011

Forfeitures

If an employee is not 100% vested when employment terminates, the portion of any account that is not vested will be transferred to a forfeiture account. A terminated employee's right to the forfeiture account depends upon when and if the employee is rehired and when the vested benefit payment is made to the employee. Forfeitures will be used to offset administrative fees and then to reduce Employer matching contributions. There were no amounts forfeited for the period from October 1, 2011 to February 13, 2012. Unused forfeited balances amounted to \$0 and \$2,326 at February 13, 2012 and September 30, 2011, respectively.

Investments

The Plan's investments are held by the Trustee. Upon enrollment in the Plan, a participant may direct the investment of their accounts in specific investment funds made available by the plan administrator. Participants may change their investment options on a daily basis.

Notes Receivable from Participants

Participants are permitted to borrow up to 50% of their account balances from the Plan, to a maximum of \$50,000. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% at the date the funds are loaned. The interest rates on participant loans ranged from 7.50% to 9.25%.

Distribution of Benefits

Upon termination of service, death, disability or retirement, a participant (or the participant's beneficiary in the case of death) will receive the vested portion of his or her account either as a lump-sum payment or as an annuity. Hardship distributions during employment are available to participants for medical expenses described in Section 213(d) of the IRC, the purchase of a principal residence, or the payment of tuition and related educational fees for the next 12 months of postsecondary education.

Administrative Expenses

The Company pays certain administrative expenses, including consulting and audit fees, on behalf of the Plan.

Plan Termination and Amendment

The Company has the right to terminate or amend the Plan at any time, subject to the provisions set forth in ERISA. In the event of termination, participants shall become fully vested in all employer contributions.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan offers a number of investment options to participants that are exposed to various risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Period From October 1, 2011 to February 13, 2012 and Year Ended September 30, 2011

Net Appreciation (Depreciation) in Fair Value of Investments

The statement of changes in net assets available for benefits includes the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses on investments sold and the change in unrealized appreciation (depreciation) on held investments.

Benefit Payments

Benefits are recorded upon distribution.

3 FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Pooled Separate Accounts: Valued at the unit value based on the number of participant units held by the Plan at year end.

SOFTBRANDS, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Period From October 1, 2011 to February 13, 2012 and Year Ended September 30, 2011

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of September 30:

	2011			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Index funds	\$ -	\$ 7,683,741	\$ -	\$ 7,683,741

4 INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by Minnesota Life Insurance Company (Minnesota Life), the Trustee of the Plan, as of February 10, 2012 (date of Plan liquidation) and for the period from October 1, 2011 to February 10, 2012 and as of September 30, 2011, respectively:

5 INVESTMENTS

The Trustee holds the Plan's investments and executes transactions therein. The fair values of individual assets that represent 5 percent or more of the Plan's net assets are as follows at September 30:

	<u>2011</u>
Pooled separate accounts:	
Intermediate Term Bond Index IA	\$ 3,396,947
Large Value Equity XII	1,689,831
International Value II	1,686,483
Large Growth Equity VIII	1,644,013
Small/Mid Growth Equity I	931,812
Money Market	754,251
Mid-Cap Value Equity III	693,116
Large Growth Equity III	<u>686,237</u>
	<u><u>\$ 11,482,690</u></u>

6 TAX STATUS

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of February 13, 2012 and September 30, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability of disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7 PARTY-IN-INTEREST AND RELATED-PARTY TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others. The Trustee manages the pooled separate account investments. Transactions related to these funds qualify as party-in-interest transactions; however, the Department of Labor has issued prohibited transaction exemptions indicating that these types of transactions are to be considered exempt party-in-interest transactions.

8 SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through September 10, 2012, the date the financial statements were available to be issued, for potential recognition or disclosure in the financial statements.
