INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Concrete Express, Inc. 401(k) Profit Sharing Plan

We were engaged to audit the Statement of Net Assets Available for Benefits of the Concrete Express, Inc. 401(k) Profit Sharing Plan, as of December 31, 2011 and 2010, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011, and the supplemental schedule as of and for the year ended December 31, 2011, as listed in the accompanying contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes G and H, which was certified by Standard Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, the scope of our work was not sufficient to enable us to express and we do not express an opinion on these accompanying financial statements and supplemental schedule. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements. A Description of Plan.

The following description of the Concrete Express, Inc. 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1 **General.** The Plan is a defined contribution plan covering all full time employees of the Company who have three months of service, are age twenty-one or older and are not covered by a collective bargaining agreement. The Plan consists of a Profit Sharing Plan and a 401(k) Plan. An employee must have worked at least 1,000 hours during the year, and must be employed on the last day of the Plan year in order to be eligible to receive the Company's discretionary annual profit sharing contribution. The Plan covers employees rendering services for the employer on contracts subject to the Davis-Bacon Act, Service Contract Act, or other Federal, State or Municipal prevailing wage laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2 **Contributions.** Each year, participants may contribute up to the amount allowed by law of pretax annual compensation, as defined in the Plan. For the years ended December 31, 2011 and 2010, the amount was $16,500 for both years. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may, at its discretion, make a contribution in an amount to be determined each Plan year, and allocated according to the Plan. Contributions are subject to certain limitations. The Company contributions to the Plan for employees, subject to prevailing wage laws, are determined by the employer based on rates that satisfy the wage determination issued by the governmental agency responsible for the contract.

3 **Participant Accounts.** Each participant's account is credited with the allocation of (a) the participant's contributions, (b) the Company's contribution, (c) Plan earnings, (d) participants' rollovers, and (e) forfeitures of terminated participants' non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

4 **Vesting.** Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Participants are immediately vested in contributions subject to prevailing wage laws.

A Description of Plan. (Continued)

5 **Investment Options.** Upon enrollment in the Plan, contributions will be allocated between accounts as directed by the participant in accordance with the investment allocation form provided by the employer. Participants may change their investment options at any time.

6 **Forfeited Accounts.** At December 31, 2011 and 2010, the balance of the forfeited accounts totaled $7,208 and $6,740, respectively. The forfeiture account balance can be used to offset future employer contributions and Plan administrative expenses. During the years ended December 31, 2011 and 2010, the Company applied forfeitures against the employer match in the amount of $-0- for both years. During the years ended December 31, 2011 and 2010, the Company used forfeitures to offset Plan expenses in the amount of $2,894 and $2,838, respectively.

7 **Participant Notes Receivable.** Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate, determined at the time the loan is granted. Principal and interest is paid ratably through weekly payroll deductions.

8 **Payment of Benefits.** Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

9 **Administrative Expenses.** Certain expenses of maintaining the Plan are paid directly by the Company. Loan administration fees are charged directly to the participant's account and are included in administrative expenses. Administrative expenses paid out of Plan assets for the years ended December 31, 2011 and 2010, were $7,246 and $7,980, respectively.

B Summary of Accounting Policies.

1 **Basis of Accounting.** The financial statements of the Plan are prepared using the accrual method of accounting.

B Summary of Accounting Policies. (Continued)

2 **Estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

3 **Investment Valuation and Income Recognition.** The investments of all the funds, except the fully benefit responsive investment contract, are presented at fair value based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fully benefit responsive investment contract is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings less distributions.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contact value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

4 **Payment of Benefits.** Benefits are recorded when paid.

5 **Notes Receivable from Participants.** Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans may be reclassified as benefits paid to participants based upon the terms of the Plan documents.

B Summary of Accounting Policies. (Continued)

6 Subsequent Events. In preparing its financial statements, the Company has evaluated subsequent events through July 12, 2012, which is the date the financial statements were available to be issued. The Company has not identified any material subsequent events that require reporting or disclosure.

C Fair Value Measurements.

The Plan's investments are reported at fair value in the accompanying Statement of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels, and all of the Plan's investments are valued using inputs considered Level 2 and Level 3.

Level 2 Fair Value Measurements.

The fair value of mutual funds is based on quoted net asset values of similar assets in active markets at year end.

Level 3 Fair Value Measurements.

Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields or similar instruments with comparable durations considering the creditworthiness of the issuer.

C. Fair Value Measurements. (Continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010:

Investments at Fair Value as of December 31, 2011

	Fair Value	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

D Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

E Tax Status.

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income taxes. The Plan is a prototype plan which received a determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. As of July 1, 2009, a restated 401(k) Profit Sharing Plan was put into place by the Company to be in compliance with the Internal Revenue Code. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRS and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

F Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

G Investment Contract with Insurance Company.

The Plan entered into a benefit responsive investment contract with Standard Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

G Investment Contract with Insurance Company. (Continued)

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Standard represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010, was $457,962 and $468,200, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting.

The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by Standard Insurance Company.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Standard. The plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with the Plan participants is not probable.

I Related Party Transactions.

For the years ended December 31, 2011 and 2010, the Plan has invested in a benefit responsive investment contract which is mentioned above in Note G. Standard Insurance Company is the custodian and the third party administrator, providing recordkeeping services, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees and commissions paid by the Plan for investment management and recordkeeping services amounted to $7,246 and $7,980, respectively, for the years ended December 31, 2011 and 2010.
