Independent Auditor's Report

We were engaged to audit the accompanying statements of net assets available for benefits of the Cambro Manufacturing Company Employees 401(k) Retirement Plan (the "Plan") as of December 31, 2011 and 2010, and the statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of Schedule H, line 4i - Schedule of Assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company (FMTC), the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from FMTC as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Cambro Manufacturing Company ("Company") Employees 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees of the Company who have three months of service as defined and age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants are automatically enrolled upon eligibility, and may contribute to the Plan a percentage of their wages, or a specified deduction, not to exceed the annual limitation amount determined by the Internal Revenue Service. The Company contributes to each participant's account a matching contribution equal to 50% of the participant's deferred salary that does not exceed 6% of compensation, after the participant has obtained one year of service.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $-0- and $-0-, respectively. These accounts will be used to reduce future employer contributions. During 2011 and 2010, employer contributions were reduced by forfeitures of $13,565 and $4,149, respectively.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Note 1. Description of Plan - continued

Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account, either in a lump-sum or annual installments over a period of not more than the assumed life expectancy. In-service distributions from a participant's account may be permitted if the participant has a financial hardship for certain qualifying expenses as defined in the plan document, or if the participant has attained age 59½.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to the lesser of 50% of their vested account balance or $50,000. Loan transactions are treated as a transfer between their investment fund and loan security accounts. Loan terms range from 1-5 years, unless the loan is used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined quarterly by the plan administrator. Loans must bear a reasonable rate of interest and require regular, periodic repayment through substantially level amortization.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in various investment options offered by the investment contract with Fidelity Management Trust Company ("FMTC"), the Trustee of the Plan.

Participants may change their investment options on a daily basis directly with FMTC.

Note 2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Note 2. Summary of Accounting Policies - continued

Investments - The investments in all of the funds, except the Stable Value Fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Stable Value Fund is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Fair value of the investment in the Stable Value Fund is calculated based on the contract value as provided for in the provisions of the contract.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administration Costs

The Company pays directly for all costs that the Plan incurs. Participants who borrow against their account balance pay an administrative loan fee of $50.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events for potential recognition and disclosure through July 27, 2012, the date the financial statements were available to be issued.

Note 3. Plan Termination Option

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 4. Income Taxes

The Company has adopted a Volume Submitter 401(k) and Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or DOL. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 5. Information Prepared and Certified by Custodian (Unaudited)

The following unaudited information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by FMTC for 2011 and 2010.

	2011	2010
Investments, at fair value	$25,112,815	$24,973,562
Loan accounts	$ 1,962,492	$ 1,560,744
Interest and dividends	$ 648,169	$ 466,263
Net appreciation (depreciation) in fair value of investments	($ 1,241,212)	$ 2,290,933

Note 5. Information Prepared and Certified by Custodian (Unaudited) - continued

The following investments represent 5% or more of net assets of the Plan at December 31, 2011 and 2010:

	2011	2010
Fidelity Stable Value Fund	$2,984,341	$2,414,892
FA Freedom 2010A	1,201,259	1,538,953
FA Freedom 2020A	2,795,743	2,801,909
FA Freedom 2030A	3,734,247	3,648,482
FA Freedom 2015A	2,847,445	2,998,333
FA Freedom 2025A	4,043,298	4,184,386
FA Freedom 2035A	1,576,272	1,609,437

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) changed in value by ($1,241,212) and $2,290,933, respectively.

Note 6. Reconciliation of Financial Statements to Form 5500

The Schedule H - Asset and Liability Statement differs from the financial statements as a result of recording a liability on the financial statements for excess contributions of $25,172 to satisfy the relevant nondiscrimination provisions of the Plan. That liability less the 2010 liability of $47,466 is included with benefits paid to participants on the Plan's statement of changes in net assets available for benefits. In addition, the net investment gain/loss on the Form 5500 is $53,255 less than the net depreciation in fair value of investments as reported on the financial statements as a result of the increase of the adjustment from fair value to contract value for the Plan's investment in a fully benefit-responsive investment.

Note 7. Common Collective Trust Investment

The Stable Value Fund, an investment option offered by the Plan, is a common collective trust that is fully invested in investment contracts deemed to be fully benefit-responsive. Fully benefit-responsive contracts are valued at fair value and adjusted to contract value. Contract value is the relevant measure to the Plan because it is the amount that is available for Plan benefits.

In the Statements of Net Assets Available for Benefits, the Plan is required to reflect this investment at fair value, with a corresponding adjustment to contract value. The fair value of this fund as of December 31, 2011 and 2010 was $3,082,756 and $2,414,892, respectively. The contract value of the fund as of December 31, 2011 and 2010, which is a component of net assets available for benefits, was $2,984,341 and $2,369,731, respectively. The average yield and crediting interest rates for the year ended December 31, 2011 for the Stable Value Fund was 1.74% and 1.26%, respectively.

Note 8. Fair Value Measurements

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Basis of Fair Value Measurement:

Level 1 Unadjusted quoted prices in active markets for identical unrestricted assets or liabilities that the Plan has the ability to access.

Level 2 Quoted prices for similar assets in active markets, quoted prices for identical assets in markets that are not active, and inputs derived principally from observable market data.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued at the closing price reported on the active market on which the individual funds are traded.

Fidelity Prime Fund and Lifecycle Funds: Valued at the net asset value ("NAV") of shares held by the plan at year-end as calculated by Fidelity, and dependent upon the type of underlying investment.

Participant Loans: Valued at amortized cost, which approximates fair value.

Fidelity Advisor Stable Value Fund: Valued at market value of underlying investments of common collective trust's vendor or pricing agent.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 8. Fair Value Measurements - continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

Total assets at fair value	$22,558,670	$ 2,414,892	$ -	$24,973,562

Note 9. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity is the trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for administrative loan fees were $7,775 for the year ended December 31, 2011.

Note 10. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
