DMA Claims, Inc. 401(k) Profit Sharing Plan
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2011

Note 1 – Description of the Plan

The following brief description of the DMA Claims, Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. The Plan agreement should be referred to for a more complete description of the Plan's provisions.

General

The Plan, adopted as of July 1, 1998, is a defined contribution plan covering substantially all employees of DMA Claims, Inc., DMA Claims Management, Inc. and Insurance Servicing & Adjusting Company (ISAC) (collectively, the "Employer"). The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (the "ERISA"). On January 31, 2008, assets totaling $137,710 from the David Morse & Associates, Inc. III 401(k) Profit Sharing Plan (an affiliated plan) were merged into the Plan. Simultaneous to the merger, the combined plan changed its name to DMA Claims, Inc. 401(k) Profit Sharing Plan. On August 15, 2011, assets totaling $612,857 from the ISAC 401(k) Plan (an affiliated plan) were merged into the Plan.

Eligibility

Employees who have attained 21 years of age and completed at least twelve months or 1,000 hours of service are eligible to participate in the Plan. Participants can enroll in the Plan on January 1 or July 1 immediately following satisfaction of eligibility requirements.

Contributions

The Plan provides for both employee and employer contributions. Each year employees may contribute to the Plan a certain percentage of their pre-tax annual compensation as defined in the Plan. Employees may also contribute amounts representing distributions from other qualified benefit plans. The employee contribution is subject to the maximum amount permitted for such deferral under the applicable provision of the Internal Revenue Code, which was $16,500 for 2011. In 2011, the Employer did not make a matching contribution to the Plan. However, the Employer may make, at its discretion, a profit sharing contribution as determined by its Board of Directors.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Employer's contribution and, (b) Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of the Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in annual increments of 20 percent, vesting at 20 percent after the second year of credited service, and up to 100 percent after the sixth year of credited service.

Payment of Benefits and Forfeited Accounts

A participant's Plan benefits will be distributed at retirement, death, disability or upon termination of employment. Normal retirement age is 65 years. The Plan does not permit early retirement. The benefits will be paid to the participant or beneficiary in accordance with the provisions of the Plan. That portion of an employee's interest, which is not vested upon the employee's break in service, is forfeited. The non-vested forfeited balances will be reallocated as of the end of the Plan year to the participants in the same manner as Employer's contributions. At December 31, 2011 and 2010, the balance in the forfeited non-vested account was $740 and none.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to 50 percent of their total vested balance, subject to a minimum of $1,000 and a maximum amount of $50,000. The loans are secured by the vested balance in the participant's account. The Plan provisions require a reasonable interest rate to be charged on the loans. Principal and interest is paid ratably through regular payroll deductions. At December 31, 2011 and 2010 the outstanding notes receivable from participant balances were $169,191 and $123,503, respectively.

Tax Status

The Plan is based on a volume submitter profit sharing 401(K) plan agreement. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 granting approval to the volume submitter. Under this arrangement the Plan is not obligated to file for a separate determination letter. Although the Plan has been amended, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 1 – Description of the Plan (Continued)

Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions in the various investment options offered by the Plan, including mutual funds. Participants should read the prospectus for more information on each investment choice available under the Plan.

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in fair value of investments or net depreciation in fair value of investments which consist of realized gains and losses and changes in the unrealized appreciation (depreciation) on those investments. Investment income is allocated to participant accounts based on each participant's investment allocation.

Note 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

The Plan has entered into an administration agreement with Wilmington Trust (Wilmington). Wilmington maintains the contributions primarily in mutual funds. All of the Plan's investments are stated at fair value. Quoted market prices are used to value the mutual funds investment. Purchases and sales of securities are recorded on a trade basis. Common or collective trusts contained assets of two or more unrelated plans that were pooled for investments purposes. The Plan owned units of participation in the fair value of the trust's underlying assets. Common or collective trusts were not guaranteed by the previous trustee and the value of the investment in these trusts would increase or decrease to reflect the investment experience of the underlying assets. The collective investment trust was fully benefit-responsive and was reported at fair value and adjusted to contract value. Contract value represented the accumulated contributions plus accrued net earnings less distributions. Interest income is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are classified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments are recorded when paid. As of December 31, 2011 there were $422,636 of benefits payable to participants who were terminated prior to December 31, 2011.

Note 3 – Fair Value Measurements

The Plan follows Accounting Standards Codification No. 820-10, "*Fair Value Measurements and Disclosures*" (ASC 820-10). ASC 820-10 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10 are described below:

Level 1 Inputs —Valuations based on unadjusted quoted prices in active markets for identical assets. The fair value of investments included in the Level 1 category is based on quoted prices that are readily and regularly available in an active market.

Level 2 Inputs —Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly.

Note 3 – Fair Value Measurements (Continued)

Level 3 Inputs —Valuations based on inputs that are unobservable and involve the Plan's own assumptions about market participants and pricing.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of valuation methodologies used for fair value measurement of investments:

Mutual funds	Mutual funds are valued at quoted prices in active markets, based on the number of shares held by the Plan at year end.
Money market funds	Fair value is measured at the closing price reported on the active market on which the individual securities are traded.
Common/collective trusts	Common/collective trusts are valued at the net asset value of shares or units held by the Plan based on quoted market values of the underlying funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

Note 3 – Fair Value Measurements (Continued)

The Plan considers the carrying amount of contributions receivable to approximate their fair value due to the short maturity.

Note 4 – Common/Collective Trust

At December 31, 2010, the Plan had a fully benefit-responsive investment contract with The Union Bank of California Stable Value Fund (the Fund). The contract was included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by the Fund. Contract value represented investment principal plus accrued interest thereon. The contracts were nontransferable but provided for benefit responsive withdrawals and participant transfers to noncompeting options by Plan participants at contract value. The contract had certain restrictions that impacted the ability to collect full contract value, for example, termination or partial termination of the fund. Issuers could terminate the investment contract upon the event of default by the contract holder.

The Fund was contractually obligated to pay the principal and a specified interest rate that was guaranteed to the Plan. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than 0%. Such interest rates were reviewed on a monthly basis for resetting.

In August 2011, the Plan transferred all of its assets to a new trustee and liquidated its investments in common/collective trusts.

Note 5 – Plan Termination

Although it has not expressed its intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100 percent vested in their accounts.

Note 6 – Information Certified by the Plan Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

Note 8 – Party-In-Interest Transactions

During the year ended December 31, 2011, there were no party-in-interest transactions that are prohibited by ERISA, Section 406 and for which no statutory or administrative exemption exists.

Note 9 – Administrative Expenses

The Company employs an outside administrative provider for the Plan. Their costs and other administrative costs incurred by the Plan are included in the Plan financial statements.

Note 10 – Risks and Uncertainties

The Plan provides for various investment options in any combination of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 11 – Subsequent Events

The Company has evaluated subsequent events through August 27, 2012, the date the financial statements were available to be issued and determined that no matters required disclosure.
