1. DESCRIPTION OF PLAN:

The following description of the Paul H. Rohe Company (the "Company") 401(k) Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all hourly employees of the Company who have completed six months or 500 hours of service and are age twenty-one or older, except employees that are members of a collective bargaining unit, clerical or office employees, or those employed as foremen at Walls Bros. Asphalt Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Internal Revenue Code). The Plan also allows for after tax contributions or Roth 401(k) contributions. The combined pre-tax and after tax contributions cannot exceed established Internal Revenue Service limits. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various mutual funds and one common/collective trust offered by the Plan. The Company currently makes matching contributions equal to 100% of the first 2% and 50% of the next 4% of base compensation that a participant contributes to the Plan. All employer contributions are invested as directed by the participants. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited accounts

In the event a participant terminates employment prior to 100% vesting, the portion of the employer contributions not vested is forfeited at that time. The forfeited amounts may be used to reduce future employer contributions, pay plan expenses, or reallocated to eligible participants. At December 31, 2011 and 2010, there were approximately \$18,700 and \$14,800, respectively, of forfeited nonvested accounts available. No amounts were used to offset employer contributions or plan expenses for the year ending December 31, 2011.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest 20% per year until they are fully vested after five years.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or various options for monthly annuity payments over their remaining lifetime or the lifetime of their spouse. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

2. SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statement of net assets available for benefits presents the fair value of the investment in the common/collective trust as well as the adjustment of the fully benefit-responsive investment contracts in the common collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

The Plan pays any expenses not paid by the Company.

Subsequent events

The Plan has evaluated subsequent events through September 10, 2012, the date the financial statements were available to be issued.

3. CERTIFIED INFORMATION:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fifth Third Bank, the custodian, has certified to the completeness and accuracy of all of the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, and the schedule of assets (held at end of year) as of December 31, 2011, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011.

4. INVESTMENTS:

Fund balances that represent 5% or more of the Plan's net assets at December 31, 2011 and 2010, are as follows:

	<u>2011</u>	<u>2010</u>
Fifth Third Stable Value Fund C (at contract value)	\$ 316,164	361,131
American Funds Growth Fund of America R4	312,057	333,929
MFS Total Return Fund	257,893	255,755
Pimco Total Return – Inst	157,303	**
Morgan Stanley Inst Mid Cap Growth P	157,131	-
American Funds New Perspective Fund R4	86,871	85,981
Fidelity Advisor Mid Cap - T	**	165,672
Fifth Third Total Return Bond Instl	**	76,957

** Fair value does not represent 5% or more of the Plan's net assets available for benefits

During the year ended December 31, 2011, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$(56,983) for mutual funds and \$2,834 for common/collective trusts.

5. FAIR VALUE MEASUREMENTS:

Financial Accounting Standards Board (FASB) provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the plan at year end.

Common collective trust: The collective trust fund is valued using a net asset value (NAV) provided by the manager of the fund. The NAV is based on the underlying assets owned by the fund. The significant investment strategy of the fund is described in the financial statements provided by the fund. There are no restrictions on redemptions from the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010:

Investments at Fair Value Measurements as of December 31, 2011

6. RELATED-PARTY TRANSACTIONS:

Certain Plan investments are shares of investments managed by Fifth Third Bank. Fifth Third Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

7. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all their employer contributions.

9. TAX STATUS:

The Internal Revenue Service has determined and informed the Company by letter dated March 7, 2011, that the Plan and related trust are designed to be exempt from income taxes in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

The following reconciles net assets available for benefits per the financial statements to Form 5500:
