To the Participants and Administrator of the
L-3 Communications Pension Plan for Certain Divisions:

In our opinion, the accompanying Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010 and the related Statements of Changes in Net Assets Available for Benefits for the years then ended and the Statement of Accumulated Plan Benefits as of January 1, 2011 and the related Statement of Changes in Accumulated Plan Benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the L-3 Communications Pension Plan for Certain Divisions (the "Plan") at December 31, 2011 and changes therein for the year then ended and its financial status as of January 1, 2011, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

1. Plan Description

The following brief description of the L-3 Communications Pension Plan for Certain Divisions (the "Plan"), formerly known as the Ocean Systems Pension Plan for Salaried Employees, is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective April 1, 1998 in connection with the acquisition of the Ocean Systems division of AlliedSignal, Inc. by L-3 Communications Corporation (the "Company"), a wholly owned subsidiary of L-3 Communications Holdings, Inc. ("Holdings"). Certain participants in the Salaried Employees' Pension Plan of AlliedSignal, Inc. (the "Prior Plan") became participants in the Plan. During 1998, AlliedSignal, Inc. transferred the assets attributable to the accrued benefits of the participants from the Prior Plan to the Plan.

The Company amended and restated the Plan effective March 18, 1999 to permit employees of the Seabeam division of the Company to participate in the Plan. The Company also amended and restated the Plan effective January 1, 2000 to permit non-bargaining employees of the Space & Navigation division of the Company to participate in the Plan. Certain non-bargaining Space & Navigation employees that were participants in the Prior Plan became participants in the Plan.

The Plan is a non-contributory defined benefit plan covering employees at certain locations of the Company. Participation in the Plan commenced after completion of one year of service. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is frozen with respect to new employees of the Ocean Systems business unit hired on or after January 1, 2006 and with respect to new employees of the Space & Navigation business unit hired on or after January 1, 2007. As such, any employees hired on or after January 1, 2006 or January 1, 2007, as applicable, are not eligible to participate in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Investment in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the "Master Trust") administered by The Bank of New York Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the "L-3 Participating Plans"). The only investment of the Plan is its interest in the net assets of the Master Trust. The fair value of the Plan's interest in the Master Trust is determined based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of corporate equity securities, commingled trust funds and mutual funds, and corporate bonds. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Gain from Master Trust

The net investment gain from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment gain or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results will differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Subsequent Events

The Plan continued to evaluate events after the Statement of Net Assets Available for Benefits date through August 30, 2012, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") and minimum funding requirements under ERISA. Contributions required from the Company in 2011 and 2010 under the minimum funding requirements of ERISA were $3,005 and $3,056, respectively. Contributions are calculated using the Projected Unit Credit Actuarial Cost Method. Under this method, the total actuarial liability for participants is the actuarial present value as of the valuation date of all benefits attributed by the pension benefit formula to employee service rendered prior to that date, which assumes the normal cost will increase each year for each employee as he or she approaches retirement age. The yield (interest, dividends and net realized and unrealized gains and losses) on investments of the Plan serves to adjust future contributions that will be required to provide for the defined level of benefits. The

funding target is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.

4. Plan Benefits

For participants of the Ocean Systems and Space & Navigation divisions of the Company, the Plan provides a monthly benefit of 2.0% of Final Average Compensation for the first 25 years of service, plus 0.5% of Final Average Compensation for service in excess of 25 years, minus 2.0% of estimated social security benefits for the first 25 years of service. Final Average Compensation is the average of total compensation earned during the 5 consecutive years that produce the highest total compensation, divided by 60, or the monthly average of compensation for the 60 consecutive highest paid calendar months out of the last 120 calendar months. For participants of the Seabeam division of the Company, the Plan provides a benefit of 0.65% of earnings plus an additional 0.65% of earnings above the integration level, as defined in the plan document, for each Plan year credited service is earned. Benefits vest 100% after 5 years of service and are payable at age 65. All participants in the Plan who were employees of the Seabeam division of the Company were either term vested or in payment status as of December 31, 2009. Service in the Prior Plan is considered as service under the Plan.

For participants of the Ocean Systems and Space & Navigation divisions of the Company, the Plan permits early retirement for participants at age 55 with at least 5 years of service. The benefit may begin at the date of early retirement, reduced by 1/6% for each of the first 60 months prior to age 65, plus an additional 1/3% for each of the next 60 months prior to age 65. The Plan also provides early retirement benefits for those participants whose years of age and service total 80. For participants of the Seabeam division of the Company, the Plan permits early retirement for participants at age 55 with at least 10 years of service. The benefit may begin at the date of early retirement, reduced by an actuarial equivalence using an interest rate of 6%. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant receives benefits equal to 50% of the amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree.

The following presents the more significant assumptions underlying the actuarial computations as of January 1, 2011 and 2010.

Mortality basis	2011: RP2000 Annuitant and Non-Annuitant Tables with static projection to 2018 and 2026, respectively. 2010: RP-2000 Combined Healthy Table RP-2000 Disabled Retiree Table
Retirement	Retirement starting at 55, with 100% by age 70 in 2011 and 2010.
Discount rate for the determination of the present value of accumulated plan benefits	2011 and 2010 – 7.5%

The foregoing actuarial assumptions are based upon the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be used in determining the actuarial present value of accumulated plan benefits.

5. Master Trust Investments

The fair value of the assets and liabilities of the Master Trust at December 31, 2011 and 2010 is presented in the table below. The Plan's percentage interest in the Master Trust was 4.9% at December 31, 2011 and 5.2% at December 31, 2010.

	2011	2010
Corporate equity securities	$ 860,292	$ 778,788

Forward contracts	264	35
Accrued income	3,701	3,175
Receivable for unsettled trades	921	808
Payable for unsettled trades	(163)	(2,225)
	$ 1,472,420	$ 1,345,725

The following presents the investment gain of the Master Trust for the years ended December 31, 2011 and 2010.

	2011	2010
Net appreciation of investments	$ 9,565	$ 130,842
Interest	6,674	6,191
Dividends	29,848	21,668
Other	256	123
	$ 46,343	$ 158,824

The following presents the net appreciation (depreciation) in fair value of the Master Trust's investments, including realized gains and losses, and the unrealized appreciation and depreciation of investments for the years ended December 31, 2011 and 2010.

	2011	2010
Corporate equity securities	$ 15,978	$ 104,585
Commingled trust funds and mutual funds	(3,523)	20,585
Corporate bonds	(3,087)	5,045
Forward contracts	246	627
Other	(49)	—
	$ 9,565	$ 130,842

6. *Fair Value Measurements*

The Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets include equity securities, certain mutual funds and U.S. Treasury bonds, all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets include commingled trust funds, certain mutual funds, corporate bonds, government securities and forward contracts.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2011 and 2010, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement.

(1) Equity securities consist of investments in common stock of U.S. and foreign companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various foreign exchanges. The Level 2 investment balance is derived from a pooled equity fund offered by a registered investment company, which fair value is based on net asset value (NAV). NAV is calculated by the fund manager based on the fair value of the fund's holdings, primarily equity securities traded in active markets, determined as of the end of each month. Withdrawals are permitted monthly based on NAV.

(2) Approximately 50% in both 2011 and in 2010 of plan assets invested in fixed income — investment grade securities consist of a mutual fund offered by a registered investment company. The mutual fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. This fund is classified by the Company as a Level 1 measurement within the fair value hierarchy as the mutual fund trades on an active market and daily, quoted prices are available.

(3) The remaining 50% in both 2011 and in 2010 of plan assets invested in fixed income — investment grade securities is derived from pooled bond funds offered by registered investment companies. As these funds do not trade in an active market, the fair value is based on NAVs calculated by fund managers based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

(4) Fixed income — high yield consists of investments in corporate high-yield bonds from various industries. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

(5) Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

(6) Other consists of short term investments maintained in a commingled trust or pooled fund, which primarily invests in short term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit, which are classified as Level 2.

6. Accounting Standards Issued and Not Yet Implemented

In May 2011, the FASB issued a revised accounting standard for fair value measurement and disclosure. The revisions clarify how to measure fair value and require additional disclosures as follows: 1) transfers between Level 1 and Level 2 of the fair value hierarchy, 2) the valuation process used and the sensitivity of a fair value measurement categorized within Level 3 of the fair value hierarchy to changes in unobservable inputs, and 3) the categorization by level of the fair value hierarchy for items that are not measured at fair value in the Statement of Net Assets Available for Benefits, but for which the fair value of such items is required to be disclosed. The revised accounting standard is effective for the Company beginning after December 15, 2011, and is not expected to have an impact on the Plan's Net Assets Available for Benefits.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 11, 2008 that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2007.

8. Related Party Transactions

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by The Bank of New York Mellon, the Plan's trustee.

9. Termination Priorities

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.

b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.

c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.

d. All vested and non-vested benefits.

To the extent the Plan's net assets are not sufficient to fund the accumulated benefits upon Plan termination, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation, up to specified limits.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Plan Provisions

This subsection summarizes the major provisions of the Plan as included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

PLAN STATUS: The plan is closed to new hires effective January 1, 2006 and January 1, 2007 for Ocean Systems and Space & Navigation, respectively. Employees hired prior to these dates will receive ongoing accruals.	
Ocean Systems and Space and Navigation	
Normal retirement:	
Age requirement:	65
Service requirement:	5 years of participation (none if participant in prior Plan before January 1, 1988)
Monthly amount:	2.0% of final average compensation for the first 25 years of credited service plus 0.5% of final average compensation for credited service after 25 years, minus 2.0% of estimated Social Security benefit for the first 25 years of credited service. Final average compensation is the greater of the five complete calendar years that produce the highest total compensation, divided by 60, or the monthly average of compensation for the 60 consecutive highest paid calendar months out of the last 120 calendar months. Compensation is defined as base pay, plus variable pay, lump sum wage increases, shift differential, overtime, commissions or sales payments, performance awards paid through payroll, and short term incentive compensation.
Minimum monthly amount:	0.75% of final average compensation plus $8, for the first 30 years of credited service. Final average compensation is defined as stated above.
Special provisions for former participants in the Budd Company Pension Plan	The greater of the frozen benefit under the Budd Company Pension Plan determined as of March 31, 1995, and the retirement benefit accrued under this plan including service earned under the Budd Company Pension Plan as of April 1, 1995.
Regular early retirement:	
Age requirement:	55
Service requirement:	5 years of vesting service
Monthly amount payable until age 62:	Normal retirement pension accrued determined without regard to Social Security offset, reduced by 1/6% for each of the first 60 months and 1/3% for each of the next 60 months prior to age 65. Under the minimum benefit formula, the accrued benefit is reduced by 6/10% for each of the first 60 months and 4/10% for the next 60 months prior to age 65.

Monthly amount payable from age 62:	Normal retirement pension as above, offset by 2.0% of the estimated Social Security benefit for each of the first 25 years of credited service. There is no reduction under the minimum benefit formula.
80-Point Early retirement:	
Age and service requirement	Sum of age and years of vesting service must be at least 80.
Monthly amount payable until age 62:	Normal retirement pension accrued determined without regard to Social Security offset, reduced in the same way as for Regular early retirement, but not below 75%. There is no reduction under the minimum benefit formula. In addition, under the minimum formula a supplemental benefit of $385 each month is provided.
Monthly amount payable from age 62:	Normal retirement pension as above, offset by 2.0% of the estimated social security benefit for each of the first 25 years of credited service. There is no reduction under the minimum benefit formula.
Deferred retirement*:*	
	Additional accruals to actual retirement date
Disability benefit:	
Age requirement:	None
Service requirement:	None
Monthly amount:	Accrued benefit calculated based on credited service to disability date, payable at Normal Retirement Date.
Vesting:	
Age requirement:	None
Service requirement:	None, for participants hired prior to April 1, 1998 at Ocean Systems or hired prior to January 1, 2000 at Space & Navigation. 5 years for all others.

Death benefits:
Payable for death occurring after age 50: For deaths occurring in service, prior to attainment of eligibility to retire, but after full vesting: The greater of 20% of the participant's base pay at time of death and an amount equal to 50% of the benefit that would have been payable had the employee terminated on the date of death, survived until the earliest possible retirement age and retired on such date, payable for the life of the surviving spouse. For deaths occurring in service, after attainment of eligibility to retire: The greater 20% of the participant's base pay at time of death or an amount equal to 50% of the benefit that would have been payable had the employee retired on the date of his death, payable for the life of the surviving spouse. *Payable for death prior to age 50:* For deaths occurring in service, prior to attainment of eligibility to retire, but after full vesting: An amount equal to 50% of the benefit that would have been payable had the employee terminated on the date of death, survived to the earliest possible retirement age, retired on that date and elected the survivorship option, payable for the life of the surviving spouse. For deaths occurring after commencement of pension payments under a normal or early retirement: A one-time lump sum payment equal to 180% of final average monthly compensation, reduced by 10% for each year of credited service less than 10 years, but not less than $2,000.
Bridge leave of absence:
Eligibility: A participant is entitled to unpaid bridge leave of absence if, due to a reduction in force, he is within: a) 24 months of being eligible for regular early retirement, or b) 36 months of reaching 80-point early retirement eligibility, or c) 36 months of reaching normal retirement age as long as neither regular early retirement nor 80-point early retirement eligibility have been met. A participant will continue to earn vesting service and benefit service during bridge leave so that he can receive the maximum benefit available based on his age and service at the expiration of bridge leave.
