Tomarco Contractor Specialties, Inc. 401(K) Plan

Notes to the Financial Statements

December 31, 2011 and 2010

Note 1 – Description of the Plan

The following brief description of Tomarco Contractor Specialties, Inc. 401(K) Plan (the "Plan") is provided for general information purposes only. The Plan agreement should be referred to for a more complete description of the Plan's provisions.

General

The Plan, adopted as of January 1, 1995, is a defined contribution plan covering substantially all employees of Tomarco Contractor Specialties, Inc., a California corporation (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Eligibility

Employees who have completed six months of service are eligible to participate in the Plan and receive an allocation of Employer matching contributions. Participants can enroll in the Plan on the first day of the month following satisfaction of eligibility requirements.

Contributions

Each year participants may contribute a certain percentage of their pretax annual compensation as defined in the Plan up to an amount as provided annually by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans. The Employer may match, at its discretion, a fixed amount or a set percentage of each eligible employee's contribution as determined by its board of directors. Additional amounts including a profit sharing contribution may also be contributed at the option of the Employer. Contributions are subject to certain limitations. No Employer contributions were made for the years ended December 31, 2011 and 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and, (b) Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Employer's qualified non-elective safe harbor contributions plus actual earnings thereon. Vesting in Employer's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in annual increments of 20 percent, vesting at 20 percent in the second year of credited service, and up to 100 percent in the sixth year of credited service.

Note 1 – Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Normal retirement age is 65 years. The Plan does not permit early retirement.

Forfeited Accounts

That portion of an employee's interest, which is not vested upon the employee's break in service, is forfeited. The non-vested forfeited balances will be reallocated as of the end of the Plan year to the participants in the same manner as Employer's contributions. At December 31, 2011 and 2010 forfeited non-vested accounts totaled $33,344 and $31,315, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to 50 percent of their total vested balance, subject to a minimum of $1,000 and a maximum amount of $50,000. The notes are secured by the vested balance in the participant's account. The Plan provisions require a reasonable interest rate to be charged on the notes, and principal and interest to be paid ratably through regular payroll deductions. Interest rates on the notes range from 5.25% to 10.25% and the notes mature between March 2012 and August 2041. At December 31, 2011 and 2010 the outstanding balances of notes receivables from participants were $298,026 and $213,285, respectively.

Tax Status

The Plan is based on a Prototype Standardized 401(K) and Profit Sharing Plan document. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 granting approval to the prototype plan document. Under this arrangement the Plan is not obligated to file for a separate determination letter. Although the Plan has been amended, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 1 – Description of the Plan (continued)

Investment Options, Management and Administration

The Plan has engaged State Street Bank and Trust Company as the Plan trustee and Automatic Data Processing Retirement Services ("ADPRS") as the record keeper of the Plan. The assets of each fund within the Plan are invested under an arrangement with State Street Bank and Trust Company, the trustee. All expenses incurred in maintaining the Plan are paid by the Plan unless the Employer, at its discretion elects to pay all or part of the expenses. These expenses include fees of the Plan trustee, third-party administrators and accountants. Loan origination fees associated with notes receivable from participants are paid by the borrowing participants. Upon enrollment in the Plan, a participant may direct their contributions in the various investment choices, including mutual funds offered by the trustee. Participants should carefully read the prospectus before investing in the various funds offered under the Plan.

Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by State Street Bank & Trust Company who is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee for investment management services are included in the net appreciation/depreciation in fair value of investments. Fees paid to ADPRS for administrative services aggregated $2,400 for the year ended December 31, 2011.

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the Unites States of America.

Contributions

Contributions from participants are recorded based on payroll withholdings during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Note 2 – Summary of significant accounting policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note on fair value measurements below. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 2 – Summary of significant accounting policies (continued)

Fair Value Measurements

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies (mutual funds): valued at net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 2 – Summary of significant accounting policies (continued)

Fair Value Measurements (continued)

Although it has not expressed its intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100 percent vested in their account.

Note 4 – Information Certified by the Plan Trustee
