GUARDIAN HEALTHCARE HOLDINGS, INC. 401k & PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

A. Description of the Plan

General

The following description of the Guardian Healthcare Holdings, Inc. 401k & Profit Sharing Plan (the "Plan") provides only general information. The Plan is sponsored by Guardian Healthcare Holdings, Inc. (the "Company"). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all employees of the Company who have attained the age 21 or older. Effective January 1, 2011, employees become eligible after completing three months of service and could enter the Plan on the first day of the month following the completion of three months of service. Prior to January 1, 2011, employees became eligible after completing six months of service and could enter the Plan on the first day of the first, fourth, seventh, and tenth month of the year, whichever occurs sooner, following the completion of six months of service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The purpose of the Plan is to encourage the Company's employees to save and invest, systematically, a portion of their current compensation so that they and their families may have a source of additional income upon their retirement, or in the event of death.

Plan Mergers

During 2010 the Company completed the acquisition of Gem City Home Care and Care Connection of Cincinnati. Approximately $3,442,000 of assets was transferred into the Plan during December 2010 as a result of these acquisitions. All of the participant amounts transferred in from the benefit plans of the acquired companies became 100% vested at the time of transfer.

Contributions

Participants may contribute up to 80% of their annual compensation, as defined by the Plan, on a pre-tax basis. In addition, an automatic enrollment feature was implemented whereby eligible employees that do not make a pre-tax salary deferral election within 30 days of their eligibility date will be automatically enrolled in the Plan beginning with the next pay cycle or as soon as administratively feasible. The automatic pre-tax contribution will be established at 2% of an employee's eligible compensation. Contributions are subject to limitations on total annual additions and other limitations imposed by the Internal Revenue Code (the "Code") as defined in the Plan document. Eligible participants may also make a rollover contribution to the Plan.

A. Description of the Plan – continued

Contributions – continued

Participants who are eligible to make salary deferral contributions under the Plan and who have attained age 50 before the end of the year are permitted to make catch-up contributions in accordance with and subject to the limitations imposed by the Code (up to $5,500 for 2011 and 2010).

The Plan provides that the Company may make discretionary matching contributions as determined annually by its Board of Directors. Participants must have completed one year of service, constituting a minimum of 1,000 hours of service, to be eligible to share in the discretionary matching contributions. Additionally, the Plan allows for the Company to provide profit sharing contributions which are determined annually by the Board of Directors of the Company. Participants must be: (1) employed on the last day of the year and complete 1,000 hours of service during the year; or, (2) have died, retired, or suffered disability during such year to be eligible to share in the discretionary profit sharing contributions. For the years ended December 31, 2011 and 2010, the Company elected not to make any discretionary matching or profit sharing contributions to the Plan.

Participant Accounts

A separate account is maintained for each participant and is credited with the participant's contributions and an allocation of: (a) the Company's contributions; (b) Plan earnings; and, (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on the percentage which the participant's contributions, account balance, and compensation, as defined, bear to the total of all participants' contributions, account balances, and compensation, respectively.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants terminating employment as a result of disability or death will be 100% vested in the employer portion of their account balances.

Vesting in the Company's profit sharing contributions and discretionary matching contributions, plus actual earnings thereon, for 2011 and 2010, is as follows:

Years of Service	Vested Percentage
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 years or more	100%

A. Description of the Plan – continued

Investment Options

Upon enrollment in the Plan, participants may direct their salary deferrals in 1% increments into any of the Plan's available investment options.

Payment of Benefits

Upon retirement, death, disability, or termination of employment, the vested benefits, as defined, are paid to the participant or their beneficiaries, either in a lump sum or a rollover. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. The Plan requires all benefit payments less than or equal to $5,000 to be paid in the form of a lump sum; however, for accounts of terminated participants that range from $1,000 to $5,000, the vested account balance can be automatically rolled over to an individual retirement account on behalf of the participant. Benefit payments greater than $5,000 may be deferred.

A participant may receive a hardship distribution of their vested account balance if the distribution is: (1) on account of uninsured medical expenses incurred by the participant, their spouse, dependents, or primary beneficiary; (2) to purchase (excluding mortgage payments) a principal residence of the participant; (3) for burial or funeral expenses for the participant's deceased parent, spouse, children, dependents, or primary beneficiary; (4) for the payment of post-secondary tuition expenses for the participant, their spouse, dependents, or primary beneficiary; (5) for the repair of damage to participant's principal residence; or, (6) needed to prevent eviction of the participant from his or her principal residence or foreclosure upon the mortgage of the participant's principal residence.

Notes Receivable from Participants

Participants are allowed to borrow from their accounts a minimum of $500 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Note terms range up to five years, or no longer than thirty years for the purchase of a primary residence. The notes are secured by the remaining balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions and are credited to the participant account from which they were borrowed.

Forfeited Accounts

Forfeited balances of terminated participants' non-vested accounts shall be used to restore the account balances of former Plan participants who are rehired within five years, to pay Plan administrative expenses, or to be allocated to Plan participants, as defined by the Plan. No forfeiture amounts were used during 2011 and 2010. At December 31 2011, and 2010, there were approximately $58,000 and $54,000, respectively, in unallocated forfeitures.

A. Description of the Plan – continued

Administrative Expenses

Employees of the Company perform certain administrative functions of the Plan with no compensation from the Plan. Under the terms of the Plan, administrative expenses may be paid out of the Plan, unless paid by the Company. Any such amounts paid by the Company are not included in the accompanying financial statements.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the recorded amount of income and expenses during the reporting periods. Actual results could differ from these estimates.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the Plan Administrator, and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment Valuation and Income

The investments of the Plan are stated at fair value as of the end of the year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic No. 820, *Fair Value Measurements and Disclosures*, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value.

Investment gains and losses are accounted for using the average cost basis of the securities sold. The net realized and unrealized gains and losses on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

B. Summary of Significant Accounting Policies – continued

Fully Benefit-Responsive Investment Contracts

The Plan accounts for the common collective trust fund at contract value in accordance with FASB ASC Topic No. 962, *Plan Accounting—Defined Contribution Pension Plans.* The common collective trust includes synthetic guaranteed investments, among other securities. A synthetic guaranteed investment contract is an investment contract in which the Plan owns the underlying assets and purchases fully benefit-responsive wrapper contracts from independent third parties, which provide market value and cash flow risk protection to the Plan.

Investment contracts held by a defined contribution plan are typically presented at fair value in the statement of net assets available for benefits and the amount representing the difference between fair value and contact value is presented as a single amount, calculated as the sum of the amounts necessary to adjust the portion of net assets attributable to each fully benefit-responsive investment contract from fair value to contract value. The accompanying statements of changes in net assets available for benefits are prepared on a basis that reflects income credited to participants in the Plan and net appreciation or depreciation in the fair value of only those investment contracts that are not deemed to be fully benefit-responsive.

On October 6, 2010, the trustee of the common collective trust approved a resolution to terminate the trust and commence liquidation of its assets. Through this process the trust eliminated its wrapper contracts and changed from a stable value fund to a short-term bond fund. As such, there was no such fair value to contract value adjustment necessary as of December 31, 2011 and 2010.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are valued at cost plus accrued but unpaid interest, which approximates fair value.

Recently Issued Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs,* ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in US generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities like the Company. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

C. Investments

Individual investments with market values greater than 5% of net assets available for benefits are as follows at December 31,:

BlackRock Global Allocation Fund Class R	489,797
Alger Mid Cap Growth Fund Class R	420,421

During 2011 and 2010 the net realized and unrealized gains on investments were comprised solely of gains from mutual funds.

D. Fair Value Measurements

FASB ASC Topic No. 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that prioritizes the inputs used in applying the various valuation techniques. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy defined by FASB ASC Topic No. 820 are as follows:

- Level 1 - observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

D. Fair Value Measurements – continued

- Level 2 - observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability

- Level 3 - inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

The Plan endeavors to use the best information available for fair value measurements. Accordingly, valuation techniques that maximize the use of observable inputs are favored. The following tables present the fair value hierarchy table for assets and liabilities measured at fair value, on a recurring basis, as set forth in FASB ASC Topic No. 820:

	2011		
	Level 1	**Level 2**	**Total**
Mutual funds:			
Large-cap funds	$ 4,921,065	$ -	$ 4,921,065
Medium-cap funds	1,284,425	-	1,284,425
Small-cap funds	533,193	-	533,193
Money market fund	-	1,094,755	1,094,755
Total investments at fair value	$ 6,738,683	$ 1,094,755	$ 7,833,438

	2010		
	Level 1	**Level 2**	**Total**
Mutual funds:			
Large-cap funds	$ 3,407,515	$ -	$ 3,407,515
Medium-cap funds	420,421	-	420,421
Small-cap funds	2,041,440	-	2,041,440
Common collective trust fund	-	892,670	892,670
Total investments at fair value	$ 5,869,376	$ 892,670	$ 6,762,046

D. Fair Value Measurements – continued

These items are classified in their entirety based on the lowest priority level of input that is significant to the fair value measurement. Mutual funds are measured using the net asset values of the shares held by the Plan at year end and are classified within Level 1 of the valuation hierarchy. The money market fund is measured at cost when investments are purchased and thereafter. A constant proportionate accretion and amortization of any discounts and premiums are recorded until the maturity of the security and thus the money market fund is classified within Level 2 of the valuation hierarchy. During 2010, the common collective trust eliminated its investment contracts and therefore the remaining investments are measured at fair market value.

E. Tax Status

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the investment information certified by the trustee, which included total investments as of December 31, 2011 and 2010, the total investment income (loss) for the years ended December 31, 2011 and 2010, and all information included in the supplemental schedule H, line 4i – schedule of assets (held at end of year).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examination for years prior to 2008.

F. Party-In-Interest Transactions

During 2010, the Plan invested in units of a common collective trust fund managed by Merrill Lynch, which acts as a financial advisor for the Plan. During 2011, the Plan invested in shares of a money market fund managed by Merrill Lynch, which acts as a financial advisor for the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

G. Information Certified by Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the information certified by the trustee, which included all investment information included in the accompanying financial statements and supplemental schedule for the years ended December 31, 2011 and 2010.

H. Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination all participants shall become 100% vested in all amounts credited to their account. Plan assets would be distributed to the participants at the discretion of the management of the Company or continue to be held in a trust fund to be distributed to each participant upon retirement, death, permanent disability, or termination of employment.

The reconciling items above are due to the difference in the method of accounting used in preparing the Form 5500 in accordance with government reporting requirements as compared to the Plan's financial statements.

J. Subsequent Events

In preparing the accompanying financial statements, management of the Company has evaluated all subsequent events and transactions for potential recognition or disclosure through July 27, 2012, the date the financial statements were available for issuance.
