Note 1. Plan Description

The following brief description of the ViraCor-IBT Laboratories, Inc. 401(k) Plan (the Plan) is provided for general information purposes. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established January 1, 2000 as a defined contribution plan formed for eligible Company employees. The Plan Sponsor of the Plan is ViraCor-IBT Laboratories, Inc. (the Company). The Plan and the Trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Change in legal name and reporting: Effective January 1, 2011, the name of the Plan was formally changed from ViraCor Management, LLC 401(k) Plan to ViraCor-IBT Laboratories, Inc. 401(k) Plan.

Eligibility: Employees must have completed at least 1 month of service to participate in the salary reduction portion of the Plan.

Employees must have attained 21 years of age and completed at least 1,000 hours of service in a consecutive period of 12 months to participate in the employer matching and safe harbor nonelective portions of the Plan.

The employee may enter the Plan on the first day of the pay period following completion of the eligibility requirements described above. Employees covered by a collective bargaining agreement are not eligible to enter the Plan.

Contributions: Each year, participants may contribute any percentage (subject to the maximum allowed by the Internal Revenue Service) of their pretax annual compensation, as defined in the Plan. In lieu of pretax contributions to the Plan, participants, may contribute any percentage (subject to the maximum allowed by the Internal Revenue Service) of their after tax annual compensation as defined in the Plan, as ROTH elective contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may direct the investment of their contributions into various investment options offered by the Plan.

The Company makes safe harbor nonelective contributions equal to 3% of the employee's total compensation as defined by the Plan. For the Plan year ended December 31, 2011, the safe harbor nonelective contribution was \$419,932, and this amount is included in employer contributions.

The Company also makes an employer matching contributions equal to 100% of each participant's deferral, up to 2% of the participant's compensation. For the Plan year ended December 31, 2011, the matching contribution was \$284,555.

Participants have the option of directing their contributions and the allocations of the employer safe harbor nonelective contributions and the employer matching contributions to any of the selected investment options as made available and determined by the Plan Administrator and John Hancock Life Insurance Company (U.S.A.).

Contributions are subject to certain limitations.

Note 1. Plan Description (Continued)

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, employer matching contributions, employer safe harbor nonelective contributions, and allocations of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may change their investment options monthly via the phone or the Internet.

Vesting: Participants are vested immediately in their salary reduction contributions and employer safe harbor nonelective contributions, plus the actual earnings thereon. Vesting in employer matching contributions plus earnings thereon is based on years of continuous service according to the following schedule:

Years of Service	Employer Matching Contribution Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants: Effective January 1, 2011, notes receivable from participants held by Progene Biomedical Laboratories, Inc. 401(k) Plan were merged into the Plan. The Plan does not have a provision for notes from participants. The outstanding note receivables are secured by the balance in the participant's account and bear interest rates at 5.25%. Principal and interest are paid ratably through monthly payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: On termination of service because of death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account, or installment payments, but only for required minimum distributions as defined by the Plan. On termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service distributions are not permitted unless the participant has attained age 59 ½, certain hardship conditions are met, or rollover contributions are available.

Forfeitures: Forfeitures of terminated participants' nonvested balances are used to reduce employer safe harbor nonelective contributions and may be used to reduce administrative expenses. During the year ended December 31, 2011, \$9,720 of forfeitures was applied to reduce employer discretionary contributions. There were no forfeited nonvested accounts at December 31, 2011 and 2010, respectively.

Note 2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements.

Basis of accounting: The accompanying financial statements of the Plan have been prepared on the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*, which requires new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. This update also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters related to reconciliation of Level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2010. The adoption of this amendment did not have any effect on the Plan's financial position or liquidity.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, Fair Values Measurements. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of this guidance is not expected to have any effect on the Plan's financial position or liquidity.

Note 3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.)

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate to the best of its knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedules related to the following assets:

	December 31,	
	2011	2010
Investments at fair value:		
Pooled separate accounts	\$ 8,149,204	\$ 4,771,223
Guaranteed interest accounts	27,239	5,429
	<u>\$ 8,176,443</u>	<u>\$ 4,776,652</u>
Notes receivable from participants	17,201	-

John Hancock Life Insurance Company (U.S.A.) also certified to the completeness and accuracy of \$367,540 of net depreciation in fair value of investments and \$252 of interest and \$992 of interest income on notes receivable from participants related to the aforementioned plan assets for the year ended December 31, 2011.

Note 4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the topic are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

ViraCor-IBT Laboratories, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at the net asset value ("NAV") of the underlying assets at the end of the Plan year.

Guaranteed interest contracts: Valued at the principal contributed plus compounded interest over the term of the investment, less any applicable contract or participant-level recordkeeping charges.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010. The following table presents separately those assets that represent 5 percent or more of the Plan's net assets:

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2011 and 2010.

- (a) The category seeks high total return until its target retirement date. To pursue this goal, the category, which is a fund of funds, invests, under normal market conditions, substantially all of its assets in underlying funds using an asset allocation strategy designed for investors according to when the investor expects to retire.
- (b) The category seeks long-term growth of capital. Current income is not a consideration. To pursue this goal, the category, which is a fund of funds, normally invests approximately 100% of its assets in underlying funds that invest primarily in equity securities.
- (c) The category seeks a balance between a high level of current income and growth of capital, with a greater emphasis on growth of capital. To pursue this goal, the category, which is a fund of funds, normally invests approximately 60% of its assets in underlying funds that invest primarily in equity securities and approximately 40% in underlying funds that invest primarily in fixed-income securities.
- (d) The category seeks a balance between a high level of current income and growth of capital, with a greater emphasis on income. To pursue this goal, the category, which is a fund of funds, normally invests approximately 20% of its assets in underlying funds that invest primarily in equity securities and approximately 80% in underlying funds that invest primarily in fixed-income securities.
- (e) The category seeks long-term growth of capital. Current income is also a consideration. To pursue this goal, the category, which is a fund of funds, normally invests approximately 80% of its assets in underlying funds that invest primarily in equity securities, and approximately 20% in underlying funds that invest primarily in fixed-income securities.
- (f) The category seeks long-term growth of capital. Current income is also a consideration. To pursue this goal, the category, which is a fund of funds, normally invests approximately 40% of its assets in underlying funds that invest primarily in equity securities and approximately 60% in underlying funds that invest primarily in fixed-income securities.
- (g) The pooled separate accounts in this category seek long-term total return and long-term growth of capital by investing in the following: stocks of issuers in Europe and the Pacific Basin, the common stock of emerging and developing markets throughout the world, stock of smaller companies both domestic and foreign, and equity securities of technology companies. Some funds within this category also seek to track the performance of the Russell 2000 Index and the MSCI US Small Cap Growth Index.
- (h) The pooled separate accounts in this category seek long-term capital growth and current income. To pursue this goal, these funds invest in small companies whose common stocks are believed to be undervalued, equity and debt securities of domestic and foreign companies, investments in companies located in developed or emerging markets, blue chip stocks issued in the world's largest stock markets, real estate investment trusts, and real estate companies.

ViraCor-IBT Laboratories, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- (i) The investment objective of the pooled separate accounts in this category is to provide long-term capital appreciation, and growth of capital. The funds seek to attain this object by investing in common and preferred stocks, debt securities, convertible securities trading at below their intrinsic value, securities of companies involved in mergers, consolidations, liquidations, and reorganizations, foreign securities with small market capitalization, and common stock of U.S. companies with market capitalization of at least \$5 billion. Also included in this category is a fund which seeks to approximate the total return of a broad U.S. domestic equity market, by attempting to track the performance of the S&P 500 Composite Stock Price Index.
- (j) The pooled separate accounts in this category seek to maximize total return, maximize real return, and provide capital appreciation. The funds seek to attain this object by investing in high yield bonds issued by U.S. and foreign corporations and governments, United States and foreign equity securities, inflation-indexed bonds issued by U.S. and non-U.S. governments.
- (k) The pooled separate account in this category seeks maximum current income consistent with the preservation of principal and liquidity by investing in high quality, money market instruments, with maturities of 397 days or less issued primarily by U.S. entities.
- (l) Guaranteed interest accounts is an investment option offered under the John Hancock group annuity contract, which is held in John Hancock's general account. This investments guarantees the return of principal plus compound interest earned over a defined 3 or 10 year term, less any applicable contract or participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed account in that month. At the end of each reporting year, a composite rate of interest is determined for each participant account, and contributions continue to earn the calculated composite interest rate for the duration of the guarantee term.

Note 5. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain expenses of auditing the Plan are paid by the Plan sponsor. Administrative expenses related to distributions and special calculations are paid by the Plan. However, the Plan document provides that administrative expenses may be paid through forfeitures.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes to Financial Statements

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate or amend the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 8. Income Tax Status

The Plan has adopted a volume submitter document. The volume submitter plan has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status as of March 31, 2008. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Note 9. Related-Party Transactions

Certain Plan investments are shares of pooled separate accounts and guaranteed interest accounts managed by John Hancock Life Insurance Company (U.S.A.). John Hancock Life Insurance Company (U.S.A.) is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are netted against investment income. In addition, other administrative expenses paid to John Hancock Life Insurance Company (U.S.A.) were \$7,494 for the year ended December 31, 2011.

Note 10. Prohibited Transactions

During 2007 to 2010, the Plan sponsor inadvertently failed to deposit \$908,974 of participant deferrals within the required time frame as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan sponsor filed Form 5330 and paid applicable excise tax in 2011. The excise tax payments were made from the Plan sponsor's assets and not from assets of the Plan.

Note 11. Assets Transferred into the Plan

Effective January 1, 2011, assets of \$2,636,230, which included notes receivable from participants, were transferred into the Plan. In addition, all participants formerly of the Progene Biomedical, Inc. 401(k) Plan became participants of the Plan effective January 1, 2011.
