Notes to Financial Statements
December 31, 2011 and 2010

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the ViewSonic Corporation 401(k) Plan and Trust (the Plan) is provided for general information purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering employees of ViewSonic Corporation (the Company) who have attained age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - Employees that have attained age 18 and scheduled to work more than 1,000 hours are immediately eligible to participate in the Plan.

Contributions - Participants' contributions are made to the Plan by means of a salary deferral agreement. Non-highly compensated participants may elect to defer the lesser of 100% of their annual compensation or a fixed amount determined annually by the Internal Revenue Service. Highly compensated employees may elect to defer the lesser of 8% of their compensation or a fixed amount determined annually by the Internal Revenue Service.

The Company will also match participant contributions at a rate of 50% of the first 5% of the participant's compensation. Matching contributions of $211,520 and $194,709 were made to the Plan for the years ended December 31, 2011 and 2010, respectively. The Company may also make discretionary profit sharing contributions under the Plan. The Company made no discretionary profit sharing contributions to the Plan for the years ended December 31, 2011 and 2010, respectively.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's matching and discretionary profit sharing contributions, any forfeitures of terminated participants' non-vested accounts as determined by the Company, and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants - The Plan allows participants to borrow up to 50% of their vested account balances, up to $50,000. No loan in any amount less than $1,000 shall be granted. The loan repayment period must be no more than five years, with the interest rate determined based on prevailing rates at the date of the loan. Home loans can be repaid over a reasonable period of time that may exceed five years.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer contribution portion of their accounts is based on years of continuous service. The employer's contributions vest according to the following schedule:

Years of Services [year(s)]	Vested Percentage [%]
1	0
2	50
3	100

Payment of Benefits - Upon termination of service due to death, permanent disability, retirement or early retirement, as defined by the Plan document, a participant may elect to receive a distribution of his or her vested account balance as either a lump-sum amount or as installments. The Plan allows for hardship distributions, as defined in the Plan document. Withdrawals made by terminating participants are based upon the vested balance in their individual accounts at the time of termination and are recorded in the year of distribution.

Forfeitures - Amounts forfeited from terminating participants' nonvested portion of their Company contributions and earnings on Company contributions can be used to reduce future employer contributions, pay administrative expenses, or may be allocated to participant accounts. At December 31, 2011 and 2010, forfeited nonvested accounts totaled $1,533 and $12,098, respectively. Forfeited amounts used to pay administrative expenses were $25,706 and $7,500 during the years ended December 31, 2011 and 2010, respectively. The amount of forfeitures used to reduce employer contributions during the years ended December 31, 2011 and 2010 was $11,800 and none, respectively. There were no forfeited amounts allocated to participant accounts during the years ended December 31, 2011 and 2010.

Investments - Each participant directs the allocation of his or her contribution, and employer minimum and discretionary matching contributions to one or more of 45 investment options.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Basis of Accounting - The financial statements of the Plan have been prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition - Investments are measured at quoted prices in an active market and have been certified complete and accurate by Principal Trust Company and Great-West Life and Annuity Insurance Company, the Plan's trustees (Note 5). Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Expenses - Administrative expenses incurred in the administration of the Plan are paid by both the Plan and the Company.

Risk and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Reclassifications - Certain reclassifications, which have no effect on the net increase in net assets available for benefits, have been made in the prior year amounts to conform with current year presentation.

Subsequent Events - The Plan evaluated subsequent events through August 24, 2012, the date these financial statements were available to be issued. With the exception of the matter discussed in Note 5, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3 - INVESTMENTS (Continued)

During 2011 and 2010, the Plan's investments (including, gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2011	2010

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Level 2 (continued)	If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Interest-bearing cash: Valued at market value of corresponding currency at year end

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment companies (Mutual funds): Valued at the net asset value (NAV) of shares held by the Plan at year end.

Pooled separate accounts: Common stock held in the pooled separate accounts are valued at closing price reported on the active market on which the individual securities are traded. Mutual funds held in the pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year end.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

NOTE 5 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEES AND SUBSEQUENT EVENT

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company and Great-West Life and Annuity Insurance Company, the trustees of the Plan, have certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010.

- Net appreciation (depreciation) in fair value of investments, interest and dividends reflected on the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2011 and 2010.

Effective June 2011, all Plan assets were transferred from Great-West Life and Annuity Insurance Company to Principal Trust Company, with the exception of funds held in the Guaranteed Portfolio Fund. By contract agreement, the transfer of these funds was deferred for a period of twelve months. At December 31, 2011, the Plan had $1,123,391 invested in the Guaranteed Portfolio Fund held with Great-West Life and Annuity Insurance Company. Great-West Life and Annuity Insurance Company has certified to the completeness and accuracy of the Guaranteed Portfolio Fund as of December 31, 2011 and 2010 and related investment activity for the years then ended.

In June 2012, the funds held in the Guaranteed Portfolio Fund were fully transferred to the Principal Trust Company.

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

During 2011, the Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company (Principal Life). Principal Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal Life. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $2,531,577 and none, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100% of his or her account balance as of the date of termination.

NOTE 8 - TAX STATUS

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designated and being operated in compliance with the applicable requirement of the IRC.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. During 2011, the IRS concluded its audit of the Plan for the year ending December 31, 2009, which resulted in no changes. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by Principal Life Insurance Company (Principal Life) and Great-West Life and Annuity Insurance Company (Great-West). Principal Life and Principal Trust Company (Principal Trust) are both owned by Principal Financial Group, Inc. Principal Trust and Great-West are the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan pays administrative expenses to parties-in-interest who provide services to the Plan and for whom a statutory exemption exists. Additionally, notes receivable from participants are considered party-in-interest transactions.
