Notes to Financial Statements

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Tanner Construction Company 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a participant directed, defined contribution plan covering all employees of Tanner Construction Company (the "Company") meeting the service requirements of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make contributions to the Plan in the form of salary reductions subject to a maximum dollar limitation as determined by the Internal Revenue Service. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer contributions are discretionary. Employer discretionary contributions are allocated based upon compensation of the participants and may vary for certain employees in order to meet special tests prescribed by law. No employer discretionary contribution was made in the years ending November 30, 2011 and 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions plus actual earnings thereon. The Plan provides for a vesting formula in the portion of a participant's account derived from Employer discretionary contributions as follows:

Years of Service	Percentage Vested and Nonforfeitable
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years	100%

There were no forfeitures for the years ending November 30, 2011 and 2010.

Notes Receivable from Participants

The Plan does not allow participant loans.

Notes to Financial Statements

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account or installment payments over a period not to exceed the life expectancy of the participant or his or her designated beneficiary. All benefits are recorded when paid.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

The Plan provides for various investment options in several investment securities and instruments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks and values in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

In connection with the preparation of the financial statements, management of the Company evaluated subsequent events through September 4, 2012, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition

Under the terms of trust agreements between BancorpSouth Bank and the Plan, the trustee has been granted discretionary authority over purchases and sales of investments within each fund. Contributions are invested in various investment funds, in such proportions as the participant directs.

Cash and cash equivalents are stated at cost, which approximates fair value. Investments of the Plan consist of mutual fund investments and are stated at fair value. All such fair values of mutual funds were derived using quoted closing prices in active markets.

Fair Value Measurements

The Plan utilizes a fair value hierarchy which maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. Three levels of inputs are used to measure fair value:

- Level 1** Valuations based on unadjusted quoted prices for identical assets in active markets accessible at the measurement date.

Tanner Construction Company

401(K) Profit Sharing Plan

Notes to Financial Statements

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

- Level 2** Valuations derived for similar assets in active markets, or other inputs that are observable or can be corroborated by market data.
- Level 3** Valuations derived from unobservable (supported by little or no market activity) inputs that reflect an entity's best estimate of what hypothetical market participants would use to determine a transaction price at the reporting date.

When quoted market prices in active markets are unavailable, the Plan determines fair values using various valuation techniques and models based on a range of observable market inputs including pricing models, quoted market price of publicly traded securities with similar duration and yield, time value, yield curve, prepayment speeds, default rates and discounted cash flow. In most cases, these estimates are determined based on independent third party valuation information, and the amounts are disclosed in Level 2 of the fair value hierarchy. If quoted market prices and independent third party valuation information are unavailable, the Plan produces an estimate of fair value based on internally developed valuation techniques, which, depending on the level of observable market inputs, will render the fair value estimate as Level 2 or Level 3. On occasions when pricing service data is unavailable, the Plan may rely on bid/ask spreads from dealers in determining fair value. The Plan generally obtains one quoted market price or dealer quote per instrument. When dealer quotations are used, the Plan uses the mid-mark as fair value.

New Accounting Standard

In May 2011, the FASB issued a standard which clarifies existing fair value measurements and disclosure requirements, amends certain fair value measurement principles and requires additional disclosure about fair value measurements. The requirements are effective for fiscal years beginning after December 15, 2011. The Plan's management does not expect the provisions of this standard to have a material impact on the Plan's financial statements.

NOTE 3 – INVESTMENT SECURITIES

Investments of the Plan are held by a broker-administered trust fund. The following presents investments that represent 5 percent or more of the Plan's net assets:

NOTE 3 – INVESTMENT SECURITIES (Continued)

During the years ended November 30, 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$7,024 and \$53,317, respectively.

NOTE 4 - INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

BancorpSouth Bank serves as the trustee of the Plan. The trustee has certified as to the accuracy and completeness of the information included in the accompanying financial statements and supplemental schedule as follows:

- A. Investments, at fair value and related income and expenses
- B. Dividends and interest receivable
- C. Assets held for investment
- D. Investment purchases and sales

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 6 – INCOME TAX STATUS

The Plan adopted is a prototype plan which meets the requirement of Section 401 of the Internal Revenue Service code and is exempt from taxation. The Plan obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
