Notes to Financial Statements

December 31, 2011 and 2010

NOTE A--DESCRIPTION OF PLAN

The following description of the TAG Family of Companies (the "Company") Premier 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan Document for more complete details of the Plan's provisions.

General
The Plan is a defined contribution plan covering all full-time employees of the Company who have three (3) months of service and are eighteen years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a matching contribution to the Plan; however, it is not required to do so. The percentage of contributions to be matched is to be determined by the Company and allocated to participants at the end of the Plan year. Participants must be employed on the last day of the year in order to receive matching contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by each participant. Contributions are subject to certain limitations.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and reduced by allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

NOTE A--DESCRIPTION OF PLAN--Continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000, or 50% of their vested account balance, whichever is less. The loans are collateralized by the balance in the participant's account and bear interest at rates equal to the current prime rate plus one percentage point. The interest rates on outstanding loans ranged between 4.25% and 9.25% for the years ended December 31, 2011 and 2010. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service for any reason (death, disability, termination or retirement), a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled $839 and $722, respectively. These accounts may be used to reduce future employer contributions, if amounts are available. Also, in 2011 and 2010, employer contributions were reduced by $857 and $2,233, respectively, from forfeited nonvested accounts.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are made up of mutual funds and guaranteed interest accounts. The value of these investments is based on the market value of its underlying investments and is not a publicly-quoted price in an active market.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Substantially all expenses of the Plan are paid by the Company. Certain expenses related to participant loans and distributions are paid by participants through a reduction of their participants' account.

NOTE C--FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE C--FAIR VALUE MEASUREMENTS--Continued

Level 2 Fair Value Measurements

The fair value of pooled separate accounts is based on quoted prices in less active, dealer or broker markets. Fair values are primarily obtained from third party pricing services for identical or comparable assets.

Level 3 Fair Value Measurements

The guaranteed interest accounts with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest account is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the credit-worthiness of the issuer. The following table provides further details of the Level 3 fair value measurements.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010.

NOTE D--INVESTMENTS

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by Principal Life Insurance Company for the years ended December 31, 2011 and 2010, and was not subjected to any auditing procedures:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $1,737,137 and $1,950,621 as of December 31, 2011 and 2010, respectively.

b. Net investment gain (loss) as shown in the accompanying statements of changes in net assets available for benefits of $(54,095) and $264,549 for the years ended December 31, 2011 and 2010, respectively.

The fair values of individual investments that represent 5 percent or more of the Plan's net assets are as follows as of December 31:

	2011	2010
Principal Money Market Separate Account	$ 305,915	$ 197,837
Principal Diversified International Separate Account	186,981	254,912
Russell Life Balance Strategy Separate Account	134,845	138,289
Columbus Circle MidCap Growth Separate Account	129,540	165,154

Principal LargeCap S&P 500 Index Separate Account	112,624	137,427
Principal Bond and Mortgage Separate Account	102,820	132,159

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated (depreciated) in value, as follows:

	2011	2010
Pooled Separate Accounts	$ (55,059)	$ 263,358
Guaranteed Interest	964	1,191
	$ (54,095)	$ 264,549

NOTE D--INVESTMENTS--Continued

The Plan assets at December 31, 2011 are maintained by Principal Life Insurance Company under the following types of accounts:

Separate accounts are a discretionary type of investment vehicle. A separate account is established for each participant, whereby each participant has the option of choosing from a wide selection of Principal Life Insurance Company sponsored mutual funds.

The guaranteed interest funds are held in Principal Life Insurance Company's general account. The principal and compounded interest are guaranteed over a defined term, either three or five years. Interest rates in 2011 on the funds offered ranged from 0.32% to 4.23% depending on the term selected.

NOTE E--PLAN TERMINATIONS

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company contribution portion of their account.

NOTE F--TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 22, 2003, that the Plan and related trust, under Principal Life Insurance Company, are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

The Plan is subject to routine audits by federal taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to tax examinations for years prior to 2008.

NOTE G--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H--RELATED PARTY TRANSACTIONS

The Plan invests in shares of pooled separate accounts managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee, custodian, and recordkeeper of the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

NOTE I--RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
